World Radio TV  
Handbook (WRTH),  
2003 Corwin Press

The Nazi regime and  
local collaborators  
killed 800,000  
Belorussian Jews, many  
of them parents or  
relatives of young Jews  
who survived the war.

Thousands of young girls and boys were thus orphaned and struggled for survival on their own. This book is the first systematic account of young Soviet Jews' lives under conditions of Nazi occupation and genocide. These orphans' experiences and memories are rooted in the 1930s, when Soviet policies promoted and sometimes actually created interethnic solidarity and social equality. This experience of interethnic solidarity provided a powerful framework for the ways in which young Jews survived and, several decades after the war, represented their experience of violence and displacement. Through oral histories with

several survivors, video testimonies, and memoirs, Anika Walke reveals the crucial roles of age and gender in the ways young Jews survived and remembered the Nazi genocide, and shows how shared experiences of trauma facilitated community building within and beyond national groups. *Pioneers and Partisans* uncovers the repeated transformations of identity that Soviet Jewish children and adolescents experienced, from Soviet citizens in the prewar years, to a target of genocidal violence during the war, to a barely accepted national minority in the postwar Soviet Union.

Instead of robbing a bank, Dortmund tries to steal the whole building Encyclopedias are heavy, and John Dortmund is sick of carrying them. While in between jobs, the persistent heist-planner is working an encyclopedia-selling scam that's about to blow up in his face. The cops are on their way when his friend Kelp pulls up in a stolen Oldsmobile, offering a quick escape from the law and a job that's too insane to turn down. Kelp's nephew is an FBI washout who's addicted to old-time pulp novels and adventure stories. He tried being a cop, and now he wants to be a robber. His target: a Main Street bank that has temporarily

relocated to a large mobile home. Breaking in is impossible—there are seven guards and a police station down the street—but mobile homes were meant to be driven. Dortmund just has to drive the bank away.

The aim of the series is to present new and important developments in pure and applied mathematics. Well established in the community over two decades, it offers a large library of mathematics including several important classics. The volumes supply thorough and detailed expositions of the methods and ideas essential to the topics in question. In addition, they convey their relationships to other

parts of mathematics. The series is addressed to advanced readers wishing to thoroughly study the topic.

With an expected growth rate of around 6 per cent rural tourism is developing faster than the overall growth rate for international tourism arrivals. Due to its special importance for the European region, three seminars were held in Belgrade (Serbia), Kielce (Poland) and Yaremcha (Ukraine) to focus on three major issues: to contribute to a better understanding of rural tourism and to offer additional tools for planning and execution of initiatives; to

enhance the importance of rural tourism in the agendas of governments and international organizations; to generate political and financial support for the development of rural tourism. (WTO) *Waiting for the Esquimo* World Bank Publications

A study of the different roles which nouns play in the event or state expressed by the verb or adjective with which they are associated. The book explores within the framework of transformational-generative grammar the 'localist hypothesis', which asserts that all the roles for nouns involve basically the notions of location and direction. **Muḥākamat Al-lughatain** Walter de Gruyter

Using a recent IMF survey and expanding on previous studies, we document the use of macroprudential policies for 119 countries over the 2000-13 period, covering many instruments. Emerging economies use macroprudential policies most frequently, especially foreign exchange related ones, while advanced countries use borrower-based policies more. Usage is generally associated with lower growth in credit, notably in household credit.

Effects are less in financially more developed and open economies, however, and usage comes with greater cross-border borrowing, suggesting some avoidance. And while macroprudential policies can help manage financial cycles, they work less well in busts.

This book suggests that the study of 'youth' lifestyles is potentially more enlightening than traditional 'structural' or 'cultural' approaches. In a society in which young people's transitions into adulthood are increasingly uncertain, processes of individualization are central to young people's experience of social change. This

clear introduction to a complex field considers key aspects of young people's lifestyles, such as their relationship to rave, the media, and consumption in general, as a means of constructing identities in a rapidly changing world.
