DARION RAYMOND

Routledge
This provocative volume explores how and why the word "patriot" has been appropriated by those who fight against the U.S. government—sometim

es advocating violence in support of their goals. Today, as in the past, some "patriot" groups in America long for a return to traditional values and believe it is their duty to stop an intrusive government from whittling away at the freedoms that define the United States. This

book looks at the origins and current activities of such groups through an exploration of the dual nature of the patriot in American mythos—the unquestioning lover of the country and its policies versus the man or woman who places the founding principle of limited government above all else. Focusing on contemporary patriot groups and their impact on U.S. society, the work offers insights into factors that have contributed to the rise of such groups in the past that are again manifesting themselves. It explores the groups' motivations and justifications and shows how these groups use the emotionally powerful sentiment of patriotism

to agitate for change and promote political violence. Perhaps most significant for readers is a discussion of the beliefs that divide the American public today as reflected in the ideologies of patriot groups—and what this means for the future.

A Concise History of Bulgaria Oxford University Press

A unique perspective on one of the greatest religious figures of recent history. An in-depth portrait of Oscar Romero, the Fourth Archbishop of San Salvador, based on research of his diaries and sermons and on interviews with most of his surviving relatives, friends, and co-workers. This biography provides a unique insider/outsider perspective on both Romero and the plight

and struggle of Central American immigrants and other migrant and impoverished populations. Torres takes readers into Romero's early life, his seminary formation, and his active ministry, including conflicts with the ruling elites and hierarchy that led to his ultimate martyrdom. The book concludes with his canonization and the pursuit of justice against his murderers.

Europe Since 1945 CUP Archive

What is East Central Europe? Can it be defined with any precision? The question of definition is a difficult one as is usually the case concerning borderlands whose historical developments show little continuity and an uncertain identity born

of the conflict between aspirations and reality. It is in East Central Europe that „no peace settlement is ever final, no frontiers are secure and each generation must begin its work anew“. Is there any chance that this definition will become out of date?

The Tet Offensive

Columbia University Press

This introduction provides a comprehensive and accessible overview of the central topics in Latin American philosophy. It explores not only the unique insights offered by Latin American thinkers into pre-established fields of Western philosophy, but also the many 'isms' developed as a direct result of Latin American thought.

Zionism Routledge
This rich and readable history of modern Ireland covers the political, social, economic, intellectual, and cultural dimensions of the country's development from the origins of the Irish Question to the present day. In this edition, a new introductory chapter covers the period prior to Union and a new concluding chapter takes Ireland into the twenty-first century. All material has as been substantially revised and updated to reflect more recent scholarship as well as developments during the eventful years since the previous edition. The text is richly supplemented with maps, photographs, and an extensive bibliography.

There is no comparable brief, multidimensional history of modern Ireland.

China and International Security [3 volumes]

The Preferential Option for the Poor
A Concise History of Christian Thought

This textbook in history is primarily intended for secondary schools in South Sudan. The focus is on the history of South Sudan, and is in this sense a pioneer work since it is the country's first secondary school book dealing primarily with the history of the South. Even though the focus is on South Sudan its history cannot be interpreted in a vacuum, and particularly North-South relations are discussed extensively in the book. Secondary

school students in Sudan have either studied the history of Kenya and Uganda, or the history of North Sudan since no history book for South Sudan has existed. The book may also be of interest to academics, politicians, historians and college and university students as well civil society groups such as churches, youth and women's groups.

Jesus Was a Liberal

Fountain Publishers
Now in a fully revised and updated edition including new primary sources and illustrations, this comprehensive book surveys Korean history from Neolithic times to the present. Michael J. Seth explores the origins and development of Korean society, politics, and

still little-known cultural heritage from their inception to the two Korean states of today. Telling the remarkable story of the origins and evolution of a society that borrowed and adopted from abroad, Seth describes how various tribal peoples in the peninsula came together to form one of the world's most distinctive communities. He shows how this ancient, culturally and ethnically homogeneous society was wrenched into the world of late-nineteenth-century imperialism, fell victim to Japanese expansionism, and then became arbitrarily divided into two opposed halves, North and South, after World War II. Tracing the

post-war years since 1945, the book explains how the two Koreas, with their deeply different political and social systems and geopolitical orientations, evolved into sharply contrasting societies. South Korea, after an unpromising start, became one of the few postcolonial developing states to enter the ranks of the first world, with a globally competitive economy, a democratic political system, and a cosmopolitan and dynamic culture. North Korea, by contrast, became one of the world's most totalitarian and isolated societies, a nuclear power with an impoverished and famine-stricken population. Seth

describes and analyzes the radically different and historically unprecedented trajectories of the two Koreas, formerly one tight-knit society. Throughout, he adds a rare dimension by placing Korean history into broader global perspective. All readers looking for a balanced, knowledgeable history will be richly rewarded with this clear and concise book. *The Struggle for Liberation in South Africa* Cambridge University Press Expanded and updated for the new millennium. Covering the life of Christ, the election of Pope Benedict XVI, and everything in between, *A Concise History of the Catholic Church* has been one of the bestselling religious

histories of the past two decades and a mainstay for scholars, students, and others looking for a definitive, accessible history of Catholicism. With a clarity that will appeal to any reader, Thomas Bokenkotter divides his study into five parts that correspond to the major historical and epochal developments in Catholicism. His authoritative, thorough approach takes readers from the Church's triumph over paganism, through "the sound and fury of renewal," to a new section devoted to such topics as dissent and current developments in the ecumenical movement. Informative illustrations throughout the book, new to this edition, enrich the reader's experience,

and the addition of a wide-ranging bibliography increases its value as a sourcebook.

A Concise History of Korea Bloomsbury

Publishing USA

People worldwide find themselves part of overlapping communities of identity and belonging--racial, political, cultural, sexual, ideological. Some identities, like brand loyalties, are chosen; some, like class identity, are imposed. As followers of Jesus Christ, those called to live in between the age that is and the age to come, Christians ask what it means to be part of the body of Christ, God's new creation from among the nations, in a world filled with other nations. "Who--and whose--are we?" There

is no easy answer, no time at which Christians got it completely right. Yet such questions must be addressed, and the stakes are high. Matters of war and peace, exclusion and inclusion, who starves and who does not, the credibility of the gospel itself--all are caught up in the whirl of identities, allegiances imposed or refused, and questions about what "the church" might possibly mean in such circumstances. In this book, a distinguished group of scholars from five continents asks, "How can the church respect the diversity of its members--many nations, cultures, and communities--while maintaining a coherent witness to the kingdom of God that is not

undermined by more parochial ideologies or priorities?" Chapter Contributors: Braden Anderson Maria Clara Lucchetti Bingemer Michael Budde Matthew Butler William Cavanaugh Jose Mario Francisco Peter Galadza Stanley Hauerwas Daniel Izuzquiza Slavica Jakelic Pantelis Kalaitzidis Eunice Karanja Kamaara Emmanuel Katongole Dorian Llywelyn Martin Menke Agbonkhianmeghe E. A Concise History of Christian Thought

University of Notre Dame Pess
This survey of Bulgaria traces its history from the liberation from the Ottoman Empire to 1985.

A Concise History of

China's Population

Instytut Studiów Politycznych Polskiej Akademii Nauk, Instytut Jagielloński
 For the millions of people who identify as liberal Christians. In McLennan's bold call to reclaim ownership of Christianity, he advocates a sense of religion based not on doctrinal readings of scripture but on the humanity behind Christ's teachings. He addresses such topics as intelligent design, abortion, same sex marriage, war, torture and much, much more. As he says in the Preface, "We liberal Christians know in our hearts that there is much more to life than seems to meet the rational eye of atheists; yet we find it hard to support supernatural claims about religion

that fly in the face of scientific evidence."

A Concise History of the Catholic Church (Revised Edition)

Taylor & Francis
 This book provides a comprehensive overview and explanation of China's population, analyzing its special characteristics and patterns of growth over the past 2,000 years. Topics include its composition, distribution, migration, and deep analysis into China's historical population. The author aims to answer complicated questions such as how China's population was formed, when China started its earliest population surveys, how China's population migrated and was distributed historically, and how existing population

data should be evaluated and used now? In addition, the author explores the influence of natural and human-caused disasters, censuses, tax policies, and economic development on China's population changes. The work also offers a span of rich historical detail related to population control. The book will be a great read to students and scholars of population studies, Chinese studies, ethnology, and those who are interested in Chinese history, archaeology, geography, and sociology.

A Concise History of South Sudan: New and Revised Edition

Doubleday Books

"The second edition of this guide to Poland has been updated to

take account of the years from 1989-2005. This period marked its liberation from the Soviet Union, the birth of Poland's 'Third Republic' and, recently, its accession to the European Union in 2004. Poland's history has been marked by its resilience. Once a dominant force in central and eastern Europe and home to a remarkable experiment in consensual politics, it was excised from the map by its neighbours in 1795. Resurrected in 1918, partitioned afresh during the Second World War, it survived to become a satellite of the Soviet Union. Yet in the 1980s, it was Poland which blazed the trail in casting off communism, and was finally able to reassert its Christian heritage.

With its updated bibliography and new chronology, the book is the ideal companion for all looking for a comprehensive survey of this fascinating country."--Publisher's description.

This third, updated edition provides an illustrated introduction to Greek history and includes a new chapter on recent developments.

A Concise History of South Sudan Rowman & Littlefield Publishers
An authoritative history of the Russian Revolution and the "violent and disruptive acts" that created the first modern totalitarian regime, portraying the crisis at the heart of the tsarist

empire "A deep and eloquent condemnation of the revolution and its aftermath." —The New York Times Drawing on archival materials released in Russia, Richard Pipes chronicles the upheaval that began as a conservative revolt but was soon captured by messianic intellectuals intent not merely on reforming Russia but on remaking the world. He provides fresh accounts of the revolution's personalities and policies, crises, and cruelties, from the murder of the royal family through civil war, famine, and state terror. Brilliantly and persuasively, Pipes shows us why the resulting system owes less to the theories of Marx than it did to the

character of Lenin and Russia's long authoritarian tradition. What ensues is a path-clearing work that is indispensable to any understanding of the events of the century. [A Concise History of Poland](#) Cambridge University Press

The Handbook for Social Justice in Counseling Psychology: Leadership, Vision, and Action provides counseling psychology students, educators, researchers, and practitioners with a conceptual "road map" of social justice and social action that they can integrate into their professional identity, role, and function. It presents historical, theoretical, and ethical foundations followed by exemplary models of social justice and action work performed

by counseling psychologists from interdisciplinary collaborations. The examples in this Handbook explore a wide range of settings with diverse issues and reflect a variety of actions.

[A Concise History of the Catholic Church](#) St. Martin's Press

The Oxford Handbook of Social Justice in Music Education provides a comprehensive overview and scholarly analyses of challenges relating to social justice in musical and educational practice worldwide, and provides practical suggestions that should result in more equitable and humane learning opportunities for students of all ages. [Yugoslavia: A Concise History](#) Bloomsbury

Publishing USA

In the Tet Offensive of 1968, Viet Cong and North Vietnamese forces launched a massive countrywide attack on South Vietnam. Though the Communists failed to achieve their tactical and operational objectives, James Willbanks claims Hanoi won a strategic victory. The offensive proved that America's progress was grossly overstated and caused many Americans and key presidential advisors to question the wisdom of prolonging combat. Willbanks also maintains that the Communists laid siege to a Marine combat base two weeks prior to the Tet Offensive--known as the Battle of Khe Sanh--to distract the United States. It is

his belief that these two events are intimately linked, and in his concise and compelling history, he presents an engaging portrait of the conflicts and singles out key problems of interpretation. Willbanks divides his study into six sections, beginning with a historical overview of the events leading up to the offensive, the attack itself, and the consequent battles of Saigon, Hue, and Khe Sahn. He continues with a critical assessment of the main themes and issues surrounding the offensive, and concludes with excerpts from American and Vietnamese documents, maps and chronologies, an annotated list of

resources, and a short encyclopedia of key people, places, and events. An experienced military historian and scholar of the Vietnam War, Willbanks has written a unique critical reference and guide that enlarges the debate surrounding this important turning point in America's longest war.

Beyond the Borders of Baptism

Cambridge University Press

This new and revised edition of A Concise History of South Sudan was revised by Avelino Androga Said, Yosa

Wawa, Anne Farren and Anders Breidlid. All chapters were revised and a new chapter on the period from the referendum in 2011 to the period after independence has been added. When the first edition was published in 2010 it was the first history book of its kind in the now South Sudan. This first edition was primarily intended for secondary schools in South Sudan, but the book proved to arouse great interest to many other South Sudanese both inside South Sudan as well as in the diaspora. This was not surprising since it was the first history book on South Sudan to cover, albeit not in detail, the whole history from the origin of mankind to the present. The book may

be of interest to students, academicians, politicians and civil society groups such as churches and youth and women's groups. The first, original edition of this book

was produced as a result of extensive team work, and the majority of the contributors are South Sudanese citizens, either living in South Sudan or in the diaspora.
