### **The Identity Dilemma** No Starch Press

This unique, re-engineered book defines and describes the new "paradigm" brought on by recent dramatic changes in the field of management. *Managing Today!* redefines the traditional "functional" approach employed by previous management books to more accurately reflect recent, fundamental changes in the economy and workplace—changes that have significantly reshaped today's managers' jobs. Robbins' balanced approach presents an effective integration of theory and application displayed within a clear, visual design specifically tailored for today's readers. Coverage includes changing issues in today's workplace (risk, privatization, multiple skills, and continual retraining); culture shock; time-management skills; cycle-time reduction and technology transfer; virtual teams; human behavior; leadership; trust building; change management; and more. For human resources professionals, business managers/team leaders, and anyone interested in Organizational Behavior and Business Management.

Every day, in every facet of our lives, opportunities to lead call out to us. At work and at home, in our local communities and in the global village, the chance to make a difference beckons. Yet often, we hesitate. For all its passion and promise, for all its excitement and rewards, leading is risky, dangerous work. Why? Because real leadership—the kind that surfaces conflict, challenges long-held beliefs, and demands new ways of doing things—causes

pain. And when people feel threatened, they take aim at the person pushing for change. As a result, leaders often get hurt both personally and professionally. In *Leadership on the Line*, renowned leadership authorities Ronald A. Heifetz and Marty Linsky marshal a half century of combined teaching and consulting experience to show that it is possible to put ourselves on the line, respond effectively to the risks, and live to celebrate our efforts. With compelling examples including the presidents of countries and the presidents of organizations, everyday managers and prominent activists, politicians and parents, the authors illustrate proven strategies for surviving and thriving amidst the dangers of leading: "Getting on the balcony": stepping back to get perspective while remaining fiercely engaged "Thinking politically": keeping the opposition close, but watching your allies, too "Orchestrating the conflict": using stress productively to work the issues "Giving the work back": putting the responsibility on those who need to make the change "Holding steady": maintaining your focus while taking the heat The authors also address often-neglected aspects of leadership, such as how to manage your personal vulnerabilities, and how to anchor yourself and sustain your spirit through tough times. Both uplifting and practical, this essential book enables each of us to lead courageously and confidently—without losing ourselves. AUTHOR BIO: Ronald A. Heifetz and Marty Linsky are on the faculty at the John F. Kennedy School of Government at Harvard University. Heifetz is the author of *Leadership Without Easy Answers* and Co-director of the school's Center for Public Leadership. Linsky is Faculty Chair of many of the school's executive programs, including Senior Officials in State and Local Government and Leadership for the 21st Century. *Social Cognition and Communication* Cengage Learning For many women, the Proverbs 31 woman is too perfect. But in reality, she is an ordinary woman who made herself available to an extraordinary God—and became a tremendous blessing to everyone around her. *Discovering the Treasures of a Godly Woman* reveals how women can let God work through them by... discerning the true priorities in life cultivating character qualities valued by family and friends pursuing excellence in all they do It is possible for a woman to make the treasures of the Proverbs 31

woman real in her life—and become the woman God designed her to be!

*Fundamentals of Organizational Behavior: An Applied Perspective, Second Edition* examines the behavior of people in organizations. Topics covered range from political maneuvering in organizations (office politics) to the stresses facing people in managerial and professional positions. A conceptual framework for organizational behavior is presented, along with numerous case illustrations and examples from live organizational settings. This monograph consists of 14 chapters and opens with an introduction to organizational behavior and how it is influenced by principles of human behavior. The three main subareas or schools of management thought are discussed, together with the difference between knowledge work and non-knowledge work; how research and theory contribute to an understanding of organizational behavior; and the distinction between structure and process. The following chapters explore how the meaning of work relates to work motivation, as well as the link between work motivation and job performance; behavioral aspects of decision making; stresses in managerial and professional life; and political maneuvering in organizations. Small group behavior, leadership styles, and interpersonal communications are also considered, along with intergroup conflict and organizational effectiveness. Collective identities are politically necessary, or at least useful, as banners for recruiting others and engaging opponents and the state. However, not every member fits or accepts the label in the same way or to the same degree. The Identity Dilemma provides eight diverse case studies of social movements to show the benefits, risks, and tradeoffs when a group develops a strong

sense of collective identity. The editors and contributors to this pathbreaking volume examine how collective identities can provide powerful advantages but also generate conflicts. The various chapters help to develop our understanding of collective identity from how strategic identities are developed for protest groups to how stigmatized groups negotiate identity dilemmas. Ultimately, The Identity Dilemma contributes a new strategic

approach to understanding social movements that highlights the choices and tensions that groups inevitably face in articulating their ideas and interests. Contributors include: Marian Barnes, Cristina Flesher Fominaya, Umut Korkut, Elzbieta Korolczuk, John Nagle, Clare Saunders, Neil Stammers, Marisa Tramontano, Huub Van Baar, and the editors.
