--	--	--

The YANMAR line of Final Tier 4 engines continues to build upon the legendary reliability of the YANMAR TNV line with a focus on vibration reduction and high-strength materials. The result is an engine more than capable of handling the most demanding applications. Building off the proven TNV design, YANMAR has achieved superior exhaust emissions utilizing common rail

direct-injection, exhaust gas recirculation, precise ECU engine control and a diesel particulate filter. 4TN107F HT - YANMAR Industrial Engines Yanmar has developed two new high-power industrial diesel engines, the 4TN101 and the 4TN107. With a maximum output of up to 155kW, both engines meet EU Stage V emission regulations. In expanding our over-56kW

class lineup, Yanmar is meeting a wide variety of off-road machinery needs, including construction, agricultural, and material-handling machinery to provide optimum eco-friendly power solutions. TWO NEW HIGH-POWER INDUSTRIAL DIESEL ENGINES ... - YANMAR More information. Bringing 4TN107 high power diesel engine to our customers is the result of Yanmar's rich heritage and

vast experience in developing cutting-edge diesel engine technology, and show YANMAR commitment to producing the very best high-power, fuel-efficient diesel engines that the market demands.
