Launching RTI Comprehension Instruction with Shared Reading One World

Literacy intervention should be swift and powerful--and this approach by Jan Richardson and Ellen Lewis provides fast results! After only 6-8 weeks of intervention, students can gain the confidence, proficiency, and skills they need to excel as readers and exit intervention! Based on Jan's bestselling *The Next Step Forward in Guided Reading*, this companion volume is intended to be used together in order to best implement the RISE framework.. *The Next Step Forward in Reading Intervention* offers intensive, short-term, targeted instruction in reading, writing, word study,

and comprehension. It's a step-by-step handbook for literacy teachers, literacy coaches, and reading specialists who are looking for a proven reading invention program that really works. "RISE has truly changed the face of intervention at our school." --

Starting a Business QuickStart Guide Corwin Press

Start Small, Stay Small is a step-by-step guide to launching a self-funded startup. If you're a desktop, mobile or web developer, this book is your blueprint to getting your startup off the ground with no outside investment. This book intentionally avoids topics restricted to venture-backed startups such as: honing your investment pitch, securing funding, and figuring out how to use

the piles of cash investors keep placing in your lap. This book assumes: * You don't have \$6M of investor funds sitting in your bank account * You're not going to relocate to the handful of startup hubs in the world * You're not going to work 70 hour weeks for low pay with the hope of someday making millions from stock options There's nothing wrong with pursuing venture funding and attempting to grow fast like Amazon, Google, Twitter, and Facebook. It just so happened that most people are not in a place to do this. *Start Small, Stay Small* also focuses on the single most important element of a startup that most developers avoid: marketing. There are many great resources for learning how to write code, organize source control, or connect to a database. This book does not cover the technical aspects developers already know or can learn elsewhere. It focuses on finding your idea, testing it before you build, and getting it into the hands of your customers.

Start a successful business mid-life When you think of someone launching a start-up, the image of a twenty-something techie probably springs to mind. However, Gen Xers and Baby Boomers are just as likely to start businesses and reinvent themselves later in life. *Never Too Old to Get Rich* is an exciting roadmap for anyone age 50+ looking to be their own boss and launch their dream business. This book provides up-to-date resources and guidance for launching a business when you're 50+. There are snappy profiles of more than a dozen successful older entrepreneurs, describing their inspirational journeys launching businesses and nonprofits, followed by Q&A conversations, and pull-out boxes containing action steps. The author walks you

through her three-part fitness program: guidelines for becoming financially fit, physically fit, and spiritually fit, before delving more deeply into how would-be entrepreneurs over 50 can succeed. • Describes how you can find capital to start your own business • Offers encouraging stories of real people who have become their own bosses and succeeded as entrepreneurs • Written by PBS Next Avenue's entrepreneur expert, Kerry Hannon • Teaches you how to start your own business *Never Too Old to Get Rich* is the ideal book for older readers looking to pursue new business ventures later in life.

An exposé of the gender gap in entrepreneurship and a road map for a more inclusive and economically successful future for us all Journalist and professor Susanne Althoff investigates the obstacles women and nonbinary entrepreneurs—especially those of color—face when launching, funding, and growing their companies, obstacles that persist because the current start-up world was engineered by and for white men. Through interviews with over a hundred founders across the country and in all industries, Althoff paints a picture of an entrepreneurial system rife with bias and discrimination, where women receive less than 3 percent of this country's venture capital, struggle to find mentors in the wake of #MeToo, and are dismissed as “mompreneurs.” The effects of this unequal system—a weaker economy, fewer jobs, less innovation—are felt by all of us, and Althoff explains how more equitable structures in business and entrepreneurship will benefit all people, not just those hoping to fund a startup. By exploring some of the practical ways we can open the entrepreneurial system to everyone, Althoff provides a

rallying cry and a way forward for women entrepreneurs and their allies, showing that change is urgent and within our reach.

Teaching English language arts at grades K-5 is both a science and an art. Educators must teach literacy skills and content with best practices, while also keeping focus on each student's individual needs. They are challenged to monitor students working independently while also conducting small group instruction. And they must focus on providing differentiated support with a rather complicated text. With increased attention to rigor, requirements, and personalized instruction, it can be a challenge to make sure all students are receiving instruction that is just right. *Comprehensive Literacy Basics: An Anthology* by Capstone Professional contains useful tips to support educators. Chapters focus on each part of the literacy and language arts block, including whole group, small group, writing, and differentiation. A collection of expert authors specializing in literacy and language arts instruction contributed chapters to the book. The quick tips and suggestions within will reinforce current practices while providing an invaluable go-to reference. FAMIS #902792539

In an era of change in education, the time is right to refocus attention on guided reading practices. Guided reading remains an anchor in small group literacy instruction, but how has it changed with the new shifts? In this book, Michael Ford provides a practical resource for guided reading. He explains how it has evolved, why it's important, how to fit it into a comprehensive literacy program, how to select texts, how to position it for intervention, and how to assess students. Also included is an appendix with a listing of guided reading books.

A brutal, bloody, and at times hopeful history of the vote; a primer on the opponents fighting to take it away; and a playbook

for how we can save our democracy before it's too late—from the former U.S. Attorney General on the front lines of this fight Voting is our most important right as Americans—"the right that protects all the others," as Lyndon Johnson famously said when he signed the Voting Rights Act—but it's also the one most violently contested throughout U.S. history. Since the gutting of the act in the landmark *Shelby County v. Holder* case in 2013, many states have passed laws restricting the vote. After the 2020 election, President Trump's effort to overturn the vote has evolved into a slow-motion coup, with many Republicans launching an all-out assault on our democracy. The vote seems to be in unprecedented peril. But the peril is not at all unprecedented. America is a fragile democracy, Eric Holder argues, whose citizens have only had unfettered access to the ballot since the 1960s. He takes readers through three dramatic stories of how the vote was won: first by white men, through violence and insurrection; then by white women, through protests and mass imprisonments; and finally by African Americans, in the face of lynchings and terrorism. Next, he dives into how the vote has been stripped away since *Shelby*—a case in which Holder was one of the parties. He ends with visionary chapters on how we can reverse this tide of voter suppression and become a true democracy where every voice is heard and every vote is counted. Full of surprising history, intensive analysis, and actionable plans for the future, this is a powerful primer on our most urgent political struggle from one of the country's leading advocates. Fly into fun with a determined girl engineer named Min who finds a clever way to join her big sister's games. This Level G book is

perfect for young readers building their vocabulary and skills! Big Sister Ann and her friend Bess are playing school—and Min wants to join in. But Ann tells Min she's not ready for school. "Here is the line." says Ann, "You may not step over it." Min doesn't give up so easily, though—she finds a rock and a board, some rope and a tube, and builds herself a catapult and rocket. Launching herself into the air and over the line, Min ends up in the middle of the playdate without stepping over the line. Beginning readers will cheer underdog Min's triumphant landing in this easy-to-read book that celebrates ingenuity and perseverance. Detailed watercolor illustrations by Caldecott medalist Emily Arnold McCully showcase the budding engineer's brilliant plan. They'll all play rocket scientists instead! The award-winning *I Like to Read*® series focuses on guided reading levels A through G, based upon Fountas and Pinnell standards. Acclaimed author-illustrators-- including winners of Caldecott, Theodor Seuss Geisel, and Coretta Scott King honors—create original, high quality illustrations that support comprehension of simple text and are fun for kids to read with parents, teachers, or on their own! For early-to-mid first grade readers, Level G books feature more complex storylines than prior levels, and a wider variety of structure and punctuation. Illustrations offer support for decoding the more challenging vocabulary words introduced.
