important nonfiction books of the 21st century by Entertainment Weekly, Slate, Chronicle of Higher Education, Literary Hub, Book Riot, and Zora A tenth-anniversary edition of the iconic bestseller—“one of the most influential books of the past 20 years,” according to the Chronicle of Higher Education—with a new preface by the author “It is in no small part thanks to Alexander’s account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system.” —Adam Shatz, *London Review of Books* Seldom does a book have the impact of Michelle Alexander’s *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal

justice reform activists and organizations motivated by Michelle Alexander’s unforgettable argument that “we have not ended racial caste in America; we have merely redesigned it.” As the *Birmingham News* proclaimed, it is “undoubtedly the most important book published in this century about the U.S.” Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

This rhetoric, reader, research paper guide, and brief handbook is the first writing text to fully explain the how's and why's of critical thinking. Four-in-One places the acts of writing and reading in a framework of critical thinking; a theme which is sustained throughout the chapters on the writing process and the patterns of organization. The discussion of critical thinking is integrated into the chapters on the writing process and the patterns of organization. Through this unique approach, students learn how to use reflective and critical thinking in writing and reading. The book is designed for maximum flexibility-each part of the book is self-contained. The readings section of the book is organized alphabetically so instructors are not locked into approaching any one

reading from the perspective of a single rhetorical pattern. The text also features an ESL section in its handbook, a unique chapter on using the Internet for research, and individual and collaborative exercises throughout. > For those interested in developing their reading, writing and critical thinking skills.

The Myth of Race Pearson Educación

Explains how Billy Beene, the general manager of the Oakland Athletics, is using a new kind of thinking to build a successful and winning baseball team without spending enormous sums of money.

Psychology W. W. Norton

A seemingly ordinary village participates in a yearly lottery to determine a sacrificial victim.

Standard Methods for the Examination of Water and Wastewater Routledge

From the New York Times bestselling author of *A Constellation of Vital Phenomena*—dazzling, poignant, and lyrical interwoven stories about family, sacrifice, the legacy of war, and the redemptive power of art.

This stunning, exquisitely written collection introduces a cast of remarkable characters whose lives intersect in ways both life-affirming and heartbreaking. A

1930s Soviet censor painstakingly corrects offending photographs, deep underneath Leningrad, bewitched by the image of a disgraced prima ballerina. A chorus of women recount their stories and those of their grandmothers, former gulag prisoners who settled their Siberian mining town. Two pairs of brothers share a fierce, protective love. Young men across the former USSR face violence at home and in the military. And great sacrifices are made in the name of an oil landscape unremarkable except for the almost incomprehensibly peaceful past it depicts. In stunning prose, with rich character portraits and a sense of history reverberating into the present, *The Tsar of Love and Techno* is a captivating work from one of our greatest new talents.

The Tsar of Love and Techno W. W. Norton

The Little Norton Reader presents 50 essays from the first 50 years of The Norton Reader, classics like the "Letter from

Birmingham Jail" along with newer favorites such as "Is Google Making Us Stupid?" and "Fun Home." Its small size makes it portable, and its low price makes it affordable.

Rules for Writers

Wadsworth Publishing
The Little Penguin
