This unabridged collection presents the best-of-the-best science fiction novellas published in 2016 by current and emerging masters of this vibrant form of story-telling. In "The Charge and the Storm," by An Owomoyela, an uneasy co-existence between human refugees from a crashed spaceship and the aliens who saved them is threatened by human dissidents. In "The Iron Tactician," by Alastair Reynolds, Merlin hunts the galaxy for a superweapon powerful enough to destroy the berserker-like robots called Huskers. "Einstein's Shadow," by Allen M. When a mysterious man claims to be her long-missing brother, a woman must confront her family's closely guarded secrets in this "delicious hybrid of mystery, drama, and elegance" (Jodi Picoult, #1 New York Times bestselling author). Washington, DC, 2019: Laura Preston is a reclusive artist at odds with her older sister Beatrice as their elegant, formidable mother slowly slides into dementia. When a stranger contacts Laura claiming to be her brother who disappeared forty years earlier when the family lived in Bangkok, Laura ignores Bea's warnings of a scam and flies to Thailand to see if it can be true. But meeting him in person leads to more questions than answers. Bangkok, 1972: Genevieve and Robert Preston live in a beautiful house behind a high wall, raising their three children with the help of a cadre of servants. In these exotic surroundings, Genevieve strives to create a semblance of the life they would have had at home in the US—ballet and riding classes for the children, impeccable dinner parties, a meticulously kept home. But in truth, Robert works for American intelligence, Genevieve finds herself drawn into a passionate affair with her husband's boss, and their serene household is vulnerable to unseen dangers in a rapidly changing world and a country they don't really understand. Alternating between past and present as all of the secrets are revealed, *What Could Be Saved* is an unforgettable novel about a family broken by loss and betrayal, and "a richly imagined page-turner that delivers twists alongside thought-provoking commentary" (Kirkus Reviews).

On an isolated island, seven people with a desperate need for money play a game conceived by an intelligence of perfect evil. A third is a perfectly ordinary mother whose seven-year-old's life depends on a million-dollar medical treatment. Each of the seven thinks he or she will do anything; all but one of them are wrong.
