Thirteen Months at Manassas/Bull Run Random House  
 NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be

chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

In this collection of speeches, Moyers celebrates the promise of American democracy and offers a passionate defense of its principles of fairness and justice. Moyers on Democracy takes on crucial issues such as economic inequality, our broken electoral process, our weakened independent press, and the despoiling of the earth we share as our common gift.

How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions on subjects that ranged from recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award-winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of The Daily Show; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone "Listener Line" fielded questions on any subject, day and night. From 1968 to Watergate, Boston's WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston Common. Interwoven through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the "news dissector" Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein's documentary WBCN and the American Revolution

is available as a DVD sold separately.

How American race law provided a blueprint for Nazi Germany  
Nazism triumphed in Germany during the high era of Jim Crow laws in the United States. Did the American regime of racial oppression in any way inspire the Nazis? The unsettling answer is yes. In Hitler's American Model, James Whitman presents a detailed investigation of the American impact on the notorious Nuremberg Laws, the centerpiece anti-Jewish legislation of the Nazi regime. Contrary to those who have insisted that there was no meaningful connection between American and German racial repression, Whitman demonstrates that the Nazis took a real, sustained, significant, and revealing interest in American race policies. As Whitman shows, the Nuremberg Laws were crafted in an atmosphere of considerable attention to the precedents American race laws had to offer. German praise for American practices, already found in Hitler's Mein Kampf, was continuous throughout the early 1930s, and the most radical Nazi lawyers were eager advocates of the use of American models. But while

Jim Crow segregation was one aspect of American law that appealed to Nazi radicals, it was not the most consequential one. Rather, both American citizenship and antimiscegenation laws proved directly relevant to the two principal Nuremberg Laws—the Citizenship Law and the Blood Law. Whitman looks at the ultimate, ugly irony that when Nazis rejected American practices, it was sometimes not because they found them too enlightened, but too harsh. Indelibly linking American race laws to the shaping of Nazi policies in Germany, Hitler's American Model upends understandings of America's influence on racist practices in the wider world.

In *The Man Who Made Mark Twain Famous*, Cappy McGarr shares how he became an Emmy-nominated founder/executive producer of the Kennedy Center Mark Twain Prize for American Humor, and got involved in national politics—all with charming southern style and a self-deprecating sense of humor. For decades, Cappy McGarr has been in the room where it happens. With *The Man Who Made Mark Twain Famous*, he'd like to invite you into that room, complete with his color commentary on the other folks inside. For the first time in print, Cappy reveals how the Mark Twain Prize was conceived, how it changed venues and networks, and even how it almost wasn't renewed after a controversial first outing with Richard Pryor. From there, Cappy pulls back the curtain for a behind-the-scenes look at over two decades of the Mark Twain Prize, sharing his take on the Kennedy Center's tributes to Pryor, Jonathan Winters, Carl Reiner, Whoopi Goldberg, Bob Newhart, Lily Tomlin, Lorne Michaels, Steve Martin, Neil Simon, Billy Crystal, George Carlin, Bill Cosby, Tina Fey, Will Ferrell, Ellen DeGeneres, Carol Burnett, Jay Leno, Eddie Murphy, Bill Murray, David Letterman, Julia Louis-Dreyfus, and Dave Chappelle. Cappy also gives the inside scoop on several shows he produced from the East Room of the White House, including the Gershwin Prize for Popular Song. Plus, he tells tales from his involvement in national politics—including encounters with the likes of President Lyndon B. Johnson, Senate Majority Leader Tom Daschle, Governor Ann Richards, President George W. Bush, President Barack Obama, and many others. "Reading Cappy's book is not unlike sitting down to dinner with him and listening to the stories he has picked up from decades of rubbing elbows with political leaders and comedians alike. There are historic set pieces. There are laughs and howls and chuckles and chortles." —Ken Burns Cappy is donating all of his proceeds from this book to the Kennedy Center Arts Education Programs.
