Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

On Feb. 10, 2011, the U.S. and the Rep. of Korea (Korea) exchanged the legal texts reflecting the agreement they concluded on Dec. 3, 2010, to modify certain provisions of the 2007 U.S.-Korea Free Trade Agreement (FTA) regarding the passenger vehicle sector. These texts (AA) are to provide additional market access for U.S. exports to Korea, in particular by addressing non-tariff measures (NTMs) affecting U.S. exports. This report focuses on the impact of the AA and provides additional analysis of the effects of the reduction or removal of NTMs. U.S. exports of passenger vehicles to Korea would likely rise significantly in the long term under the provisions of the 2007 FTA as modified by the AA. "In Jones's electrifying 10th...Scottsdale, Arizona, PI Lena is approached by Harold Slow Horse, one of Arizona's leading artists...[and] gets on a trail that leads her at long last to answers about her troubled past..." —Publishers Weekly At the age of four, Scottsdale private eye Lena Jones was shot in the head and left to die on a Phoenix street. After her rescue, she spent years in the abusive foster care system, never knowing who her parents were and why they didn't claim her. When *Desert Redemption* begins, she still doesn't know her real name. Lena's rough childhood—and the suspicion that her parents may have been members of a cult—keeps her hackles raised. So when

Chelsea, the ex-wife of Harold Slow Horse, a close friend, joins a "new thought" organization called Kanati, Lena begins to investigate. She soon learns that two communes—polar opposites of each other—have sprung up nearby in the Arizona desert. The participants at EarthWay follow a rigorous dietary regime that could threaten the health of its back-to-the-land inhabitants, while the more pleasure-loving folk at Kanati are dining on sumptuous French cuisine. On an early morning horseback ride across the Pima Indian Reservation, Lena finds an emaciated woman's body in the desert. "Reservation Woman" lies in a spot close to EarthWay, clad in a dress similar to the ones worn by its women. But there is something about her face that reminds Lena of the Kanatians. While investigating, Lena's memory is jolted back to that horrible night when her father and younger brother were among those murdered by a cult leader named Abraham, who then vanished. Lena begins to wonder if either EarthWay or Kanati could be linked to that night, and to her own near-death. Could leaders of one or both shed light on what had happened to Lena's mother, who vanished at the same time as Abraham? All these mysteries are resolved in *Desert Redemption*, the tenth and final Lena Jones case, which can also be enjoyed on its own.
