The nautanki performances of northern India entertain their audiences with often ribald and profane stories. Rooted in the peasant society of pre-modern India, this theater vibrates with lively dancing, pulsating drumbeats, and full-throated singing. In *Grounds for Play*, Kathryn Hansen draws on field research to describe the different elements of nautanki performance: music, dance, poetry, popular story lines, and written texts. She traces the social history of the form and explores the play of meanings within nautanki narratives, focusing on the ways important social issues such as political authority, community identity, and gender differences are represented in these narratives. Unlike other styles of Indian theater, the nautanki does not draw on the pan-Indian religious epics such as the Ramayana or the Mahabharata for its subjects. Indeed, their storylines tend to center on the vicissitudes of stranded heroines in the throes of melodramatic romance. Whereas nautanki

performers were once much in demand, live performances now are rare and nautanki increasingly reaches its audiences through electronic media—records, cassettes, films, television. In spite of this change, the theater form still functions as an effective conduit in the cultural flow that connects urban centers and the hinterland in an ongoing process of exchange.

Effortless Mastery -- 20th Anniversary Edition Routledge

One of Library Journal's "Best Arts Books of 2020" The definitive biography of Ravi Shankar, one of the most influential musicians and composers of the twentieth century, told with the cooperation of his estate, family, and friends For over eight decades, Ravi Shankar was India's greatest cultural ambassador. He was a groundbreaking performer and composer of Indian classical music, who brought the music and rich culture of India to the world's leading concert halls and festivals, charting the map for those who followed in his footsteps. Renowned for playing Monterey Pop, Woodstock, and the Concert for Bangladesh-and for teaching George Harrison of The Beatles how to play the sitar-Shankar reshaped the musical landscape of the 1960s across pop, jazz, and classical music, and composed unforgettable scores for movies like *Pathar Panchali* and *Gandhi*. In *Indian Sun: The Life and Music of Ravi Shankar*, writer Oliver Craske presents readers with the first full portrait of this legendary figure, revealing the personal and professional story of a musician who influenced-and continues to influence-countless artists. Craske paints a vivid picture of a captivating, restless workaholic-from his lonely and traumatic childhood in Varanasi to his youthful stardom in his brother's dance troupe, from his intensive study of the sitar to his revival of India's national music scene. Shankar's musical influence spread across both genres and generations, and he developed close friendships with John Coltrane, Philip Glass, Yehudi Menuhin, George Harrison, and Benjamin Britten, among many others. For ninety-two years, Shankar lived an endlessly colorful and creative life, a life defined by musical, emotional, and spiritual quests-and his legacy lives on. Benefiting from unprecedented access to Shankar's archives, and drawing on new interviews with over 130 subjects-including his second wife and both of his daughters, Norah Jones and Anoushka Shankar- *Indian Sun* gives readers unparalleled insight into a man who transformed modern music as we know it today.

Time in Indian Music is the first major study of rhythm, metre, and form in North Indian rag , or classical, music. Martin Clayton presents a theoretical model for the organization of time in this repertory, a model which is related explicitly to other spheres of Indian thought and culture as well as to current ideas on musical time in alternative repertoires-including that of Western music. This theoretical model is elucidated and illustrated with reference to many musical examples drawn from authentic recorded performances. These examples clarify key Indian musicological concepts such as tal (metre), lay (tempo or rhythm), and laykari (rhythmic variation).

RUDIMENTAAL is a collection of rudimental snare drum pieces inspired by the tabla drumming of North India - a gateway into North Indian drumming for drummers and percussionists from all backgrounds. In addition to the pieces contained in this text, are explanations of the solo tabla form and the repertoire of which it is comprised, along with exercises and études in order to further develop one's understanding of the compositional forms, rhythmic devices, and performance practices of this rich musical tradition. The repertoire is presented in a way similar to how one might learn tabla. First, one learns various compositions from the repertoire as separate items. Each item can be seen as an étude, or a short concert piece for performance. Once enough repertoire is learned, one can then connect the various compositions together to create a fully-formed solo. There are a number of compositions provided, along with instructions for how to piece them together, allowing for numerous possible permutations in designing your own solo snare drum performance based on your repertoire preferences. In addition to these shorter compositions that can be used as building blocks for larger pieces, three complete stand alone solo pieces are also included: DANCING HANDS, CHESTERMERE & DELHI, and SEVEN BIRDS.
