"The combined endoscopic endonasal, transethmoidal, transcribriform approach with endoscope-assisted supraorbital craniotomy is a minimally invasive approach that can be used as an alternative to the classic transcranial, transfacial, or combined craniofacial approaches to lesions of the anterior cranial fossa. This approach is best used for lesions that extend anteriorly to the frontal sinus, laterally beyond the lamina papyracea, and inferiorly into the ethmoid sinus. This chapter details the approach as well as closure of the combined endoscopic endonasal, transethmoidal, transcribriform approach with endoscope-assisted supraorbital craniotomy"--

Since the collapse of the Berlin Wall, there has been a widespread affirmation of economic ideologies that conceive the market as an autonomous sphere of human practice, holding that market principles should be applied to human action at large. In the wake of the 2008 financial crisis, the ascendance of market reason has been countered by calls for reforms of financial markets and for the consideration of moral values in economic practice. This book intervenes in these debates by showing how neoliberal market practices engender new forms of religiosity, and how religiosity shapes economic actions. It reveals how religious movements and organizations have reacted to the increasing prominence of market reason in unpredictable, and sometimes counterintuitive, ways. Using a range of examples from different countries and religious traditions, the book illustrates the myriad ways in which religious and market moralities are closely imbricated in diverse global contexts.

Thank you, Depression! 'Life is not always a bed of roses or a bed of thorns, it's a bed of roses filled with thorns.' All of us are human and have feelings and emotions. It's absolutely normal to feel happy, sad, gloomy or hurt according to the circumstances around us at any given time. Drawing from his own, harrowing, real-life experience, and aided with meticulous research, the author has created an inspiring and compelling narrative of how one's own grit and determination, and proper support from others can turn a debilitating, destructive condition like depression into an uplifting gift, so much so that he can graciously even thank it for changing his life for the better forever!
