MACK LAMBERT

Tort Law Textbook

Kluwer Law International
B.V.

This book is exceptional in

the sense that it provides an introduction to law in general rather than the law of one specific jurisdiction, and it presents a unique way of looking at legal education. It is crucial for lawyers to be aware of the different ways in which societal problems can be solved and to be able to discuss the advantages and disadvantages of different legal solutions. In this respect, being a lawyer involves being able to reason like a lawyer, even more than having detailed knowledge of particular sets of rules. Introduction to Law reflects this view by focusing on the functions of rules and on ways of arguing the relative qualities of alternative legal solutions. Where 'positive' law is discussed, the emphasis is on the legal questions that must be addressed by a field of law and on the different solutions which have been adopted by, for instance, the common law and civil law tradition. The law of specific jurisdictions is discussed to illustrate possible answers to questions such as when the existence of a valid contract is assumed.

An Introduction to the American Legal System
Cengage Learning

Lively and Engaging, An Introduction to the American Legal System Speaks to a Broad Spectrum of Students as It Informs Them about Contemporary Legal Issues That Directly Impact Their Lives, Law, Courts, and Liberties. The Sixth Edition of An Introduction to the American Legal System provides both historical context and thoroughly up-to-date coverage of all aspects of American law and the legal system. Vivid examples, on-point case summaries, and hot-button issues make this text an obvious choice for paralegal, criminal justice, political science, prelaw, or legal studies courses. New to the Sixth Edition: Emphasis on recent decisions by the U.S. Supreme Court, such as *Dobbs v. Jackson Women's Health Organization* (2022), that have an impact on public policy and questions of constitutional interpretation, the importance of precedent, and the role of the Court in the constitutional system. Added discussions of the debate surrounding the meaning of the Second Amendment, with particular attention paid to the Supreme Court's decision in *New York State*

Rifle & Pistol Association v. Bruen. Additional current and engaging content throughout the book to help students connect the legal issues in the text with interesting real-world applications. Expanded coverage of free speech rights in high school and college settings. Analysis of numerous Supreme Court decisions concerning civil rights and liberties through the 2021–2022 term. Professors and students will benefit from: A comprehensive overview of the history and structure of the American legal system, supported by real-life examples. Contemporary topical coverage of constitutional issues, torts, property law, contracts and business law, family law, legislation, and administrative law. Cases in Point that concisely illustrate how the law applies in the real world. Questions for discussion in every chapter that point to high-interest issues for debate. A well-crafted pedagogical design that includes learning objectives and chapter outlines. A four-part structure easily grasped by students: Foundations of the Legal System, Public Law,

Private Law, and the Legal Process Clear and accessible writing A comprehensive glossary of legal terms

An Introduction to Law and Legal Reasoning

Oxford University Press

In diesem Band werden die für das Verständnis und die praktische Handhabung wesentlichen Gebiete und Grundfragen des deutschen Rechts dargestellt. Studenten in den Anfangssemestern, insbesondere ausländische Praktiker sowie interessierte Laien finden in diesem Band einen Überblick und konzentrierte Informationen über die deutsche Rechtsprechung.

An Introduction to German Law Vandepas Pub.

A standard legal resource since its first edition in 1978, this matchless book has proven itself the ideal overview of Dutch law for foreign lawyers. This Sixth Edition fully updates its systematic description of the legal sources, institutions, and concepts in all major fields of law. Recent developments covered include the progressive

implementation of standards set by international conventions, the reorganization of the judiciary, the statute on environmental law, and the (re)codification of private international law. The continuing influence of European law is evident in many fields, perhaps most notably in family law. The various chapters are written by experts - scholars and lawyers - in particular fields, and provide an authoritative overview of each field. The historical sources of Dutch law are discussed, as well as Dutch legal culture, legal philosophy, judicial organization, legal education, and the legal profession. These chapters are followed by introductions to essential issues of private and public law and labour law. The last chapter examines financial law. The only resource of its kind available, this book is unmatched as a thorough guide to further research. It offers practitioners, particularly foreign lawyers, a quick and reliable way into any area of Dutch law that they may be required to research. It will also be of great value to comparatists (especially those studying the influence of European law

on national legal systems), scholars, and students. Like previous editions, the Sixth Edition has been prepared under the auspices of the Netherlands Comparative Law Association.

A Modern Introduction to International Law

Oxford University Press on Demand

We are delighted to announce the publication of the 6th edition of 'Constitutions Compared' which was previously published by Intersentia. It provides a user-friendly introduction to comparative constitutional law. For each area of constitutional law, a general introduction and a comparative overview is presented, followed by more detailed country chapters. This book is a helpful guide for students who are exploring comparative constitutional law for the first time and it provides a solid foundation for more advanced graduate-level courses.

An Introduction to Law
Pearson Education

Since the publication of its first edition, this textbook has become the definitive student introduction to the subject. As with earlier editions, the seventh edition gives a

clear understanding of fundamental legal concepts and their importance within society. In addition, this book addresses the ways in which rules and the structures of law respond to and impact upon changes in economic and political life. The title has been extensively updated and explores recent high profile developments such as the Civil Partnership Act 2005 and the Racial and Religious Hatred Bill. This introductory text covers a wide range of topics in a clear, sensible fashion giving full context to each. For this reason *An Introduction to Law* is ideal for all students of law, be they undergraduate law students, those studying law as part of a mixed degree, or students on social sciences courses which offer law options. *An Introduction to Law* Springer Science & Business Media Derived from the renowned multi-volume International Encyclopaedia of Laws, this very useful analysis of constitutional law in Germany provides essential information on the country's sources of constitutional law, its form of government, and its administrative structure.

Lawyers who handle transnational matters will appreciate the clarifications of particular terminology and its application. Throughout the book, the treatment emphasizes the specific points at which constitutional law affects the interpretation of legal rules and procedure. Thorough coverage by a local expert fully describes the political system, the historical background, the role of treaties, legislation, jurisprudence, and administrative regulations. The discussion of the form and structure of government outlines its legal status, the jurisdiction and workings of the central state organs, the subdivisions of the state, its decentralized authorities, and concepts of citizenship. Special issues include the legal position of aliens, foreign relations, taxing and spending powers, emergency laws, the power of the military, and the constitutional relationship between church and state. Details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and

significance. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for both practising and academic jurists. Lawyers representing parties with interests in Germany will welcome this guide, and academics and researchers will appreciate its value in the study of comparative constitutional law. *Atiyah's Introduction to the Law of Contract* Prentice Hall Encompassing all the major fields of legal practice, *Introduction to Turkish Law* provides an essential understanding of the Turkish legal system, so that users can become familiar with law and legal processes in Turkey and pursue further research on specific Turkish legal matters. Twelve chapters, written by Turkish experts in their areas of specialty, focus on particular fields and provide also the Turkish equivalents of English terminology. The book covers the following topics: * sources of Turkish law; * constitutional law; * administrative law; * legal persons and business associations; * family and inheritance matters; *

property; * obligations; * criminal law; and * the laws of civil and criminal procedure. The sixth edition reflects the continuing adaptation of Turkish law to international standards - especially in light of Turkey's hopes for membership in the European Union. These aspirations forced the Turkish lawmakers to modify some basic laws intensively or change them entirely. A short updated list of books and articles in English on Turkish law is appended.

Commercial Law, 6th Edition Kluwer Law International B.V.
Written specifically for first-year law students, the authors of this family law textbook have taken care to restrict historical and purely theoretical issues, as well as excessive references to cases and other literature.

Introduction to the Law of Property Oxford University Press
This text's emphasis is upon understanding law and legal structures in social, economic and political life. This new edition takes stock of the rapid development of both law and legal institutions since the fourth edition was published in 1993.

Introduction to Business

Law + Mindtap Business Law, 1 Term 6 Months Access Card Routledge
This book offers an interdisciplinary experiential study of environmental law unlike the typical environmental law textbook. Expanding beyond case studies, statutes, and rules, this book provides a unique, process-oriented introduction to law and legal research and its use in environmental policy and decision-making.

Introduction to Business Law + Mindtap Business Law, 1 Term 6 Months Access Card Cambridge University Press
Commercial Law provides a clear, concise and accessible introduction to the fundamental concepts of commercial law. It describes and explains both the traditional areas of commercial law and other discrete areas of law that are now essential to successful modern commercial practice. Divided in two, Part I deals exclusively with the foundations of personal property and is written clearly to give a solid understanding of these important principles. Part II presents those concepts fundamental to commercial law, important applications of those concepts and other

discrete areas of law relevant to modern commerce. The straightforward explanations make this an ideal text for students and the up-to-date, practical analysis makes it a valuable reference for any practitioner. Features *

Succinct accessible coverage of core principles * Develops sound understanding of commercial law principles * Expanded treatment of personal property * Suits a one semester unit

[Einführung in das deutsche Recht](#)
Introduction to Law
It is thirteen years since the appearance of the successful second edition of this convenient English-language introduction to the law of Germany. This new edition covers all the significant changes and innovations that have occurred during that period, encompassing the pervasive impacts of European Union law and of globalization, as well as the greatly increased activity of the German

legislature in every area addressed in this volume. With fifteen lucid chapters written by academic experts in their respective fields of law, as well as detailed bibliographies, this is the ideal starting point for research whenever a question of German law must be answered. The authors clearly explain the legal concepts, customs, and rules arising from such basic elements as the following: - characteristic problems of German legal unity; - principles and practices of constitutional law; - administrative law and procedure; - the German Commercial Code; - formation and conduct of corporations and partnerships; - contracts; - tort liability; - property rights; - family law; - succession and inheritance; - labor and employment; - issues of private international law; - courts and civil procedure; - the penal code and criminal procedure. Introduction to German Law, Third Edition provides an authoritative description of all issues likely to emerge in the course of normal application of German law in any context.

Guide to Business Law
Eleven International Publishing

For courses in Criminal Law. Bringing criminal law to life. Criminal Law Today, 6/e, brings criminal law to life by relating it to real stories from today's headlines. The text's approach is strongly influenced by the belief that the law has always been, and remains, a vital policy-making tool. As a topic for study and discussion, the nature and life of the law is more important today than ever before. The text highlights the challenges that face the law as it continues to adapt to the needs of a complex and rapidly changing society and features a balanced text/casebook approach that provides a lively introduction to criminal law. Effective in-text learning tools give students the resources they need to master the material presented in the text. To give your students the most accurate picture of criminal law today, the material on law and crime is updated throughout the Sixth Edition. New cases and stories drawn from recent real-life events are included to draw readers into the material and help them contextualize how theory translates into practice. Criminal Law Today, 6/e, is also

available via REVEL(TM), an interactive learning environment that enables students to read, practice, and study in one continuous experience. Learn more.

Textbook on International Law

Kluwer Law International
This second edition of Tort Law textbook provides a clear, accessible, and up-to-date introduction to all areas of tort law found in introductory law classes. The text has been extensively revised and re-structured to create an independent textbook resource. End-of-chapter questions, assessment exercises, and chapter summaries, as well as summaries of the key cases referred to throughout the text enable students to test their knowledge and check their understanding of tort law. A companion web site is an additional source of information for students, containing further cases as well as the answers to the end of chapter questions.

Introduction to Business Law Psychology Press
This textbook has established itself as the leading text on computer law for non-specialist students studying the course as part of a business information

technology, computing or engineering course.

[Introduction to Family Law](#)
Kluwer Law International
B.V.

This is a well established reference for tertiary students studying the law of contract. Written for the general reader it is very easy to follow and comprehend and covers all aspects of contract law at an introductory level. More than five years have passed since the fifth edition of this book was published in 2012. The most important development that has occurred during this period is the enactment of the Contract and Commercial Law Act 2017 which repealed and consolidated 11 pieces of legislation into one Act. Along with substantial revisions to incorporate the new legislation, comparative tables mapping sections from

the old legislation to the new and vice versa, and numerous case law summaries and examples of their application the new edition includes sample questions for users to consider at the end of each chapter. An Introduction to the Law of Contract, 6th edition continues to be a valuable resource for all students undertaking contract law at undergraduate level and is, especially, essential reading for accounting, business and commerce students. It is also a practical, straightforward guide for businesses and legal practitioners who need to find an answer quickly and simply.

Maritime Law

Northwestern University
Press

The sixth edition of Guide to Business Law offers a clear and practical introduction to the basic

principles of commercial law. It covers a broad spectrum of subject areas within commercial law, in a concise, simple and straightforward manner. The text provides numerous examples and case illustrations, and a rich and diverse collection of teaching and learning resources, in order to support readers to understand and apply legal principles, to assess their progress, and to successfully master their learning.

Criminal Law Today, Student Value Edition

Aspen Publishing
"Maritime Law, 6th edition is an exhaustive introduction to this complex area of law. It systematically covers the principal topics and illustrates the operation of shipping law in practice. The sixth edition has been extensively revised and updated to in
