Coherence Tomography Thorlabs Optical Coherence Tomography Tutorial. Optical Coherence Tomography (OCT) is a noninvasive optical imaging modality that provides real-time, 1D depth, 2D cross-sectional, and 3D volumetric images with micron-level resolution and millimeters of imaging depth. OCT images consist of structural information from a sample based on light backscattered from different layers of material within the sample. OCT Systems Tutorial - Thorlabs provides solutions for the field of Optical Coherence Tomography (OCT) imaging on the system, subsystem, and component level. Our drive for innovation is shaping our entire rapidly expanding product line. Complete spectral-domain, swept source, and polarization-sensitive OCT systems are available that are out-of-the-box ready for biological, industrial, and research applications. OCT Imaging Systems & Components - Thorlabs dimensional optical coherence microscope using the swept source optical coherence tomography technique has been developed by Thorlabs, Inc. in Newton, NJ. The system incorporates a broadband high-speed swept laser

source, a fiber-based Michelson interferometer, and a multi-functional Optical Coherence Tomography - Thorlabs Thorlabs, in partnership with Praevium Research, is developing a High-Speed Swept Laser Source for Optical Coherence Tomography (OCT). This source is based on a patented MEMS-tunable Vertical Cavity Surface Emitting Laser (VCSEL) that is specially designed for optimal performance in OCT applications. With a record-breaking coherence length, this source provides single-mode, mode-hop-free operation over a tuning range in excess of 100 nm. Optical Coherence Tomography - Thorlabs Optical Coherence Tomography (OCT) Market Emerging Players are Canon Inc., Nikon Instruments Inc., Thorlabs, Inc., Miniprobes, HAAG-STREIT GROUP. Post author. By Data Bridge Market Research. Post date. June 9, 2020. Optical coherence tomography (OCT) market is expected to gain market growth in the forecast period of 2020 to 2027. Data Bridge Market Research analyses the market to account to USD 1.55 billion by 2027 while growing at a CAGR of 9.1% in the above-mentioned forecast period. Optical Coherence Tomography (OCT) Market
