#### *Pad Book HowExpert*

This book introduces music education majors to basic instrumental pedagogy for the instruments and ensembles most commonly found in the elementary and secondary curricula. This text focuses on the core competencies required for teacher certification in instrumental music. The first section of the book focuses on essential issues for a successful instrumental program: objectives, assessment and evaluation, motivation, administrative tasks, and recruiting and scheduling (including block scheduling). The second section devotes a chapter to each wind instrument plus percussion and strings, and includes troubleshooting checklists for each instrument. The third section focuses on rehearsal techniques from the first day through high school.

### Habits of a Successful Band Director

Rubank Intermediate Method: Saxophone

According to Larry Teal, the best method of learning to play the saxophone is to study with a competent teacher. Teal's studies were mostly of instruments other than the saxophone, but as a student at a Chautauqua summer session, he came under the influence of Georges Barrère, the eminent French flutist. He played bass clarinet with the Detroit Symphony, but he continued to be absorbed by the saxophone. As a result of his acquired expertise and growing reputation, he was appointed to a full-time faculty position as a saxophone teacher by the University of Michigan -- the first ever to receive such an appointment from a major university. During his 21-year tenure, he attracted students from all over, thus exerting an ever widening influence on saxophone teaching and

performing.
