Jacob Spon né à Lyon en 1647 est une belle figure de la " crise de la conscience européenne " du Grand Siècle. Médecin, alors que la médecine est encore un discours plutôt qu'une science, il tire de sa formation un regard aiguisé et le sens de l'observation qui lui permettent d'occuper une place de choix parmi les savants qui ont contribué à la naissance de l'archéologie, terme qu'il est le premier à employer et à définir dans la préface de son ouvrage : *Miscellanae eruditae antiquitatis* (1679). Il révèle les antiquités de sa ville, et écrit la première histoire imprimée de Genève. Bravant la peste et les corsaires, le mauvais temps et les brigands, il voyage de 1674 à 1676 et fait découvrir à ses contemporains l'Italie, la côte Dalmate, la Grèce et le Levant, dans une relation qui fut traduite en plusieurs langues, et qui devint le guide des voyageurs instruits jusqu'à l'époque romantique. Protestant convaincu, il préfère s'exiler plutôt que d'abjurer, et meurt à Vevey, en décembre 1685, deux mois après la révocation de l'Edit de Nantes.

Forthcoming Books Irwin/McGraw-Hill

Glencoe Medical Insurance provides focused coverage of the knowledge and skills necessary for successful medical insurance processing, including in-depth coverage of medical insurance, the claims process, HCFA 1500, and UB-92. It covers all types of medical insurance including Blue Cross, Blue Shield, HMOs, PPOs, Medicare, Medicaid, and other plans. Managed care is integrated throughout the text, including discussion of contract law as it relates to managed care. There is an emphasis on practice management and patient finance. Optional exploratory computer activities use MediSoft for Windows Advanced. The focus in the text is on electronic claims filing but paper claims are covered as well. Unique to this text is an entire chapter emphasizing how crucial correct coding is to reimbursement and compliance with federal regulations.

Financial Management and Recordkeeping Springer Publishing Company

Occupational Health Psychology (OHP) is a rapidly expanding interdisciplinary field that focuses on the science and practice of psychology in promoting and developing workplace health- and safety-related initiatives. This comprehensive text for undergraduate and graduate survey courses is the first to encompass a wide range of key issues in OHP from a North American perspective. It draws from the domains of psychology, public health, preventive medicine, nursing, industrial engineering, law, and epidemiology to focus on the theory and practice of protecting and promoting the health, well-being, and safety of individuals in the workplace and improving the quality of work life. The text addresses key psychosocial work issues that are often related to mental and physical health problems, including psychological distress, burnout, depression, accidental injury, obesity, and cardiovascular disease. It examines leadership styles as they impact organizational culture and provides specific recommendations for reducing employee-related stress through improved leader practices. Also addressed is the relationship between adverse psychosocial working conditions and harmful health behaviors, along with interventions aimed at improving the work environment and maximizing effectiveness. Additionally, the book discusses how scientists and practitioners in OHP conduct research and other important concerns such as workplace violence, work/life balance, and safety. The book reinforces learning with chapter objectives, highlight boxes containing intriguing examples of research and current controversies, and chapter summaries. Key Features: Comprises the first comprehensive text on Occupational Health Psychology for undergraduate and graduate survey courses Covers key issues in health psychology in the workplace such as stress, violence, work/life balance, and safety Organized and written for easy access by students and faculty Provides specific recommendation for reducing employee stress Includes learning objectives, highlight boxes, and end-of-chapter summaries
