All India Reporter Chandigarh : All India Directories Publishers
 The book entitled "Agricultural Heritage" is written as a textbook for the students in agriculture in the all agricultural universities, agricultural colleges at the undergraduate level as per syllabuses of 5th Dean Committee's recommendation taking account of lesson-wise 18 lecture plans derived from the content of the prescribed syllabus. In the past decade, the agricultural productivity increased substantially due to intensive management and introduction of fertilizer and irrigation responsive high yielding varieties of cereal crops to the fore. But it is essential to know that was where the agriculture started from the ancient past and that it reached to modern agriculture now as of today over a thousand of years in the process of civilization, social changes, and evolution. Though a few books are available on the title those did not have an arrangement of class lectures in accordance with the prescribed syllabus to give a ready-made and easy guidelines to the teachers for imparting lesson to the students. The course is being offered within the 1-3rd semester in undergraduate level within the curriculum. Hence, the attempt has been taken in arranging the prescribed syllabus systemically. This might be considered as the remedial measures removing the technical difficulties in bringing out a complete series of lesson plans to meet the demand.

Proceedings - Institution of British Agricultural Engineers

New India Publishing Agency

The book intends to supplement the course Crop Improvement I (Kharif crops) as per ICAR syllabus for the B.Sc. (Honours) in Agriculture. Till now no comprehensive books to support the course is available as a complete guide book Emphasis has been laid on describing the Kharif Crops from Crop Improvement point of view. Each of the chapters deals with a particular crop dealing with taxonomic identification, centre of origin, related species, brief genetics with botanical description, floral biology, crossing techniques, breeding objectives, breeding methods and achievements.

The Journal of Education Agricultural Heritage

This textbook has been designed to meet the needs of B.Sc. Second Semester students of Zoology for the Panjab University, Chandigarh. Maintaining the traditional approach to the subject, this textbook not only provides strong conceptual understanding, but also helps in developing scientific outlook of the student. It comprehensively covers two papers, namely, Paper-I: Biodiversity & Ecology I and Paper-II: Biodiversity & Ecology - II. The first part of the book discusses phylum Arthropoda with a detailed

case study of periplaneta. Further, it explains social organization in insects and economically important insects. It also discusses the components and dynamics of ecosystem. Second part of the book provides a detail account of phylum Mollusca along with its the general introduction and case studies. Furthermore, it elucidates natural resources like renewable and nonrenewable natural resources and their conservations. This book also discusses the wildlife conservation including national park, sanctuary and IUCN red list.

Agricultural Heritage S. Chand Publishing
