Now more than ever, people are painfully divided politically, religiously, and culturally. And yet, there is a commonality in our faith traditions that can help us turn away from polarization and create a greater sense of community in which our differences are honored. The Peacemaker's Path brings together wisdom from the world's major religious traditions, including Bahá'í, Buddhism, Christianity, Hinduism, Islam, Jainism, Judaism, Native American spiritualities, Sikhism, Taoism, and Zoroastrianism, showing that we have much more in common than what divides us. Through daily readings that explore the tenets, teachings, writings, and prayers of these diverse faith traditions, you will gain new insight, understanding, and connection with people from different religious backgrounds. Each day offers a reflection, scripture passages from the world's religions, questions to contemplate, a call to action, and a closing prayer. May we realize the tremendous importance of building bridges of peace in our own lives, our communities, and our world. Loving our friends is easy; loving the "other" will bring shalom.

The Great Inflation and Its Aftermath Pustak Mahal

From the author of the New York Times bestselling *Bad Boys* novels comes another dark, sexy story... Is she brave enough to give her heart to a man she only thought she knew? He was the most charismatic man I'd ever met. Strong, tough, brave. Bold as hell. Something told me Tag Barton could have anything--anyone--he wanted...and he wanted me. It didn't matter that he was wrong for me in practically every way possible. It didn't matter that my father would hate it. I couldn't resist him. Even if I'd known who he really was and what he was really capable of. When he suggested we pretend to be engaged, I thought he was the answer to all my problems. He wasn't. And, in his wake, he left nothing but scorched earth and me, just another casualty of my father's war. Can I believe him now when he tells me he loves me? Or is he nothing more than a beautiful, breathtaking lie?

Innovation is often presented as being in the exclusive domain of the private sector. Yet despite widespread perceptions of public-sector inefficiency, government agencies have much to teach us about how technological and social advances occur. Improving governance at the municipal level is critical to the future of the twenty-first-century city, from environmental sustainability to education, economic development, public health, and beyond. In this age of acceleration and massive migration of people into cities around the world, this book explains how innovation from within city agencies and administrations makes urban systems smarter and shapes life in New York City. Using a series of case studies, *Smarter New York City* describes the drivers and constraints behind urban innovation, including leadership and organization; networks and interagency collaboration; institutional context; technology and real-time data collection; responsiveness and decision making; and results and impact. Cases include residential organic-waste collection, an NYPD program that identifies the sound of gunshots in real time, and the Vision Zero attempt to end traffic casualties, among others. Challenging the usefulness of a tech-centric view of urban innovation, *Smarter New York City* brings together a multidisciplinary and integrated perspective to imagine new possibilities from within city agencies,

with practical lessons for city officials, urban planners, policy makers, civil society, and potential private-sector partners.

Traditional meetings are a weapon of mass interruption. Long live the Modern Meeting! The average American office worker spends eleven hours in meetings every week. Yet all that time sitting around a conference table hasn't made us more productive. If anything, meetings have made work worse. Traditional meetings reduce efficiency, kill urgency, and breed compromise and complacency. Worst of all, our dysfunctional meeting culture changes how we focus, what we focus on, and what decisions we make. But there is a solution, a way to have fewer, shorter, more purposeful meetings. It's called the Modern Meeting Standard. By following its eight simple but radical principles you may never have to attend a useless meeting again. *Read This Before Our Next Meeting* is the call to action you (and your boss) need.

Countless hours of productivity are lost in today's workplace, the vast majority of workers are not engaged in their work, and there is a significant divide between employees and management. But it doesn't have to be this way. Robert McFarland surveyed hundreds of people in different industries across the country and discovered the top four concerns of employees today. This book details these four main concerns, provides comprehensive biblical solutions to each of them, and also addresses the workplace culture problems faced by virtually every company in the marketplace. Christian business leaders who want to involve their faith in the workplace can create a work environment conducive to employee engagement and company productivity. By using a biblical model to solve the problems plaguing today's workforce, Christian business leaders can take steps to erase this divide between management and employees and rescue their company's productivity.

A powerful story about the African philosophy of teamwork and collaboration that has the power to reshape our workplaces, our relationships with our coworkers, and our personal lives, written by the bestselling coauthor of *Fish!* and the bestselling author of *1001 Ways to Reward Employees*. John Peterson, a new manager in the credit department at a major big-box retailer, is struggling in his job. The people under him are not working as well or effectively as they need to, and his department is falling behind in meeting its goals. His only solution is to take on more work himself, burning the midnight oil and coming in most weekends to

pick up the slack and keep his department above water. When one of the employees stays behind to help him—a young man who came to America from a small village in Africa—he learns of the ancient wisdom and hidden power of the African philosophy of Ubuntu. Before long, it begins to change the way he thinks about the people he works with, about himself, and about how he runs his department and his life. In an engaging and completely fresh narrative that holds a unique message for today’s business world, *Ubuntu!* shows us a way to overcome our fears, insecurities, and the “me-ism” that so often permeates our workplaces, and replace it with a culture of genuine respect and collaboration. It promises to take its place alongside *Fish!* and other business parables as the next bestselling classic in the business category. **Secrets of Leadership** Zed Books Ltd.

A gripping portrait of modern Tibet told through the lives of its people, from the bestselling author of *Nothing to Envy* “A brilliantly reported and eye-opening work of narrative nonfiction.”—The New York Times Book Review **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Parul Sehgal, The New York Times • The New York Times Book Review • The Washington Post • NPR • The Economist • Outside • Foreign Affairs** Just as she did with North Korea, award-winning journalist Barbara Demick explores one of the most hidden corners of the world. She tells the story of a Tibetan town perched eleven thousand feet above sea level that is one of the most difficult places in all of China for foreigners to visit. Ngaba was one of the first places where the Tibetans and the Chinese Communists encountered one another. In the 1930s, Mao Zedong’s Red Army fled into the Tibetan plateau to escape their adversaries in the Chinese Civil War. By the time the soldiers reached Ngaba, they were so hungry that they looted monasteries and ate religious statues made of flour and butter—to Tibetans, it was as if they were eating the Buddha. Their experiences would make Ngaba one of the engines of Tibetan resistance for decades to come, culminating in shocking acts of self-immolation. *Eat the Buddha* spans decades of modern Tibetan and Chinese history, as told through the private lives of Demick’s subjects, among them a princess whose family is wiped out during the Cultural Revolution, a young Tibetan nomad who becomes radicalized in the storied monastery of Kirti, an upwardly mobile entrepreneur who falls in love with a Chinese woman, a poet and intellectual who risks everything to voice his resistance, and a Tibetan schoolgirl forced to choose at an early age between her family and the elusive lure of Chinese money. All of them face

the same dilemma: Do they resist the Chinese, or do they join them? Do they adhere to Buddhist teachings of compassion and nonviolence, or do they fight? Illuminating a culture that has long been romanticized by Westerners as deeply spiritual and peaceful, Demick reveals what it is really like to be a Tibetan in the twenty-first century, trying to preserve one’s culture, faith, and language against the depredations of a seemingly unstoppable, technologically all-seeing superpower. Her depiction is nuanced, unvarnished, and at times shocking.

In this third edition, bestselling authors Ken Blanchard and Mark Miller answer the question most leaders ask at some point in their career: “What do I need to do to be a great leader?” The secret may surprise you. The authors get at the heart of what makes a leader successful in this classic business fable. Newly promoted but struggling young executive Debbie Brewster asks her mentor, “What is the secret of great leaders?” His reply—“great leaders serve”—flummoxes her, but over time he reveals the five fundamental ways that leaders succeed through service. Along the way, Debbie learns: • Why great leaders seem preoccupied with the future • How people on the team ultimately determine your success or failure • What three arenas require continuous

improvement • Why true success in leadership has two essential components • How to knowingly strengthen—or unwittingly destroy—leadership credibility This new edition includes a leadership self-assessment so readers can measure to what extent they lead by serving and where they can improve. The authors have also added answers to the most frequently asked questions about how to apply the SERVE model in the real world. As practical as it is uplifting, *The Secret* shares Blanchard and Miller’s wisdom about leadership in a form that anyone can easily understand and implement.

How to Read a Person Like a Book Berrett-Koehler Publishers Fail! And we are stamped for life. Don’t we try and run from failure all our lives? But, ‘spontaneous doing has to go through failures.’ Acknowledging failure is singularly the most difficult thing to do. It takes tremendous courage to come out and say, yes, I failed. Shweta Punj chronicles sixteen such leaders who have celebrated their failure as much as their success. Each story is an anatomy of failure. So whether it was the difference between ‘need’ and ‘want’ that led Abhinav Bindra to miss that winning shot, or whether it was a suicide attempt that pushed Sabyasachi Mukherjee into fully realizing his potential—these stories will prod you to look at failure differently.
