Excerpt from Book-Keeping by Single and Double Entry Forms Of receipts, drafts, bills of. Parcels, accounts current, and such accounts as usually occur in real business, and useful calculations are given, with a vocabulary Of commercial terms, in alphabetical order. A course Of lectures on Double Entry by the way Of question and answer, with a general rule for journalizing and occasional notes, is presented to the student with the View, that from the numerous mercantile transactions therein elucidated, he may derive the desired advantage. The lectures comprise various questions in

domestic busi ness; discounting and renewing bills; importing and exporting; the purchase and sale of Bills Of Exchange; commission and company accounts, both foreign and domestic. The practice of the best regulated counting houses is strictly adhered to, throughout this treatise. He, who has not the advantage Of a tutor's instruction, will not fail to perceive that the plan to be pursued is, after having studied one lecture, he should examine himself by the questions adapted to it: and on the following day take the questions only, and write in his own words, the best answers he can devise, and then compare them with the book, without proceeding to a second lecture, till the first is well understood. It is, however, essentially necessary that he should be thoroughly acquainted with the terms and

phrases in use before he can acquire any real benefit from this method. If the learner have only retail business in View, either of the two methods by single entry will suffice. After having finished single entry Book-keeping, he may employ himself in drawing out Bills Of Parcels, Notes, Receipts, Drafts, &c. This book develops conceptual understanding of the fundamentals of financial accounting which play a crucial role in laying the foundation of commerce and accountancy courses in general and CPT in particular. Dexterously organized to suit the requirements of CPT aspirants, the text presents a step by step analysis of the basic concepts of accountancy in a comprehensive but in an easy-to-grasp manner. The text begins with discussing the meaning and scope of accounting and moves on by elaborating on different accounting standards, policies and the procedures followed in accounting. It also discusses ledger, trial balance, cash book and bills of exchange or promissory notes in the subsequent chapters. Apart from discussing the various types of accounts, such as partnership

accounts and company accounts, this text explains debentures and inventories in a simple and lucid style. Specifically meant for the prospective examinees of the Common Proficiency Test (CPT), conducted by the Institute of Chartered Accountants of India (ICAI), this text should also prove valuable to undergraduate students of commerce and management. SALIENT FEATURES Provides bird's eye view in each chapter for a quick understanding of the concept Includes keywords and summary at the end of each chapter Incorporates Multiple Choice Questions with their answers useful for CPT Provides model test papers, objective type questions and subject in nutshell in Appendices. *Civil Service Examinations. Business Accounting and Finance for Non

Specialists is aimed at non-specialist students of accounting and finance on

a first course in the subject. It gives a lively and wide-ranging survey of the basic principles of finance, financial accounting and management accounting.

The unique approach taken in the first Section of the book is to look at small to medium sized business organisations and their role in the economy ? how they are set up, factors in their success and failure and how they source funds for expansion. This leads to discussion of the role of financial markets and their need for financial information. Sections 2 and 3 then give an account of financial and management accounting principles, respectively.

The text is clearly written and technical jargon is minimal - any technical terms are clearly explained and a glossary of terms is provided. The book does not present the hurdle of double-entry bookkeeping at an early stage ? students can progress through the book without double-entry. Illustrative case studies and reference to real-life business examples are used to bring the technical information to life. Business Accounting and Finance for Non-specialists includes a large number of worked examples, to give students valuable practice in using their new skills. Other pedagogic elements include aims and learning outcomes, summaries, Case Studies with questions and solutions, individual learning activities, self-test questions with answers provided in the book, and exercises - the answers to which are divided between the book and the Lecturer?s Guide/Website. **Handbook of Research on Promoting Higher-Order Skills and Global Competencies in Life and Work** PHI Learning Pvt. Ltd.

This 1897 book, first reissued in 1984, is a key historical document from the early years of accounting, and carefully explains the various points of double entry

bookkeeping. Originally intended as a new method of instruction for students of accounting, it now serves to stand as a vital piece of the puzzle of the development of the accounting profession itself.

A Common-Sense Method of Double-Entry Bookkeeping on First Principles Cengage Learning

This book provides the reader with an opportunity to practice the double entry system of accounting. It contains 1000 practice questions. The solutions are provided for each question, along with an explanation, so that the student will be able to pinpoint exactly where any errors may have been made. These questions pertain to fictitious companies with revenues from services and sales. They include sales revenue, sales returns, various expenses, capital purchases, depreciation, dividend payouts, unearned revenue, and prepaid expenses. There are also practice questions for business loans, which include the posting of interest expense as well as the principal portion of the loan repayment. This book does not teach the theory, but instead, it is

intended to allow students to practice what they have learned in their introductory accounting or introductory bookkeeping course.
