MASON SANAI

Surfboats, Rockets, and Carronades NYU Press

An encyclopedic collection of profiles of the people who shaped New Jersey's coastline—from architects and businessmen to sports figures and entertainers. The Jersey Shore evokes images of boardwalks and beach resorts, but its beginnings were far different. In the mid-nineteenth century, visionary entrepreneurs transformed the sleepy agrarian and maritime communities of the Garden State coast with a series of energetic new visitors and venues. Artists, politicians, athletes, entertainers and ordinary

residents all played a hand in revitalizing the region. Major development of resorts began in Atlantic City in 1854, and it grew into "America's Favorite Playground." Joel Hayward was principally responsible for the formation of Ocean County, and the Albert brothers popularized Pinelands folk music. In the twentieth century, construction became more residential, and beloved businesses like the Smithville Inn started to cater to long-term patrons. New Jersey historian Randall Gabrielan traces the stories of the people who turned the Jersey Shore into the summer and residential destination that it is today.

Throughout his life, Walt Whitman continually revised and re-released *Leaves of Grass*. He added and deleted words, emended lines, divided poems, dropped and created titles, and shifted the order of poems. *Leaves of Grass: A Textual Variorum of the Printed Poems* includes all the variants that Whitman ever published, from the collection's first appearance in 1855 through the posthumous "Old Age Echoes" annex printed in 1897. Each edition was unique, with its own character and emphasis, and the *Textual Variorum* enables scholars to follow the development of both the individual poems and the work as a whole. Volume I contains introductory material, including a chronology of the poems and a summary of all the editions and annexes, along with the poems from 1855 and 1856. Volume II includes the poems from 1860 through 1867, including the first appearance of "When Lilacs Last in the Door-Yard Bloom'd" and "O Captain! my Captain!" Volume III features the poems 1870-1891, plus the "Old Ages Annex" and an index to the three-volume set.

The Birth of the Jersey Shore CRC Press

In *Backroads, New Jersey*, Di Ionno leads readers off the congested interstates with their commonplace scenery to the seldom-explored secondary roads, where the real life of the state can be found. These inter-county or 500 series roads are a 6,788-mile network of mostly one-lane highways. Marked by blue-and-yellow five-sided shields bearing county names, they make up more than 20 percent of New Jersey's public roads. They are never the fastest or most direct way to get anywhere, but when you break out of the towns and hit the country, they are a pleasure to drive.

Geological Survey Circular Copyright Office, Library of Congress
The objective of this book is to review the physical and chemical characteristics of estuaries. The volume has been designed principally as a reference for scientists, but administrators, managers, decision makers, and other professionals involved in some way with estuarine research can find value in the text.
