There are 10,500 species of bird  
worldwide and wherever they occur people  
marvel at their glorious colours and their  
beautiful songs. We also trap and  
consume birds of every kind. Yet birds

have not just been good to eat. Their  
feathers, which keep us warm or adorn our  
costumes, give birds unique mastery over  
the heavens. Throughout history their  
flight has inspired the human imagination  
so that birds are embedded in our  
religions, folklore, music and arts. Vast in  
both scope and scale, *Birds and People*  
explores and celebrates this relationship  
and draws upon Mark Cocker's 40 years of

observing and thinking about birds. Part natural history and part cultural study, it describes and maps the entire spectrum of our engagements with birds, drawing in themes of history, literature, art, cuisine, language, lore, politics and the environment. In the end, this is a book as much about us as it is about birds. *Birds and People* has been stunningly illustrated by one of Europe's best wildlife photographers, David Tipling, who has travelled in 39 countries on seven continents to produce a breathtaking and unique collection of photographs. The book is as important for its visual riches as it is for its groundbreaking content. *Birds and People* is also exceptional in that the author has solicited contributions from people worldwide. Personal anecdotes and stories have come from more than 650 individuals in 81 different countries. They range from university academics to Mongolian eagle hunters, and from Amerindian shamans to some of the most celebrated writers of our age. The sheer multitude of voices in this global chorus means that *Birds and People* is both a source book on why we cherish birds and a powerful testament to their importance for

all humanity.

Evidently, NASA can see through millions of layers of stars and galaxies to get thousands of crystal-clear shots of galaxies millions of light years away, but they cannot take even ONE simple photo of Earth from the Moon's distance that is not CGI fakery? NASA is merely a film production company with a huge budget and huge real rocket props. We have ALL been indoctrinated by occult high masters at NASA to the tune of 53 million dollars a day coming out of OUR Pay Checks to pay for their fake CGI rubbish. When we stop and slow down and really, really let it sink in, the most accurate map of the Earth used by the United Nations is The Flat Earth Map? They even outline the map with wheat stalks to symbolize Antarctica. This is the groundbreaking story of The Flat Earth cover-up: The Who, How, and Why they did it story.

Shortly after accepting the flat earth as a model for the world, I decided to revisit the Book of the Courses of the Heavenly

Luminaries to see if my new understanding would somehow mirror what Enoch was sharing as a motion for the sun and moon. As I began to read chapters 71-82, I found to my utter amazement that I was able to grasp those passages. I knew then that the vision that the angel Uriel had shown to Enoch could only be deciphered if one were to imagine Enoch's description of the revolution of the sun and the moon. As seen from above the flat circular plane of the earth as described by Isaiah; and that Enoch must have been taken up to perhaps where Polaris is, centered directly above the North Pole, and while looking down at the backdrop of the earth, was instructed on the motions of both the sun and moon. Without such conception, it is in my opinion impossible to apply these descriptions to the model of the earth as a spherical planet.

The Earth is coming to the boiling point as the climate disaster of the Meteor strike becomes more and more clear, but the political situation is already overheated. Riots and sabotage plague the space program. The IAC's goal of getting as many people as possible off Earth before it becomes uninhabitable is being threatened. Elma York is on her way to

Mars, but the Moon colony is still being established. Her friend and fellow Lady Astronaut Nicole Wargin is thrilled to be one of those pioneer settlers, using her considerable flight and political skills to keep the program on track. But she is less happy that her husband, the Governor of Kansas, is considering a run for President. In *Mysteries of Terra Firma*, James Lawrence Powell tells an engrossing three-part tale of how we came to understand the ground on which we walk, and how that ground holds the key to the greatest secrets of deep space and time. Naming his profound stories *Time*, *Drift*, and *Chance*, he tells of the three twentieth-century revolutions in thought that created the amazing science of Earth -- and of all planets to the edge of the universe. The riddle that drove the first revolution is obvious and yet in 1904 remained impenetrable: how old is Earth? An encounter between the imperious Lord Kelvin and a New Zealand farm-boy-turned-physicist, Ernest Rutherford, set the stage for the solution and launched a golden century of geology. As a result, scientists learned that if the 4.5 billion years of geologic time were compressed into a single twenty-four-hour period, *Homo sapiens* would have arrived only in the last second. The geological Revolution of *Time* reveals how long the ground on which we walk has existed, and how briefly we have trod that ground. In the early twentieth century, German

meteorologist and polar explorer Alfred Wegener proposed a counterintuitive, heretical theory: that terra firma is not so firm; instead of being fixed in place, continents drift. In 1926, petroleum geologists convened in New York City to discuss Wegener's radical idea, where it was met with outrage and skepticism: "If we are to believe Wegener's hypothesis we must forget everything which has been learned in the last seventy years and start all over again," one attendee said. Forty years later, a new generation did exactly that. The Revolution of Drift, the second part of Powell's narrative, showed us how the ground on which we walk moves. Throughout geologic time, meteorites have incessantly bombarded everything in the solar system. Far from serene and predictable, the planets are ruled by random violence on an unimaginable scale. Once a mountain-sized meteorite flew through space, struck the Earth, killed the dinosaurs and two-thirds of all species, and spared the small hamster-sized creature that happened to be our ancestor. The chance of that happening again is essentially zero. So, the final revolution in Powell's history of a golden

century of geology is the Revolution of Chance. Simply put, this revolution in thought has transformed our understanding of how lucky we really are. If we can learn so much from considering no more than the rocks beneath our feet, what will we learn when we begin walking on other planets? Mysteries of Terra Firma is both charming in its storytelling and staggering in its implications. Discovering the ground on which we stand is a fascinating journey into our past -- and our future.

**Earth Not a Globe** Simon and Schuster The globe is an image of the earth that was first promoted by the Greeks. However, ancient biblical records reveal that the image of the globe was considered a graven image by the Hebrews. "You shall not make unto yourself any graven image, or any likeness of anything that is in heaven above..." (Exodus 20:4). The globe is an image that sits in every classroom worldwide. Could it be that our generation has unwittingly embraced a modern form of idolatry without knowing it? Vincent Rhodes will answer this question and more in this fascinating book that reveals the true

nature of our earth; and why the globe is a graven image.

Excerpt from Terra Firma, the Earth Not a Planet: Proved From Scripture, Reason and Fact I am now an old man, and, had I consulted my own comfort, would never have penned a line of this book, as for some years I have had cataract in both eyes, so that it was not without difficulty that I could read or write. So great, however, appeared to be the need, and being still anxious to serve my generation, I determined to undertake this work, in order to expose the fallacies of Modern Astronomy, which are so contrary to the Word of God, and so conducive to the promotion of Infidelity. I do not enter the lists arrayed in the panoply of Neo Science, to fight this great Goliath, but only with a few pebbles of the brook, yet I trust that, with God's blessing, the attempt may not be altogether fruitless. A true pioneer and respected elder in ecological recovery and sustainability shares effective solutions he has designed and implemented. A stand-out from the sea of despairing messages about climate change, well-known sustainability elder John Todd, who has taught, mentored, and inspired such well-known names in the field as Janine Benyus, Bill McKibben, and Paul Hawken, chronicles the different ecological interventions he has created over the course of his career. Each chapter offers a workable engineering solution to an existing environmental problem: healing the aftermath of mountain-top

removal and valley-fill coal mining in Appalachia, using windmills and injections of bacteria to restore the health of a polluted New England pond, working with community members in a South African village to protect an important river. A mix of both success stories and concrete suggestions for solutions to tackle as yet unresolved issues, Todd's narrative provides an important addition to the conversation about specific ways we can address the planetary crisis. Eighty-five color photos and images illustrate Todd's concepts. This is a refreshingly hopeful, proactive book and also a personal story that covers a known practitioner's groundbreaking career.

Gerrard Hickson proposes here a series of alternative theories of astronomy, the place of the Earth and Sun in the universe, and the mathematics of the cosmos. After a revelatory experience, Gerrard Hickson began to dispute the distances involved between the Earth and the Sun. This book broadens and expands its scope, questioning the validity of underlying assumptions in astronomical science. Using the work of the ancient Greek and Roman scientists as a starting point, Hickson takes us forward through millennia of developments, asserting throughout that the basis of established science is unsound and thus in need of substantial overhaul. The later chapters of this book are occupied with refuting the theories propagated by the physicist Albert Einstein. Conceding that the notion of relativity is clever, Hickson nevertheless posits that it is based on unsound assumptions and is thus invalid. For the

author, relativity is - alongside Newtonian physics and earlier theories of antiquity - a further step toward the wrongness that defines conventional astronomy. Although his ideas gained some notice for their novelty, the alternative hypotheses of astronomy posited by Hickson have been discredited. Successful use of conventional astronomic calculations in fields such as avionics, rocketry, space exploration, and communication satellites have affirmed that established mathematics and distances agreed on by science are sound. However, Hickson's theories remain a curiosity - it is to sate this that this book is reprinted, complete with the author's own illustrated diagrams.

Sunny Mann has done everything in her power to create a run-of-the-mill life for herself in a quiet Virginian suburb. Her house is elegant, her friends are beautiful, and under her quiet supervision, no one ever goes without a casserole when a loved one is ill. But a minor fender bender between minivans sends her perfect blonde wig sailing out the window, exposing her true identity and threatening to crack her white picket fence existence wide open. Now, a meteor is coming, the local weatherman has gone mad, a murderous past has returned to life, her mathematical genius of a husband is helping his robots to stage an uprising on the moon, and it's up to Sunny to keep it all together. \par \fs22 \fs20 This gloriously

inventive, funny novel is at once an intimate portrait of a very modern American family and a timeless love story. It's about the choices that make us human, the line between life and death, and is a captivating exploration of marriage, motherhood and self.\f1\fs18 \par }

Color Cover BLACK & WHITE Text This book is like no other book about our modern history. For open minds, it may begin a whole new awakening as to our understanding of who we are, where we came from, and a very profound and powerful re-connection to our common Theocosmology, that has been occulted from most for over 500 years. How can it be that for over 5,000 years, as far back as modern history allows us, that nearly every single culture on Earth believed the land we all have lived upon since our birth was known to be mostly flat, motionless and the center of just one creation we call a uni-verse, just one of many verses, of many creations? Nearly all ancient cultures previous to the current Roman Dynasty (310 AD - present) held Flat Earth

Theocosmological belief systems. I am not just speaking about one or two civilizations of our common past, but the cultures of most civilizations covering thousands of years, across all lands and races. From the Ancient Chinese, with their Ying/Yang symbolism of the dance of the Sun and Moon in circle above, to the Indian Vedic's, Buddhists, Sumerians, Chaldeans, Babylonians, Egyptians, Ancient Hebrews, Greeks and Nordic Vikings. All had geocentric Flat Earth theocosmology. That all stars, the Sun and the Moon, were centered around our Earth signified the cosmic importance of humans in the really big picture of our universal make up. That Earth was the center for all of this creation. The word "world" comes from the energy vortex created by the electromagnetic battery of our Flat Earth connected through the North Pole and Antarctic Circles positive and negative charges. The salt in the ocean providing the electrolyte catalyst to charge Earth's plasma battery field. We all are contained in a plasma toroidal field of perpetual regeneration inside a closed system energy vortex which causes a "whirling" action, hence the word whirled or world.

We call it a sunrise and sunset, yet, according to the most basic of heliocentric theory, this is a grossly incorrect term, that has never been corrected for over 100 years from academia to the science community. Why? One possible reason was when heliocentrism was introduced to the public education systems of Western world, most worked and lived outdoors. Even peasants knew the Earth was still and the Sun was moving and if anyone tried to sell them that the Sun was not moving would have been met with complete disbelief and derided for sheer stupidity and the ruling governance would lose instant credibility. So what would be the correct terms for a Flat Earth movement of the Sun instead of "Sunrise" and "Sunset"? For over the past 100 years, most world education systems continue to this day to teach little-to-none of Flat Earth history and cosmology connecting to this rich history of all our common pasts. Why would they not want us to know a narrative of our existence where the Sun, the Moon, and the Stars were placed in the sky above to help guide and assist us in our own evolution of consciousness? What would anyone gain by creating a myth so

that we would feel insignificant, small and just one of billions and billions and billions of other planets, stars and life? If you were in power, would you want the minions one day to take over your power base that has been created over hundreds, if not thousands of years. The powers in charge of world propaganda, monetary policy, religion and infotainment wish to keep us fully disempowered as to our highest potential of humanities, and our own, evolutions. From Copernicus, all the way to the creation of the Big Bang Theory by Jesuit priest, Father Gorge Lemaitre, the Vatican and the Society of Jesus have had, and still to this day, have large influence in all things Astronomy and space observation. In fact, it was Father Lamaitre, not Albert Einstein, who in 1922 created the scientific "provable" science of our common Theocosmology created an atheistic explanation of how our world came to be.

A certain ruler posed to Jesus the most important question ever asked: "Good Master, what shall I do to inherit eternal life?" (Luke 18:18) The man came to the

right person. Jesus is God, and therefore his answer to that question is authoritative. This book examines Jesus' surprising answer and definitively explains how one inherits eternal life. This is a book about God's revelation to man. Except for the Holy Bible, this is the most important book you will ever read.

Wolves in sheep's clothing have pulled the wool over our eyes. For almost 500 years,

the masses have been thoroughly deceived by a cosmic fairy-tale of astronomical proportions. We have been taught a falsehood so gigantic and diabolical that it has blinded us from our own experience and common sense, from seeing the world and the universe as they truly are. Through pseudo-science books and programs, mass media and public education, universities and government propaganda, the world has been

systematically brain-washed, slowly indoctrinated over centuries into the unquestioning belief of the greatest lie of all time. A multi-generational conspiracy has succeeded, in the minds of the masses, to pick up the fixed Earth, shape it into a ball, spin it in circles, and throw it around the Sun! The greatest cover-up of all time, NASA and Freemasonry's biggest secret, is that we are living on a plane, not a planet, that Earth is the flat, stationary center of the universe.
