With this unique kids' activity book, parents can finally stop fighting their kids and inspire them to actually want to get dressed in the morning, brush their teeth, eat their dinner, finish their homework, clean their room and sit still in the car. Dayna Abraham, a certified child educator, was successfully using sensory activities with her son who has Sensory Processing Disorder when she discovered that they also made a difference in her other children who didn't have the disorder. She now shares 101 of the best sensory activities to help all kids succeed during times of the day when they have the most trouble focusing and being patient, whether it's getting out the door on time in the morning or peacefully eating a meal with their family at a restaurant. These activities are lifesavers to parents and caretakers, as they engage kids' senses in a unique way that helps the kids remain calm and focus on the task at hand. Example activities and useful crafts include 2-Ingredient Focus Dough to help kids focus on homework, Blindfold Taste Tests and Moody Meals to help them try new foods, DIY Worry Stones to help them battle separation

anxiety at school or daycare, and Rainbow Sensory Rug to help them wind down at the end of the day. The book is written to kids in a fun superhero theme that encourages and helps them let their true awesomeness shine all day long! As a Master Tier player on both EUW and EUNE servers that cares deeply about the state of League of Legends, I had enough of the lack of high quality educational material about the game. So about a year ago, I used my experience as a real life teacher and high elo player and wrote what turned out to be the best selling ebook about improving at League of Legends on Amazon for Season 6 - 30 Days to Diamond. By the way - an improved, enriched and even more detailed version for Season 7 is out and it's called 21 Days to Diamond and Beyond. Ever since the book delivered on the results it promised, I've received dozens of requests from players asking me to write separate, very detailed books about the roles of ADC, Mid lane, Top lane and Jungle that would be adapted for Season 7. Due to the support I got from my dear readers, I felt motivated to roll up my sleeves and produce the best of my work as a results-oriented League of Legends coach. After countless hours of hard work, I am proud to announce that each of the books people wanted me to write is now available to anyone that is open

to learning and is willing to get to that next level as a player in their favorite role. So why is League of Legends Mid Lane Mastery worth your time? If you are still paying attention, I am assuming you are an ambitious, competitive person with a winner's mindset that is interested in acquiring all the necessary game knowledge that will help you improve massively as a Mid lane main. Here is a list of the contributions that this book will make towards your current level of game knowledge: - You will learn what the Mid laner's role and responsibilities are, and there are a lot of specific instructions on what you can do to develop each quality, especially towards the end of the chapter. This includes map awareness, leadership, shot calling and more. - You will learn how to model your champion pool for Mid lane (yes, there is a best way to do it) and how to overcome the disadvantages of facing lane counters. - You will learn the optimal Runes and Masteries setup for each popular Mid laner. - You will learn the intricacies of what you can do to acquire outstanding farming skills. - You will learn the wave management techniques for Mid lane which will help you build a massive advantage over your opponent. - You will learn all you need to know about vision control, which includes the best warding spots for Mid lane on both sides. - You will learn the various ways in which you can influence your Jungler to gank for you more often and give you the Blue Buff every time. - You will learn all you need to know about dominating your trades and how to trade against short-ranged, medium-ranged and long-ranged opponents. - You will learn multiple other principles to dominating the Mid lane (refer to the table of contents). - You will learn the various

approaches you should use to extend your advantage and carry your games to victory. - You will also learn all the details you need on how to play when you are behind in lane. - Lastly, you will learn the practical steps that you can take to cultivate an unstoppable winner's attitude that will also help you have more fun with the game. - There also are a lot of general game knowledge golden nuggets thrown all throughout the book to help you in your journey further. I know this is a big list of things and to some of you it might seem intimidating, but I promise you that once you learn and apply the information in this book in your own gameplay, you will transform completely as a player. Are you excited? Best of luck on the Summoner's Rift!

A Spectacular Enhancement to the Skill System Mythic Skills introduces a system of skill exploits that take the basic tasks your skills allow you to perform and dials them up to amazing levels. In addition, every skill in the Pathfinder Roleplaying Game Core Rulebook also gets brand-new skill exploits, as well as greater exploits that only the most skilled masters would even attempt. This book contains rules for using these enhanced skills with mythic characters but also provides an alternative system for use in non-mythic Pathfinder campaigns! This system allows your characters to focus on their skills as a key part of their character construction and to invest more of their character's abilities in their character itself, rather than the character's gear or magical tools. You can use these rules generally with mythic characters, allowing them to attempt all manner of skill-based exploits, or you can limit the ability to

pull off these amazing skill stunts to those mythic characters that have really invested in making their skills a key part of their character's identity. The mythic rules offer an opportunity to magnify what makes a character special, and the skills they choose to hone as part of their background narrative and throughout the course of the campaign should be just as important in defining them as their marvelous magic and fabulous feats. With Mythic Skills in your hands, your skills will be just as spectacular!" *A PuzzleMasters Challenge* Dicegeeks 'How To Play Water Polo' is a must have resource for anyone learning or trying to perfect their water polo game.

Help Your Kids Stay Calm, Be Happy and Make Every Day Amazing Do kids' behaviors leave you confused and frustrated? Dayna Abraham is teaching the world there's a better way. She, too, was baffled by her son's behaviors until she realized the power of using science and child development to see him for the superkid he already was. In this revolutionary book, Dayna bridges the gap between kids and the adults who love them by empowering kids to be their own problem solvers and helping adults understand what kids really need to succeed. As a teacher, writer and mother, she explains that undesirable behaviors are really a cry for help. Kids have a need, but lack the tools and skills to express it. In this book, she gives kids fun projects and tools that boost their ability to control their behaviors, explain how they're feeling and gain confidence. Each of the 75 unique sensory-rich projects in *The Superkids Activity Guide to Conquering Every Day* will help kids navigate the most challenging times of day. Whether they struggle to get out

the door in the morning or hate to sit for homework, this is the book for you. Kids will be begging to clean their room, their dinner plates and more with exciting activities such as: · Magnetic Morning Routines to help kids visualize their time and tasks to stay on track · Race to the Finish Dinnertime Gameboard to help even the pickiest eater find foods they like · Seated Silly Busters so even the wiggliest kid can get their work done · Weighted Snake Lap Buddies to calm fidgety legs and minds · Calming Glitter Slime to squash big worries · No-Sew Weighted Blanket to ensure a good night's rest · ... and so much more The Superkids Activity Guide to Conquering Every Day puts the power into kids' hands to understand themselves, discover their superpowers and have an awesome day, every day.
