Creative English Role-Playing Activities 3  
Rockridge Press

This teaching resource book is suitable for children in elementary school aged 6 to 10 who are learning English at a beginner to intermediate level, but it's also great for native English speaking children who are in kindergarten.

A Raisin in the Sun Chimayo Press  
Welcome to Creative English Role-

playing Activities. Nowadays Many EFL/ESL Students are in search of more conversational ways to pick up the English language, mainly because of the importance of bringing into practice what they learn. The days of passively sitting in a classroom are long gone. Instead the students want to be involved in the classroom, interact with their classmates, as well as practice real life situations. One of the best ways to do that is to have the students role-play in the classroom. Role-playing has many beneficial characteristics for in the

classroom, and especially in the EFL classroom. Although they are more often used in Special Purposes courses, they can be used in many different settings, and at all levels. For that reason we have created this workbook 'Creative English Role-playing Activities' as a handy toolbox for Schools, as well as for Teachers, to make their classes stand out and become (even) more conversational and engaging for the students. What you will find in this book;

- Over 50 Roles to Play - 20 Complete Role-play Story-lines - 20 Role-play Extensions - 10 Information Exchange Activities - 10 Stories - 30 Reading Activities (3 per story) - 300+ Discussion Questions - 150+ Comprehension Questions - 2000+ Focus Words

We hope you and your students will enjoy

using this book, as much as we enjoy it with our students.

English Language Learning with Super Support Wayzgoose Press

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning. In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

Adaptable, humourous, easy to put

together and fun. Many ESL pupils have found these skits fun, become more confident speaking English and enjoyed the learning process. The skits cover common vocabulary themes and grammar and allow for speaking opportunities in life-like meaningful contexts. Ideal for small groups, one to one with private tutors or use with your own children. Every skit is adaptable to any number of children. Scripts are written for ESL beginners with examples of alternatives provided to show how easy it is to adapt them and make them more complex for intermediate levels. The age bracket suggested is from 6 to 12. Some skits are possible with ages 4 and 5 though it takes much longer to prepare. Here is what other teachers have reported on using the plays and

skits in this book: The kids asked to do it again: I did that play (Ready Steady go!) with my children's class yesterday evening and it worked really well. They absolutely loved it and I wished I'd taken my camera as, by the end of the lesson, they were all sitting in their pretend car with a fine array of ski hats, sunglasses, umbrellas, over-sized gloves, etc. They looked like film stars! Anyway, they've asked to do it again next week so a sure sign that they enjoyed themselves.

Miranda Goodwin, France Since discovering your materials I enjoy the planning...and love the teaching. You use the fun approach I believe in through the theatre work I have done, and you have given me the confidence to know it can be applied to language learning for this age group. The kids love it and so do

the parents! Joanna Simm, France The children in my beginners English class had such fun doing your skit 'Ready Steady Go!' They were begging me for a skit. 'The Robot' was perfect and so simple to do. It really helped the kids build confidence in their ability to speak English. Thanks for making us look good! Becky Good, Battambang, Cambodia Whenever you have any more ideas be sure to let me know. The stories are fantastic, the games are great and the plays are wonderful!!!!!!!!!!!!!! Thanks so much for making my classes work so well. Lisa Brownlow in Spain I just wanted to let you know that the plays were a great success and I intend to keep having fun with them. Each of my classes put the play on for the school and the parents! Thank you for your

great ideas. Michele Hain, Germany just wanted to let you know how I went with my 1st play girls will be girls and boys will be boys!!!! It was great and the kids loved it. I really got them to ham it up when they said "Hey girls." They laughed and laughed they managed the vocab great and I knew it would work as I had taught them the vocab previously. It's amazing to see the confidence it builds in them. At the end of one lesson I had one little girl come up to me and say "Miss Cathy, I am a dancer?" and she showed me some wonderful dance moves. Effective science teaching requires

creativity, imagination, and innovation. In light of concerns about American science literacy, scientists and educators have struggled to teach this discipline more effectively. *Science Teaching Reconsidered* provides undergraduate science educators with a path to understanding students, accommodating their individual differences, and helping them grasp the methods--and the wonder--of science. What impact does teaching style have? How do I plan a course curriculum? How do I make lectures, classes, and laboratories more effective? How can I tell what students are thinking? Why don't they understand? This handbook provides productive approaches to these and other questions. Written by scientists who are also educators, the handbook

offers suggestions for having a greater impact in the classroom and provides resources for further research.
