Britain and the Ocean Road Bloomsbury Publishing

This remarkable work is a comprehensive historiographical and bibliographical survey of the most important scholarly and printed materials about the naval and maritime history of England and Great Britain from the earliest times to 1815. More than 4,000 popular, standard and official histories, important articles in journals and periodicals, anthologies, conference, symposium and seminar papers, guides, documents and doctoral theses are covered so that the emphasis is the broadest possible. But the work is far, far more than a listing. The works are all evaluated, assessed and analysed and then integrated into an historical narrative that makes the book a hugely useful reference work for student, scholar, and enthusiast alike. It is divided into twenty-one chapters which cover resource centres, significant naval writers, pre-eminent and general histories, the chronological periods from Julius Caesar through the Vikings, Tudors and Stuarts to Nelson and Bligh, major naval personalities, warships, piracy, strategy and tactics, exploration, discovery and navigation, archaeology and even naval fiction. Quite simply, no-one with an interest and enthusiasm for naval history can afford to be without this book at their side.

Winner of the 2007 B.C. Award for Canadian Non-fiction A Globe and Mail Best 100 Book (2006)

National Post Best Books (2006) A bold cultural portrait of contemporary Canada through the work of its most celebrated novelists, short story writers, and storytellers. Stories are the surest way to know a place, and at a time when the fabric of the country seems daily more uncertain, Noah Richler looks to our authors for evidence of the true nature of Canada. He argues why fiction matters and seeks to discover — in the extra-ordinary diversity of communities these writers represent — what stories, if any, bind us as a nation. Over two years, Richler has criss-crossed the country and interviewed close

to one hundred authors — a who's who of Canadian literature, including Wayne Johnston, Michael Crummey, Alistair MacLeod, Gil Courtemanche, Jane Urquhart, Joseph Boyden, Miriam Toews, Yann Martel, Fred Stenson, Douglas Coupland, and Rohinton Mistry — about the places and ideas that are most meaningful to their work. The result is a journey through the reality of Canada and its imagination at a critical point in the country's evolution. Within thematic chapters he exposes our "Myths of Disappointment" and considers the stories of our native peoples, the rise of the city, and how our history as a colony shapes our society and politics even today. This Is My Country, What's Yours? is an impassioned literary travelogue and a vivid portrayal of our society, the work of Canadian authors, and the idea of writing itself. This Is My Country, What's Yours? is based on Noah Richler's ten-part documentary of the same name originally broadcast on CBC Radio's flagship Ideas program in spring 2005.

This illuminating account of ideas of world order prevalent in the Elizabethan Age and later is an indispensable companion for readers of the great writers of the sixteenth and seventeenth centuries Shakespeare and the Elizabethan dramatists, Donne and Milton, among many others. The basic medieval idea of an ordered Chain of Being is studied by Tillyard in the process of its various transformations by the dynamic spirit of the Renaissance. Among his topics are: Angels; the Stars and Fortune; the Analogy between Macrocosm and Microcosm; the Four Elements; the Four Humors; Sympathies; Correspondences; and the Cosmic Dance ideas and symbols that inspired the

imaginings not only of the Elizabethans, but also of the Renaissance as such. This idea of cosmic order was one of the genuine ruling ideas of the Elizabethan Age, and perhaps the most characteristic. Such ideas, like our everyday manners, are the least disputed and the least paraded in the creative literature of the time. The province of this book is some of the notions about the world and man that were quite frequently taken for granted by the ordinary educated Elizabethan; the commonplaces too familiar for the poets to make detailed use of, except in explicitly educational passages, but essential as basic assumptions and invaluable at moments of high passion. The objective of *The Elizabethan World Picture* is to extract and explain the most ordinary beliefs about the constitution of the world as pictured in the Elizabethan Age and through this exposition to help the ordinary reader to understand and to enjoy the great writers of the age. In attempting this, Tillyard has brought together a number of pieces of elementary lore. This classic text is a convenient factual aid to extant interpretations of some of Spenser, Donne, or Milton.

The first-ever Valentine Card was written from the Tower, where in 1415 the recently imprisoned Duke of Orleans composed a love poem to his wife. The measurement of one foot comes from the length of the foot of St. Algar's statue, carved on the base of one of the columns near the entrance of St. Paul's Cathedral. The design for the traditional wedding cake is drawn from the steeple of St. Bride's church in Fleet Street.

Stolen History Routledge

This book comprises a selection of interdisciplinary essays in American literature and culture written by Clive Bush over some forty years. They fall into four sections: Classic American Literature; Literary and Cultural Modernism; Literature and Politics; and American Cultural Studies. The topics range from literature to architecture, from the history of linguistics to analyses of the commodity culture, from poetry to film. The essays themselves extend from American linguistics to Beat literature. There is, however, an identifiable series of common themes and perspectives throughout.

The first is the question of the relation of discourse itself to the practices of power: personal, social and political. The second is the attention paid to the particular and general historical context in which both texts and quasi-texts are situated. The third is that a European perspective, making use of comparative texts, has been used throughout. The author demonstrates a commitment both to close reading and to the value judgement in the reading of texts.

Great Englishmen of the Sixteenth Century: Philip Sidney, Thomas More, Walter Raleigh, Edmund Spenser, Francis Bacon and William Shakespeare The Elizabethan World Picture

Britain and the Ocean Road uses new firsthand research and unconventional interpretations to take a fresh look at British maritime history in the age of sail. The human stories of eight shipwrecks serve as waypoints on the voyage, as the book explores how and why Britain became a global sea power. Each chapter has people at its heart – sailors, seafaring families, passengers, merchants, pirates, explorers, and many others. The narrative encompasses an extraordinary range of people, ships and events, such as a bloody maritime civil war in the 13th century, a 17th-century American teenager who stepped from one ship to another - and into a life of piracy, a British warship that fought at Trafalgar (on the French side), and the floating hell of a Liverpool slave-ship, sunk in the year before the slave trade was abolished. The book is full of surprising details and scenes, including

England's rudest and crudest streetname, what it was like to be a passenger in a medieval ship (take a guess), how a fragment of the English theatre reached the Far East during Shakespeare's lifetime, who forgave who after a deadly pirate duel, why there were fancy dress parties in the Arctic, and where you could get the best herring. Britain and the Ocean Road is the first of two works aimed at introducing a general audience to the gripping (and at times horrifying) story of Britain, its people and the sea. The books will also interest historians and archaeologists, as they are based on original scholarship. The second book, Black Oil on the Waters, will take the story from the age of steam to the 21st century.
