### Cost Estimating | WBDG - Whole Building Design Guide

Construction Cost Estimating For TheThe Elements of a  
 Construction Cost Estimate Quantity Take-Off: Developed during  
 the pre-construction phase, a quantity take-off measures... Labor  
 Hour: The labor hour, or man hour, is a unit of work that  
 measures the output... Labor Rate: The labor rate is the amount  
 per hour one pays to skilled ...Construction Cost Estimating:  
 Basics and Beyond |SmartsheetUse our construction cost  
 calculator to quickly estimate new construction costs on over 50  
 building types. "Online construction estimating. Quickly estimate  
 the cost of residential and commercial projects in over 160  
 US."Online construction estimating. Quickly estimate the cost  
 ...Construction cost estimating should lead to profitable business  
 and satisfied clients. However, it can all too rapidly veer towards  
 loss of money (estimates too low) or loss of customer (estimates  
 too high). It's no wonder that so many people want to add their  
 two cents' worth about the best way to do it.The Ultimate Guide  
 to Construction Cost EstimatingA detailed estimate of the cost of  
 a project is prepared by determining the quantities and costs of  
 every thing that a contractor is required to provide and do for the  
 satisfactory completion of the work. It is the best and most  
 reliable form of estimate. A detailed estimate may be prepared in  
 the following two waysConstruction Cost Estimating :  
 Approximate and Detailed ...The most trusted construction cost  
 estimating source in North America for over 70 Years Brought to  
 you by Gordian, RSMean data provides accurate and up-to-date  
 construction estimating cost data that helps owners, architects,  
 cost engineers, contractors and others to precisely project and  
 control the cost of both new building construction and renovation  
 projects.RSMMeans data: Construction Cost Estimating  
 SoftwareThe levels of the construction cost estimate correspond  
 to the typical phases of the building design and development  
 process and are considered standards within the industry. These  
 levels are as follows: Level 1 - Order of Magnitude. The purpose  
 of the Level 1 estimate is to facilitate budgetary and feasibility  
 determinations.Cost Estimating | WBDG - Whole Building Design  
 GuideUnit Cost Estimating. You can't take three or four weeks  
 with your quotation. You need to be back in front of your  
 customers with a quote in 3-5 days, at most 7-10 days. Larger

jobs (+\$100,000) may take a day or two longer because you  
 need to get quotes from your subs, but no longer than that.How  
 to Estimate a Construction ProjectBuilding Cost Calculators Since  
 1950. Every year Building-Cost.net generates over a million  
 replacement cost estimates for estimators, appraisers and  
 valuers in the US and Canada.Appraisal Estimating Software -  
 Craftsman Book CompanyPerforming accurate cost estimating is  
 critical to the success of your construction business. Estimate too  
 high and you win fewer jobs, too low and your profits disappear.  
 That's why it's so important to get it right the first time.5 Popular
