An Endearing Twist on Learning Your ABCs! Disney Lucasfilm Press

From published author Spencer Doris comes an enlightening book that paints a vivid picture on how one is saved and avoids eternal separation from God using numerous scriptures to validate his point. This book goes over the step by step process of one becoming a Christian. It also answers the questions: Can I lose my salvation? Can I pray Jesus into my heart, whether or not that is a true biblical teaching. It also covers the book of James, whether it agrees with the Apostle Paul's teaching on grace or is it a heresy that focuses on works. It will talk about what will happen to those who never hear about Jesus dying for their sins. Finally, it will answer the question, "Do I have to go to church to be saved?" Divided into 13 chapters, The ABC's of Salvation goes over

topics like how do I know I am saved and what will be the proof of my salvation. It will talk about signs in your life that will clearly show you that you aren't saved such as fear and a guilty conscience and how to overcome those feelings and be secure in your salvation. Finally, The ABC's of Salvation covers the topics of can the mentally handicapped understand and believe in gospel, and how to overcome and prevent the obstacles of some mental diseases in order to have faith in Jesus dying on the cross. This book's step by step program will assure your salvation and will always help you return to God if you have left him and don't know how to get back to him.

Scanimation is a state-of-the-art animation process that creates the illusion of movement in each picture. In terms kids can relate to, it's like a video without a screen. ABC Animals presents the alphabet as it's never been seen before. In a romping, stomping journey from A to Z, watch the Alligator snap, the Bats swooping, the Camel trot. There's L for the Lion proudly prowling along, and M for the Mouse scurrying inside his wheel. And it all

culminates in the largest Scanimation image yet: Z, for Zoo, where all the animals gather to play. Each page is a marvel that brings animals, along with one shining star, to life with art that literally moves. It's impossible not to flip the page, and flip it again, and again, and again.
