 NEW YORK TIMES BESTSELLER In the second volume of his epic trilogy about the liberation of Europe in World War II, Pulitzer Prize winner Rick Atkinson tells the harrowing story of the campaigns in Sicily and Italy In An Army at Dawn—winner of the Pulitzer Prize—Rick Atkinson provided a dramatic and authoritative history of the Allied triumph in North Africa. Now, in The Day of Battle, he follows the strengthening American and British armies as they invade Sicily in July 1943 and then, mile by bloody mile, fight their way north toward Rome. The Italian campaign's outcome was never

certain; in fact, Roosevelt, Churchill, and their military advisers engaged in heated debate about whether an invasion of the so-called soft underbelly of Europe was even a good idea. But once under way, the commitment to liberate Italy from the Nazis never wavered, despite the agonizingly high price. The battles at Salerno, Anzio, and Monte Cassino were particularly difficult and lethal, yet as the months passed, the Allied forces continued to drive the Germans up the Italian peninsula. Led by Lieutenant General Mark Clark, one of the war's most complex and controversial commanders, American officers and soldiers became increasingly determined and proficient. And with the liberation of Rome in June 1944, ultimate victory at last began to seem inevitable. Drawing on a wide array of primary source material, written with great drama and flair, this is narrative history of the first rank. With The Day of Battle, Atkinson has once again given us the definitive account of one of history's most compelling military campaigns.

 The Day of Battle Maggioli Editore

A harrowing and incisive “high-quality battle history” from one of the world’s finest military historians (Booklist). The Allied attack of Normandy beach and its resultant bloodbath have been immortalized in film and literature, but the US campaign on the beaches of Western Italy reigns as perhaps the deadliest battle of World War II’s western theater. In January 1944, about six months before D-Day, an Allied force of thirty-six thousand soldiers launched one of the first attacks on continental Europe at Anzio, a small coastal city thirty miles south of Rome. The assault was conceived as the first step toward an eventual siege of the Italian capital. But the advance stalled and Anzio beach became a death trap. After five months of brutal fighting and monumental casualties on both sides, the Allies finally cracked the German line and marched into Rome on June 5, the day before D-Day. Richly detailed and fueled by extensive archival research of newspapers, letters, and diaries—as well as scores of original interviews with surviving soldiers on both sides of the trenches—Anzio is a “relentlessly fascinating story with plenty of asides about individuals’ experiences” (Publishers Weekly). “Masterly . . . A heartbreaking, beautifully told story of wasted sacrifice.” —The Washington Post

This book focuses on developments and trends pertaining to online falsehoods and mobile instant messaging services (MIMS), the impact of online falsehoods transmitted via MIMS, and practice and intervention. As the reliance on mobile devices for news seeking and information sharing continues to grow, the spread of online falsehoods on MIMS is a problem that confounds academics, practitioners, and policymakers. Recent developments in countries such as Brazil and India demonstrate how MIMS facilitate the spread of online falsehoods. Given that a number of non-academic and non-governmental institutions in the region are doing important work in countering the influence of online falsehoods, this book also includes contributions by practitioners who design initiatives and programmes in this area. The book is a timely contribution in addressing the distinct issues of online falsehoods in a large, technophilic region such as Asia, grappling with problems of online falsehoods on so many fronts, including ideological extremism, political opportunism, cyberscams, political activism, digitalised learning, geopolitical tensions, and more. Relevant to researchers and policymakers, this book provides a timely and critical analysis of both research and practice conducted in the Asian context by scholars hailing from a

Das Handbuch bietet erstmals einen umfassenden interdisziplinären Überblick über die postkoloniale Theorie und Forschung in den Literatur- und Kulturwissenschaften. Es verbindet die Einführung in das Thema mit einer kritischen Zwischenbilanz zu diesem internationalen Forschungsfeld. Auf einen Theorieteil und die lexikalische Darstellung von postkolonialen Grundbegriffen folgen Artikel zur Literatur-, Kultur- und Mediengeschichte des Kolonialismus und Postkolonialismus in den betroffenen Kulturräumen sowie ein Anhang mit historischen Überblicken zu einzelnen Ländern und weiterführenden Informationen. Das Handbuch richtet sich an wissenschaftliche Leserinnen und Leser und bietet Ansatzpunkte für künftige Forschung, soll aber auch für Studierende und interessierte Laien eine verlässliche Basis zur Auseinandersetzung mit der europäischen Kolonialgeschichte, ihren kulturellen Resonanzen und ihrer postkolonialen Aufarbeitung in Literatur und Kultur bereitstellen.

Die Liege von Le Corbusier, das Radio von Rams, der Stuhl von Eames – Designer machen Dinge zu Kultobjekten und werden selbst zu Ikonen. Aber wer weiß, welches Coupé von Frua, welche Limousine von Engel, welcher Kombi von Opron designed wurden? Automobildesign galt lange als anonym, die Stylisten standen im Schatten der Designwahrnehmung, obwohl ihre Entwürfe millionenfach auf den Straßen anzutreffen sind. Dieses reich bebilderte Buch zeichnet die Entstehung eines Berufszweigs nach und verfolgt die Entwicklung des Automobildesigns: in einer umfassenden Einführung sowie anhand der Arbeitsbiografien von über 200 ausgewählten Designerinnen und Designern, die zwischen 1900 und 2000 in den USA, Europa und Japan dem Automobil in vielfältigen Produkten eine Form gegeben haben.

This textbook takes a fresh approach to contract law; as a first edition it reflects the subject in the 21st century more accurately than other texts.

Comprehensive and scholarly, it maps the curriculum perfectly but detailed references and further reading sections encourage students to explore the subject further. Understanding is paramount and chapter introductions clearly guide students through the material. The textbook takes an innovative approach to case law: breaking down and discussing individual elements of a case and selecting short key extracts it gives students the tools to read cases independently and with confidence. An examination of the historical and theoretical foundations of the subject and a concluding chapter tracking emerging fields ensure the broadest possible perspective. Discussion of key recent cases such as Durham Tess Valley Airport (2010) and Chartbrook (2009) make this important new text a must for contract law students.

Mai come nell'ultimo periodo il mercato delle quattro e delle due ruote è stato tanto in fermento da determinare una vera e propria metamorfosi delle reti distributive. Calo vertiginoso della domanda, inasprimento della concorrenza, aumento degli standard quantitativi e qualitativi richiesti dalle Case produttrici, maggiore ricorso a fonti di finanziamento esterne, diminuzione della redditività, sono solo alcuni dei tanti nuovi mostri sperimentati da chi vende e ripara auto e moto. Questa evoluzione rende necessaria la conoscenza di tecniche di gestione tipiche di un settore in cui la passione non può più pilotare il destino delle aziende. Questo primo manuale di Dealership Management italiano, dedicato al settore automotive, spiega a fondo tutti gli aspetti del mercato e dell'organizzazione aziendale. Attraverso esempi concreti e dalla viva voce dei top manager delle più importanti Case italiane di auto e moto, offre importanti soluzioni a molti dei problemi emersi negli ultimi anni e le mosse per anticipare la ripresa. La prefazione del libro è un'intervista a Giuseppe Volpato (professore ordinario di Economia e gestione delle imprese presso l'Università Ca' Foscari di Venezia, membro dello Steering Committee del Groupe d'Etude et Recherche Permanent dans l'Industrie et les Salariés de l'Automobile di Parigi e Senior Adviser dell'International Car Distribution Programme di Birmingham), che ci aiuta a decifrare con rigore scientifico l'evoluzione in atto nel business model della distribuzione automotive.
