*Western Electrician* Allied Publishers  
The Missoula Technology and  
Development Center (MTDC) was asked  
to evaluate the use of floating bridges  
for trail crossings in very wet areas. This  
report outlines the basic designs of

floating structures. It includes  
information about floating boat docks,  
floating bridge designs, anchorage  
systems, and devices that allow the dock  
to adjust itself to varying water levels. It  
also describes the situations where  
floating bridges may be a practical  
solution.
