Thinking Through brings together new and recent writing by Himani Bannerji. Through anti-racist, Marxist feminism, Bannerji questions the notion of distinct/separate oppressions which understands gender, race and class as separate issues. Incisive and important, Thinking Through offers a new strategy to theorizing gender, race, class and socialist revolution.

Contesting Feminist Orthodoxies Vintage

From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—The New York Times Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also

discusses Communist women, the murder of Emmett Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.

This volume utilizes the cross-cultural, historical and ethnographic perspective of anthropology to illuminate the intrinsic connections of race, class and gender. The author begins by discussing the manner in which her experience as a participant observer led her to research and write about various aspects of African-American women's experiences. She goes on to provide a critical analysis of the new scholarship on African-American women, and explores issues of race, class and gender in the arenas of work, kinship and resistance.

'It is absolutely brilliant, I think every woman should read it'
PANDORA SYKES, THE HIGH LOW 'My wish is that every white woman who calls herself a feminist will read this book in a state

of hushed and humble respect ... Essential reading' ELIZABETH GILBERT All too often the focus of mainstream feminism is not on basic survival for the many, but on increasing privilege for the few. Meeting basic needs is a feminist issue. Food insecurity, the living wage and access to education are feminist issues. The fight against racism, ableism and transmisogyny are all feminist issues. White feminists often fail to see how race, class, sexual orientation and disability intersect with gender. How can feminists stand in solidarity as a movement when there is a distinct likelihood that some women are oppressing others? Insightful, incendiary and ultimately hopeful, Hood Feminism is both an irrefutable indictment of a movement in flux and also clear-eyed assessment of how to save it.

to resonate both in and outside the academy. Examines recent scholarship to how one's gender, with the added dimension of race and class, can impact one's experiences in society. Probes deeper under the surface of different biases to see whether common elements of discrimination may also be at work. This issue of Endnotes has been a long time coming. Its publication was delayed due to experiences and conversations that compelled us to clarify our analyses, and at times to wholly rework them. Many of the articles in this issue are the products of years of discussion. Some articles spilled over into such lengthy pieces that we had to split the issue in two. Endnotes 4 will

therefore be forthcoming, not in another three years, but rather, in the next six months. Here, by way of explanation for the delay, we describe some of the questions and quandaries that gave birth to this issue and the next.

"Queer theory," asserts Linda Garber, "alternately buries and vilifies lesbian feminism, missing its valuable insights and ignoring its rich contributions." Rejecting the either/or choice between lesbianism and queer theory, she favors an inclusive approach that defies current factionalism. In an eloquent challenge to the privileging of queer theory in the academy, Garber calls for recognition of the historical—and intellectually significant—role of lesbian poets as theorists of lesbian identity and activism. The connections, Garber shows, are most clearly seen when looking at the pivotal work of working-class lesbians/lesbians of color whose articulations of multiple, simultaneous identity positions and activist politics both belong to lesbian feminism and presage queer theory. *Identity Poetics* includes a critical overview of recent historical writing about the women's and lesbian-feminist movements of the 1970s; discussions of the works of Judy Grahn, Pat Parker, Audre Lorde, Adrienne Rich, and Gloria Anzaldúa; and, finally, a chapter on the rise and hegemony of queer theory within lesbian studies.
