In a fast changing world, brimming with social and economic uncertainty, financial information plays a vital role in the life of an organization and does so with two sets of eyes. One set looks back to see what has happened. This is the accounting function, which is simply about the recording of events and the production of the financial reports that satisfy the stewardship responsibility of management. The other set looks forward to determine the most appropriate strategic direction for an organization, guiding managerial actions, motivating behaviors, and creating and supporting the cultural values necessary to achieve an organizations strategic objectives. This book is all about the second set of eyes, which are the lenses of STRATEGIC FINANCIAL MANAGEMENT, that help organizations plot their way through an environment filled with opportunities and dangers. For students, aspiring managers as well as those who already have

management responsibilities this book provides an insight, through the eyes of the characters of a start-up company, of some of the ideas and models that help to identify the possible strategies capable of maximizing an organization's value, which is the same as making the owners as wealthy as possible, to determine how to finance the organization in the most proper way, to allocate the collected capital in the most effective way, to monitor the implementation of the chosen strategy to see whether it is meeting the planned objectives, and to reasonably decide on the reinvestment and distribution of profits.

Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

A practical guide to the evolving world of banking and financial institutions Due to various factors, ranging from the global financial crisis that began in 2007 to new laws such as the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, banks and financial institutions have had to alter the way they operate. Understanding how these institutions function in the face of recent challenges is essential for anyone associated with them. That's why Professor Benton Gup has created Banking and Financial Institutions. Opening with a detailed discussion of the causes of the recent financial crisis, as well as a look at some lessons we can learn from it and other crises, this reliable resource quickly moves on to put modern banking in perspective. Filled with in-depth insights and expert advice, Banking and Financial Institutions examines the essential aspects of this discipline and shows you what it takes to make the most informed decisions possible, whether you're a bank director, investor, or borrower. Explains the economic role of financial intermediaries, including the financial institutions that bring borrowers and savers together Addresses how banks can hedge some of their interest rate and credit risks by using various types of derivatives contracts, options, and futures Analyzes the process of commercial and industrial (C&I) lending, from how banks make loans and the types of C&I loans to the role of collateral Allows you to evaluate a bank's financial statements and performance Explores payments systems, including cash, checks, credit cards, wire transfers, and other means of payment Rounding out this detailed banking guide is an informative chapter on Islamic banking written by Professor Mohamed Ariff of Bond University, as well as a chapter filled with tips for bank directors, borrowers, and investors contributed by John Harrison, the Superintendent of Banks, Alabama State Banking Department.

Financial Management in the Sport Industry provides readers with an understanding of sport finance and the importance of sound financial management in the sport industry. It begins by covering finance basics and the tools and techniques of financial quantification, using current industry examples to apply the principles of financial management to sport. It then goes beyond the basics to show how financial management works specifically in sport - how decisions are made to ensure wealth maximization. Discussions include debt and equity financing, capital budgeting, facility financing, economic impact, risk and return, time value of money, and more. The final section focuses on sport finance in three sectors of the industry - public sector sports, collegiate athletics, and professional sport-providing in-depth analysis of financial management in each sector. Sidebars, case studies, concept checks, and practice problems throughout provide practical applications of the material and enable thorough study and practice. The business of sport has changed dynamically since the publication of the first edition, and this second edition reflects the impact of these changes on financial management in the sport industry. New to this edition are changes to reflect the

global nature of sport (with, for example, discussions of income tax rates in the Premier League), expanded material on the use of spreadsheets for financial calculations, a primer on accounting principles to help students interpret financial statements, a valuation case study assignment that takes students step by step through a valuation, a new stadium feasibility analysis using the efforts of the Oakland Raiders to obtain a new stadium, a new economic impact example focusing on the NBA All Star game, and much more.
