The Cambridge Handbook of Lawyering in the Digital Age Bloomsbury Publishing

With increasing digitalization and the evolution of artificial intelligence, the legal profession is on the verge of being transformed by technology (legal tech). This handbook examines these developments and the changing legal landscape by providing perspectives from multiple interested parties, including practitioners, academics, and legal tech companies from different legal systems. Scrutinizing the real implications posed by legal tech, the book advocates for an unbiased, cautious approach for the engagement of technology in legal practice. It also carefully addresses the core question of how to balance fears of industry takeover by technology with the potential for using legal tech to expand services and create value for clients. Together, the chapters develop a framework for analyzing the costs and benefits of new technologies before they are implemented in legal practice. This interdisciplinary collection features contributions from lawyers, social scientists, institutional officials, technologists, and current developers of e-law platforms and services.

English for Law. Theory and Practice West Academic Publishing

English is the dominant language of international business relations, and a good working knowledge of the language is essential for today's legal or business professional. Legal English provides a highly practical approach to the use of English in commercial legal contexts, and covers crucial law terminology and legal concepts. Written with the needs of both students and practitioners in mind, this book is particularly suitable for readers whose first language is not English but need to use English on a regular basis in legal contexts. The book covers both written and oral legal communication in typical legal situations in a straightforward manner. As well as including chapters on grammar and punctuation for legal writing, the book features sections on contract-drafting, language for negotiation, meetings and telephone conversations. This edition contains additional troubleshooting tips for legal writing, guidance on good style, and new sections on writing law essays and applying for legal positions.

International Legal English Teacher's Book Wolters Kluwer

This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics (theories of sound, form, meaning, and language change), and in addition provides full coverage of contextual linguistics, including separate chapters on discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.

Cambridge University Press

This practical handbook provides a comprehensive overview of professional legal language and practical skills. Prepared by native English-speaking lawyers, the book includes professional legal English terminology, practice-oriented examples and sample documents for use in your daily practice. Structured to provide a legal focus, a language focus as well as a practical focus, it helps you apply your professional legal expertise competently in various English-language situations.

A Text with Exercises Eleven International Pub

This book explores the interface between law and popular culture, two subjects of enormous current importance and influence. Exploring how they affect each other, each chapter discusses a legally themed film or television show, such as Philadelphia or Dead Man Walking, and treats it as both a cultural and a legal text, illustrating how popular culture both constructs our perceptions of law, and

changes the way that players in the legal system behave. Written without theoretical jargon, Law and Popular Culture: A Course Book is intended for use in undergraduate or graduate courses and can be taught by anyone who enjoys pop culture and is interested in law.

A Course Book Peter Lang

"Absolute Legal English is a practical and stimulating course book for students of law and practising lawyers who wish to work in an international legal environment and need to extend their language skills. It is particularly useful for candidates preparing for the ILEC exam"-back cover.

The Legal English Manual NYU Press

This history of legal language slices through the polysyllabic thicket of legalese. The text shows to what extent legalese is simply a product of its past and demonstrates that arcane vocabulary is not an inevitable feature of our legal system.

The Lawyer's English Language Coursebook Pearson Higher Ed

Legal English is a professional language. This means that a good command of ordinary English does not automatically make a student proficient in legal English. Many foreign law students on English language programmes experience problems when suddenly all their lectures, textbooks, discussions and written work have to be in English. A lack of familiarity with legal English can seriously impede their progress. And a command of legal English is not just a desirable academic skill. It has become an absolute 'must' for today's legal professionals working in internationally orientated law firms. This book offers: vocabularies providing sets of legal terminology associated with the legal system, civil procedure, EU law, tort, contract law and company law; text putting the terms in the vocabularies into their legal context; case discussion questions in order to practice using the terminology; knowledge questions to ensure that the reader has understood the legal concepts. This book is designed for law students who have followed their law studies in a language other than English. Textbooks on English law are too detailed for those who want to understand English legal terminology rather than English law itself. Legal dictionaries are useful but, as the words are ordered alphabetically, terms are treated in isolation.

A Novel West Academic Publishing

Legal English: How to Understand and Master the Language of Law offers a contemporary guide for students and practitioners alike who want to improve their language skills and build confidence in communicating effectively from the classroom to the courtroom. The second edition has been completely revised and updated to cover all aspects of language as used in a legal context where effective communication is crucial to both academic and professional success.

Global Corruption Carolina Academic Press LLC

An essential handbook for international lawyers and students Focusing on vocabulary, Essential Legal English in Context introduces the US legal system and its terminology. Designed especially for foreign-trained lawyers and students whose first language is not English, the book is a must-read for those who want to expand their US legal vocabulary and basic understanding of US government. Ross uses a unique approach by selecting legal terms that arise solely within the context of the levels and branches of US government, including terminology related to current political issues such as partisanship. Inspired by her students' questions over her years of teaching, she includes a vast collection of legal vocabulary, concepts, idioms, and phrasal verbs and unpacks concepts embedded in US case law, such as how the US constitutional separation of powers may affect a court's interpretation of the law. The handbook differentiates basic terms in civil and criminal cases and compares terms that may seem similar because of close spellings but in fact have different meanings. For instance, what is the distinction between "taking the stand" and "taking a stand?"

What is the difference between “treaties” and “treatises”? Featuring illustrations and hands-on exercises, *Essential Legal English in Context* is a valuable self-study resource for those who want to improve their legal English terminology before entering a US law school, studying US law or government, or working as a seconded attorney to a US law firm. Instructors can use the handbook in an introductory US legal English course.

Legal English Lawbilty Ltd.

American Legal English: Using Language in Legal Contexts provides a basic introduction to the U.S. legal system for non-native speakers of English. It combines elements of law with language to enhance non-native English speakers's ability to communicate with their legal counterparts in English. Reading, writing, listening, and speaking activities are included in each chapter. While a good basic knowledge of general English is presumed, there is no assumption that the students have any knowledge of the U.S. legal system or legal terminology. Collaborative, communicative activities are used throughout the text to engage student interest and involve them in the learning process. Realia, in the form of cases and statutes, is included so that students become comfortable with legal English and its sometimes difficult syntax. The text can be used for both law students and legal practitioners, in either intensive programs or those of longer duration. Non-attorney English for Specific Purposes instructors who have some interest in the legal field will be able to use the book and rely on the expertise of their students to create an effective learning environment in a Law and Language course. The organization of the book is by legal content, beginning with a broad overview of the system and how it works, then moving to specific areas of law such as torts or contracts. The book culminates in a mock trial, which provides students an opportunity to employ all of the skills and knowledge they have acquired during study of the preceding chapters. .

TOLES Legal English Wolters Kluwer

English for Law in Higher Education Studies The Garnet Education English for Specific Academic Purposes series won the Duke of Edinburgh English Speaking Union English Language Book Award in 2009. *English for Law* is a skills-based course designed specifically for students of law who are about to enter English-medium tertiary level studies. It provides carefully graded practice and progressions in the key academic skills that all students need, such as listening to lectures and speaking in seminars. It also equips students with the specialist legal language they need to participate successfully within a legal studies faculty. Extensive listening exercises come from law lectures, and all reading texts are taken from the same field of study. There is also a focus throughout on the key legal vocabulary that students will need. The Teacher's Book includes: Comprehensive teaching notes on all exercises to help teachers prepare effective lessons Complete answer keys to all exercises Full transcripts of listening exercises Facsimiles of Course Book pages at the appropriate point in each unit Photocopiable resource pages and ideas for additional activities The Garnet English for Specific Academic Purposes series covers a range of academic subjects. All titles present the same skills and vocabulary points. Teachers can therefore deal with a range of ESAP courses at the same time, knowing that each subject title will focus on the same key skills and follow the same structure. Key Features Systematic approach to developing academic skills through relevant content. Focus on receptive skills (reading and listening) to activate productive skills (writing and speaking) in subject area. Eight-page units combine language and academic skills teaching. Vocabulary and academic skills bank in each unit for reference and revision. Audio CDs for further self-study or homework. Ideal coursework for EAP teachers.

Professional English in Use Law is a brand new addition to the Professional English in Use series.

A Manual of Style for Contract Drafting John Wiley & Sons

Introduction to International Legal English is an intermediate level course for law students or newly-qualified lawyers who need to use English in their legal work or studies. Suitable for classroom use or self-study, the course prepares learners for using English in a commercial law environment. Using authentic legal texts and case studies supplied by TransLegal®, Europe's leading firm of lawyer-linguists, the course develops an understanding of the law and consolidates language skills.

Featuring both academic and professional contexts, *Introduction to International Legal English* is an ideal starting point for preparing for the Cambridge ILEC examination.

Practical Legal English Routledge

Comprehensive student-friendly resources designed for teaching Cambridge International AS and A

Level English Language (syllabus 9093 for first examination in 2015). The core aim of this Coursebook is to help students to develop and apply the key skills they need to achieve in AS and A Level English Language. They will build the skills needed for assessment through frequent activities. Divided into two distinct parts for AS and A Level studies, the book covers a wide range of reading skills, such as understanding aspects of style, voice and tone. It also addresses the conventions of key kinds of writing and spoken language, from scripted speeches to travel articles, and looks at how they can capture these conventions in their own work.

'English for Tax Professionals' is a Business English course book designed to address the specific language needs of tax consultants, tax lawyers, tax accountants, auditors, tax agency officials and numerous other tax professionals. The Book offers a 100% target language set in the right context, along with the guidance on how to learn new vocabulary, concise revision of key structures, speaking activities, writing tasks and a complete glossary of terms. The Teacher's Book is an essential companion to the Student's Book, created with a view to enabling teachers with little or no experience in teaching taxation topics to deliver an effective and confident 'English for Tax Professionals' class. The Book benefits more experienced teachers by significantly reducing their lesson preparation time, enhancing their teaching skills and providing a rich source of additional activities. The Book offers detailed and clear instructions on how to teach the course, along with relevant background information on taxation topics discussed and numerous Extra Activities, designed to provide the context and opportunity for further practice. Key Features: classroom tested careful selection of relevant topics systematic vocabulary building by thematic areas guided speaking and writing exercises grammar revision in taxation context a clear and recognisable unit pattern a complete glossary of terms

Fundamentals of Lawyer Leadership Cambridge University Press

David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

The Lawyer's English Language Coursebook Anchor

Admirably clear, concise, down-to-earth, and powerful—all too often, legal writing embodies none of these qualities. Its reputation for obscurity and needless legalese is widespread. Since 2001 Bryan A. Garner's *Legal Writing in Plain English* has helped address this problem by providing lawyers, judges, paralegals, law students, and legal scholars with sound advice and practical tools for improving their written work. Now the leading guide to clear writing in the field, this indispensable volume encourages legal writers to challenge conventions and offers valuable insights into the writing process that will appeal to other professionals: how to organize ideas, create and refine prose, and improve editing skills. Accessible and witty, *Legal Writing in Plain English* draws on real-life writing samples that Garner has gathered through decades of teaching experience. Trenchant advice covers all types of legal materials, from analytical and persuasive writing to legal drafting, and the book's principles are reinforced by sets of basic, intermediate, and advanced exercises in each section. In this new edition, Garner preserves the successful structure of the original while adjusting the content to make it even more classroom-friendly. He includes case examples from the past decade and addresses the widespread use of legal documents in electronic formats. His book remains the standard guide for producing the jargon-free language that clients demand and courts reward.

English as a Global Language Cambridge University Press

Check Your English Vocabulary for Medicine is a workbook designed to help learners of English improve their knowledge and understanding of core medical terminology. The workbook includes crosswords, puzzles and word games to test and build specialist English vocabulary. The combination of self-study exercises and practical speaking activities mean that this book is ideal for both home and class-based study.
