A comprehensive guide to the wisdom of the Enneagram... The Enneagram, a nine-pointed star in a circle, is an ancient cosmic symbol whose origin has been shrouded in mystery. Almost 100 ago, internationally acclaimed wisdom teacher George Gurdjieff introduced it to the West, and in recent years it has soared in popularity as a way of gaining self-understanding. This book not only

provides exciting new ways to look at the nine types of Enneagrams, but also shows how to use the Enneagram to find out what to expect in any life situation. The Enneagram of G. I. Gurdjieff Vintage
An application of Gurdjieffian principles to fully and properly activate the power of language • Explains the relationship between the Gurdjieff enneagram and sacred geometry and harmonics • Shows that the objective power of language--and art and music--lies in the ability to use symbols that will mean precisely the same thing to anyone • Includes a new English translation of René Daumal's

essay “The Holy War” In The Magic Language of the Fourth Way, Pierre Bonnasse applies the esoteric teachings of Fourth Way mystic G. I. Gurdjieff and the insights of initiate René Daumal to show how to fully and properly activate the power of language. Bonnasse shows how words can regain the strange magical powers they possessed in the first days of humanity, when words created the realities of what they described. This is a far cry from today’s world in which even writers lament the impotent nature of language. Bonnasse uses the relationship between the Gurdjieff enneagram and sacred geometry and harmonics to reveal the power given to words by the notes of the scale. He shows not only how to discover the objective power of words but also

how to apply the relationship between language and living to maximum effect. He explains that the objective power of language--and art and music--lies in the ability to use symbols that will mean precisely the same thing to anyone. The Magic Language of the Fourth Way serves as a clear and generous introduction to the complexities of Gurdjieffian thought as well as a descriptive how-to manual for Fourth Way aspirants on the uses of objective language for spiritual advancement. [Gurdjieff's Human Types](#) Lambertus-Verlag Chakras and the Enneagram explores the deep esoteric relationships between the yogic system of chakras and Gurdjieff's enneagram. While chakras have been a well-known feature of

eastern teachings since their inception, Gurdjieff's enneagram is a diagram from esoteric eastern teachings that remained hidden for many centuries before Gurdjieff introduced it to the west in the early 1900's. Properly understood, the enneagram contains essential keys for understanding the internal dynamics of chakra teachings. In addition, chakra teachings reciprocally impart vital information about the enneagram, revealing two long-separated threads of an ancient teaching that are now brought back together again. Studying this book in conjunction with *The Universal Enneagram* will help explain why Gurdjieff said that the enneagram can, in the right hands and with sufficient understanding, be used to explain almost anything

A guide for those who seek a true way of inner growth. The Fourth Way is one of the most comprehensive texts published of the ideas taught by the late P.D. Ouspensky. Consisting of verbatim records of his oral teaching from 1921 to 1946, it gives a lucid explanation of the practical side of G. I. Gurdjieff's teachings, which Gurdjieff presented in the form of raw materials, Ouspensky's specific task having been to put them together as a systematic whole. Just as *Tertium Organum* deals with a new mode of thinking, so *The Fourth Way* is concerned with a new way of living. It shows a way of inner development to be followed under the ordinary conditions of life -- as distinct from the three

traditional ways that call for retirement from the world: those of the fakir, the monk, and the yogi.

The Socratic injunction, "Know Thyself," is the foundation for all work on selfdevelopment. Susan Zannos opens an illumination window on human behavior and temperament in her study of the basic human essence types. These types differ so much from each other, and are so greatly modified by the dominant type of intelligence operating in a particular person, that persistent and prolonged selfobservation is required to verify one's own type, or to

recognize others. Recognition of these types and the division between essence and personality is the foundation upon which practical work on oneself begins. Zannos Describes the basic human essence types with the hope of helping those who want to understand what is most genuine in themselves and the people with whom they live. Zannos approaches human typology from a variety of perspectives, and ties the Gurdjieff Ouspensky Fourth Way system to a wide range of cultural, religious, and scientific traditions. She traces roots in Homeric legend and the Olympian pantheon through medieval astrology and the Qabalah, as well as discussing endocrinology and psychology. She points out resonances to C.G. Jung's psychology, the work of Piaget, and to

Native American iconography. After exploring the four types of intellectual function, she launches an extensive discussion of the classic types of the Enneagram, leavened by personal anecdote and lively description. While this book will be of special interest to Fourth Way students, the information can help people from all walks of life who want to learn about themselves and the people they care for.

Are we able to say that life is governed by a group of conscious people? Where are they? Who are they? We see exactly the opposite: that life is governed by those who are the least conscious, by those who are most asleep. Provocative ideas such as these have attracted generations of thoughtful people to the

methods of self-study and inner work devised by Gurdjieff, one of the most radical spiritual teachers of modern times. According to Gurdjieff, the wars raging at this very moment are nothing more than millions of sleeping people trying to annihilate millions of other sleeping people. Contrary to popular belief, there is no such as thing as progress and evolution as long as humanity remains asleep. Two hundred conscious people could change the whole of life on the earth, Gurdjieff says. If we want to become those conscious people, we must learn how to change ourselves. With the help of self-knowledge and an understanding of our relation to the universe, we can awaken to a higher level of being--if we wish to change ourselves. All of Gurdjieff's

fundamental principles and methods of transforming the intellect, emotions, and body, in the system known as the Fourth Way, are presented in this book in his own clear, precise words preserved by his closest pupils. Arranged in an orderly sequence of passages drawn from two primary source books--P. D. Ouspensky's *In Search of the Miraculous*, and *Views from the Real World*, recorded and arranged by Mme. Jeanne de Salzmann--this material is an indispensable introduction for those determined to undertake the efforts and practices necessary for awakening consciousness. All the basic concepts and methods are covered, including: * man is "asleep" * we have no unified "I" * the need for self-knowledge * functions of the human "machine" * states of consciousness *

levels of being * three centers: moving, emotional, and thinking * personality and essence * the possibility of self-development * self-observation * remembering oneself * conscious evolution * the law of three forces * the ray of creation * the law of octaves * the Enneagram, a universal symbol * the variety of spiritual ways * esoteric Christianity * working in groups * the necessity of schools

The Force of Gurdjieff, Vol. 8 Rex Bookstore, Inc.

The main subject of this book is the relationship between sexual health and spiritual evolution. Specifically, the book focuses on Wilhelm Reich's discoveries regarding sexual health and George I. Gurdjieff's concept of spiritual evolution. The thesis is that spiritual evolution, in Gurdjieff's sense, is not possible apart from sexual health as Reich determined it. Throughout the book, Brahinsky presents an in-depth discussion on Gurdjieff's conception of the evolution of consciousness, sex, Reich's discovery of the prime source biological life energy, the fundamental laws of world creation and world maintenance, the evolution and involution of consciousness, the food of impressions and the crystallization of the higher-being bodies, and finally, sexuality and evolution. Students of

Reich and Gurdjieff will acquire the knowledge they need through this edifying book. For more information on Reich and Gurdjieff: Sexuality and the Evolution of Consciousness, interested parties may log on to www.Xlibris.com. Bejahren, Verneinen, Versöhnen Balboa Press

More than just a tool to diagnose your personality type, the Enneagram was originally developed to help people find the ultimate freedom of consciousness and achieve spiritual liberation. A. H. Almaas brings us back to this original mission as he shares the essential keys that will help readers break free from the limitations and distortions of each type's fixation—and to express their true spiritual nature in everyday life. Reich and Gurdjieff Weiser Books

This book is a revised and corrected addendum to the biography G. I. Gurdjieff, *A New Life*, which was published in 2008. It is appropriate to justify presenting another book to the corpus of works about him, and to wonder whether there are enough interested readers to warrant its publication. The response is an emphatic "yes," for the ideas of Gurdjieff and their sources are not passing mid nineteenth century fads or fancies. Not only was he recognized during his lifetime as an important messenger of vital ideas (Taylor, *Gurdjieff in the Public Eye*), but since his death his ideas have moved in ever widening cultural circles

everywhere. There are over fifty Gurdjieff groups in the Western world alone, and groups in Africa, South America and Australia. I estimate there are over forty thousand active followers of Gurdjieff's ideas, as well as countless others who are exposed to his fourth way concepts and designs such as his enneagram. Interest in Gurdjieff and studies of him are bound to continue expanding.

Die Wirklichkeit des Seins Shambhala Publications

Von G. I. Gurdjieff stammt die Enneagramm-Idee, aus der sich in der zweiten Hälfte des 20. Jahrhunderts das Enneagramm der Persönlichkeit entwickelt hat. W. Reifarth unternimmt es, die Lehre Gurdjieffs, den sog. Vierten Weg, ausführlich darzustellen und die

zwischen beiden Richtungen vorhandenen Auffassungsunterschiede nachzuzeichnen. Auf folgende Fragen gibt er Antworten: - Wer war Gurdjieff? - Was ist der Vierte Weg? - Was ist das Enneagramm als Prozessmodell? - Was steckt an tiefem Wissen im Enneagramm-Symbol selbst? - Wie viel Enneagramm der Persönlichkeit findet sich bereits in Gurdjieffs Werken? - Was könnten die beiden Richtungen voneinander lernen?

The Enneagram in the Writings of Gurdjieff Union Square & Co.

This book is an attempt to explore various aspects of the enneagram, the symbol that G. I. Gurdjieff introduced to the modern world, and which he stated represented a complete description of the laws governing the universe.

Because of the importance he attached to it, it has long intrigued followers of his teaching, and others, yet the understanding of its meanings remains very incomplete. In particular, how it relates to modern mathematical and scientific descriptions of the laws governing the universe has largely been unexplored. This book tries to find connections between these two approaches to the truth, while also recognizing and exploring the differences between knowledge based on symbols and that based on scientific theories and mathematical formulae.

G. I. Gurdjieff was a spiritual teacher in

the first half of the twentieth century who offered an unusually penetrating analysis of the human condition together with practical methods for the development of being and consciousness. The Enneagram in the Writings of Gurdjieff presents a unified solution to a number of mysteries connected with his writings and with the emblem of his teaching, a geometric figure known as the enneagram. Gurdjieff called the enneagram the philosopher's stone of the alchemists and a source of great power, yet he never explained it satisfactorily to his pupils. This book shows that Gurdjieff transmitted through his writings an understanding of the symbol that he chose not to divulge in his talks. It also shows that the emblem of his teaching

can be seen in the large-scale structure of his writings if one knows how to look below the surface. Richard J. Defouw became fascinated with astronomy as a youngster and went on to earn degrees in this field at Harvard and Caltech. His main interest subsequently shifted to the ideas of Gurdjieff. For two years he participated in a study group associated with the Institute for Religious Development headed by W. A. Nyland, a direct student of Gurdjieff. Later he spent ten years as a pupil in the Gurdjieff Foundation of Colorado. In *The Enneagram in the Writings of Gurdjieff*, Dr. Defouw presents an analysis of the literary world created by Gurdjieff that one might expect from someone whose first interest was the search for order in the natural world. The surprise is that

such an analysis is possible.

Gurdjieff: The Key Concepts Atom Press
Gurdjieff has used more than one system of human typology and in this book we will try to study the main ones in order to better understand ourselves and the world in which we live in. This book explains, for the first time ever, the 28 human types mentioned by Gurdjieff in his books, *The Herald of Coming Good* and *Beelzebub's Tales*. After more twenty years of searching through different ways and types of exercises and more than ten years in one of the groups from the Gurdjieff Institute, I am now feeling the need to offer back to the world a little part of the knowledge that helped me to be a better human being today. While this book does not contain all the information that Gurdjieff brought, it

gives a fair point of departure in an adventure that will bring more being in your life.
