As Toyota skids into an ocean of problems and uncertainty continues in the U.S. automotive industry, Lemon-Aid Used Cars and Trucks 2011/2012 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years. Lemon-Aid guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, Lemon-Aid Used Cars and Trucks is an expos of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers can't beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

Some people discard their dreams into a bottomless throwaway basket, but what the author did is make a book about them, especially the work situations that he dreamed. Since he worked with his hands most of his life, he decided to basically write down all his dreams that entailed work scenarios. After all, he dreamed of many types of other dreams, which may require further editions. With some of his dreams, he also incorporated a certain form of common sense type of analyzation. After all, dreams always have a secret meaning, and the author's curiosity will never make that secret rest. There are beneficial aspects of dissecting a dream that can lead anyone in a life with fewer mistakes, only if they are open to finding the meaning of the dreams they dream. One can go to a psychiatrist for \$600 an hour

to try to understand their dreams, or they could possibly learn the art of analyzing their dreams with a self-made inexpensive method from this book. Lastly, if by reading this book, and only learning one little tidbit on understanding one's dreams, the actual cost of this book would cost the reader less than three minutes time of a shrink.

Avoid Major Investigative Traps What causes competent and dedicated investigators to make avoidable mistakes, jeopardizing the successful resolution of their cases? Authored by a 21-year police veteran and university research professor, *Criminal Investigative Failures* comprehensively defines and discusses the causes and problems most common to failed investigations. More importantly, it outlines realistic strategies for avoiding investigative pitfalls. Illuminated with case studies, this practical resource examines three main reasons for investigative failure: Cognitive biases, such as tunnel vision, that lead to mistakes in reasoning Organizational traps, such as groupthink, that investigators fall prey to within their agencies Probability errors, such as the prosecutor's fallacy, in forensic science and criminal profiling The Dangers of Assumptions and Organizational Ego Authoritative contributors from a variety of disciplines elaborate on the aforementioned core points with commentary and case studies of well-known crimes. Written in a quick-to-grasp style, this useful text provides practical advice for avoiding investigative failures. It is an invaluable reference for investigators looking to prevent future failures of justice and find the truth.

"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about." - The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's

automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more potent and provocative than ever.

New Economic Spaces: New Economic Geographies CRC Press
As a core volume in the Dynamics of Economic Space series, contributors from North America, Australasia, Europe and the Middle East each address the constitutive processes of new economic and institutional spaces and the theoretical, methodological and policy-engaging practices of emerging economic geographies. Together, they provide a timely and important overview of the current debates about the geographies of economic change. As national and regional economies change rapidly, so the frameworks, concepts and methods used to describe and analyse those processes also need to evolve. This volume puts forward a comprehensive analysis of a range of different and innovative means currently available, through which to view regional economic activities and interactions.

Canada's automotive "Dr. Phil" says there's never been a better time to buy a new car or truck. For deals on wheels, 2013 will be a "perfect storm." There's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar, a worldwide recession driving prices downward, and a more competitive Japanese auto industry that's still reeling from a series of natural disasters. In addition to lower prices and more choices, 2013 car buyers will see more generous cash rebates, low financing rates, bargain leases, and free auto maintenance programs. Buy, sell, or hold? Which cars and trucks are "wallet-friendly" and can easily last 15 years? Which vehicles offer the most features to best accommodate senior drivers? Do ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers? Is GM's 2013 Volt electric car destined

to become an electric Edsel? These questions and more are answered in this informative guide.
