STEWART ENRIQUE

Super Smart Machines and Wacky Gadgets You Never Knew You Wanted Tyndale House Publishers, Inc.

You've created a STEAM program in your library, but how do you work literacy into the curriculum? With this collection of resource recommendations, direction for program

development, and activities, you'll have students reading proficiently in no time. • Presents complementary annotated books and discussion questions to engage students in STEAM topics • Offers topical project and problem-solving activity ideas for students in the library makerspace • Provides research and additional resources for teachers and librarians to use in implementing

successful STEAM programs
Bringing Technology Education Into K-8 Classrooms Walter Foster Pub
Gum. It's been around for centuries—from the ancient Greeks to the American Indians, everyone's chewed it. But the best kind of gum—bubble gum!—wasn't invented until 1928, when an enterprising young accountant at Fler Gum

and Candy used his spare time to experiment with different recipes. Bubble-blowing kids everywhere will be delighted with Megan McCarthy's entertaining pictures and engaging fun facts as they learn the history behind the pink perfection of Dubble Bubble.

A Guide and Resource Book Turtleback

Discover Incredible Inventions by Black People #1 New Release in Children's Inventors Books Young Trailblazers: The Book of Black Inventors and Scientists is a fun

new book for children that teaches kids about inventions by Black people that have impacted the world through their ingenuity and trailblazing innovation. From Black Inventors to Black Scientists. Take your child on an adventure and travel through time to meet famous black inventors who changed the game. Countdown to liftoff with Katherine Johnson, who helped pioneer U.S. crewed space missions. Safely cross the street with Garrett

Morgan, who invented the traffic signal—or even sing your heart out with James West's invention of the microphone. All of these inventions by Black people have, in one way or another, shaped the past and present through trailblazing creativity and resilience; these stories are sure to inspire every child. Experience an array of rich Black history. In this book, there are Black scientists and Black inventors we all know, such as Lewis Howard Latimer and Sarah Boone. There are also dozens of

Black trailblazers that we don't, all of whom have accomplished remarkable things in literature, entertainment, education, STEM, business, military and government services, politics and law, activism, sports, spirituality, and more. Inside this book of inventions by Black people, you'll find:

- A fun and engaging introduction to Black inventors for kids
- Essential Black history for kids to learn about
- Interesting fun facts and beautiful illustrations

If you enjoyed *Black Women in Science*, *Black*

Inventors, or *Black Heroes*, then you'll love *Young Trailblazers*.

Children's Encyclopedia - Scientists, Inventions and Discoveries

Carson-Dellosa Publishing

A project book for the would-be inventor with activities, a list of "contraptions" in need of invention, and the stories behind thirty-six existing inventions.

50 Awesome Drawing Activities for Young Inventors National Geographic Children's Books

Do you have some crazy inventions up your sleeve?! This book is jam-packed with Andrew Rae's amazing drawings showing all sorts of real inventions that seem too weird to work. How about a dog umbrella? A submarine that looks like a plane... or even a shark. A swimming machine where you don't get wet? A car wash for people? Someone has even made a device to charge your phone using a hamster! There is plenty of inspiration to get kids' minds going, and plenty

of room to add their own crazy inventions to the mix. They can design the best dune buggy ever, create a brand new sweet to share with the world, or even draw their very own Transformer dinosaur! Includes a patent certificate for their very own crazy invention! Chicago Review Press

The world is brimming full of incredible inventions - but where did it all begin? How did these incredible inventions come about? Journey back in time, travel across the world and discover incredible

inventions from throughout history. Take a ride on the very first wheel, find your way and ensure you'll never get lost again with the compass, let the lights come on with electricity, watch as the world puffs into life with the steam engine and many more astounding inventions. Written with bitesized pieces of text and illustrated with bright and engaging artwork, this is the perfect introduction to some of the most amazing inventions that have helped make history.

Learn fascinating facts about the people behind these inventions and how their discoveries changed the world forever. So what are you waiting for? Let's uncover The Story of Inventions! Inventions featured: The wheel, the compass, paper, clocks, gunpowder, steam engines, vaccinations, computers, electricity, the telephone, the car, planes, plastic, nuclear weapons and the internet. Young Trailblazers Corwin Press

Have you ever seen inventors on TV or in the

newspaper and thought, "That could be me!" Well, it certainly could—and this book shows you how. *Kids Inventing!* gives you easy-to-follow, step-by-step instructions for turning your ideas into realities for fun, competition, and even profit. From finding an idea and creating a working model to patenting, manufacturing, and selling your invention, you get expert guidance in all the different stages of inventing. You'll see how to keep an inventor's log, present your ideas,

and work as part of a team or with a mentor. You'll meet inspiring kids just like you who designed their own award-winning inventions. And you'll see how to prepare for the various state and national invention contests held each year, as well as international competitions and science fairs. *Whoosh!* Laurence King Publishing
Fun notebook for kids to write down their inventions in an organized manner. The template consists of a drawing space and a place to write

a description for the given invention.

The Invention of Bubble Gum Lerner Publications

This fun-filled and informative book gives curious kids the inside scoop on 125 amazing real inventions, including super smart toilets, sweet dream machines, bread buttering toasters and flying hotels.

Simultaneous.

The Kids' Invention Book
Workman Publishing Company

Famous inventors and the inventions they develop is a fascinating area of

historical study that is usually far too advanced for young children. However, a Famous Inventors & Inventions Picture Book breaks that information down in a way that is interesting and engaging to young boys and girls. Instead of pages and pages of text that makes no sense to them, children can see a picture of the inventor alongside the invention they created. This helps to begin laying the foundation for this knowledge in children at a young age and may even

spark their interest and imagination in this area.

The World's Familiar Inventions and how They Came to be John Wiley & Sons

Presents fun facts and trivia including how a pearl forms and the origin of safety glass, connecting them to Christian life using passages from the Bible.

A Handbook for Young Inventors National Geographic Children's Books

With her sketchbook labeled My Inventions and her father's toolbox,

Mattie could make almost anything – toys, sleds, and a foot warmer. When she was just twelve years old, Mattie designed a metal guard to prevent shuttles from shooting off textile looms and injuring workers. As an adult, Mattie invented the machine that makes the square-bottom paper bags we still use today. However, in court, a man claimed the invention was his, stating that she “could not possibly understand the mechanical complexities.” Marvelous Mattie proved

him wrong, and over the course of her life earned the title of “the Lady Edison.” With charming pen-and-ink and watercolor illustrations, this introduction to one of the most prolific female inventors will leave readers inspired.

Marvelous Mattie is a 2007 Bank Street - Best Children's Book of the Year.

How Margaret E. Knight Became an Inventor Macmillan

Turning dreams into inventions can be a challenge, but lots of kids

do it every day. The Kids' Invention Book takes kids step-by-step through the creative process, from finding the inspiration to building a model. The book also includes information on applying for a patent, entering invention contests, and starting an inventors' club.

125 Cool Inventions

Charlesbridge Publishing Profiles business owners who began their businesses between the ages of seven and twelve, describes simple methods of starting a business, and includes tips on accounting and advertising.

Pop! ABC-CLIO

A lively tale of a cool invention. Frank William

Epperson is a curious boy who loves inventing. And since inventing begins with experimenting, he spends a lot of time in his "laboratory" (i.e., his back porch) trying out his ideas. When he invents a yummy flavored soda water drink, his friends love it! And this gets him thinking: "I wonder what this drink would taste like frozen?" Though he doesn't yet know it, Frank's curiosity will lead to his best invention ever: the Popsicle! This delicious story includes hands-on experiments

and is sure to whet the appetites of budding inventors everywhere!
