Peter Zumthor 1985-2013 Scheidegger Und Spiess Ag Verlag

One of the most influential contemporary architects, Peter Zumthor has approached his work with a singular clarity of vision and a strong sense of his own philosophy. His buildings rank among the world's most stunning: St. Benedict's Chapel in Sumvitg, Switzerland, Kunsthaus Bregenz in Bregenz, Austria, and the Kolumba Art Museum in Cologne, Germany number among his most famous buildings. This collection explores his entire body of work from 1986 to 2012 in five volumes.

*Peter Zumthor, 1985-2013: 1990-1997* National Geographic Books

Peter Zumthor, 2009 Pritzker laureate, is one of the best known architects of the present day.

Widely admired for his precision and thoroughness, he creates buildings that are responsive to their location and function, and that are remarkable both for their materials and the atmospheric quality of the spaces they enclose. This five-volume overview of his work to date presents forty-three buildings and projects, including some that have never been published before. On 856 pages with over 750 photographs, plans, sketches, drawings and watercolors, and with texts written by Peter Zumthor himself specially for this monograph, it documents a wide range of projects from several world-famous buildings to some that never left the drawing board. With photographs by Hélène Binet, Hans Danuser, Ralph Feiner, Thomas Flechtner, Walter Mair, Joël Tettamanti, and others.

Choosing to only take on a few projects at a time and keep his studio small, Zumthor has produced a comparatively small number of realized buildings, but they rank among the world's most stunning: St. Benedict's Chapel in Sumvitg, Switzerland; Therme Vals in Vals, Switzerland; Kunsthaus Bregenz in Bregenz, Austria; and the Kolumba Art Museum in Cologne, Germany, number among his most famous designs. This collection, however, explores his entire body of award-winning work from 1985 to 2013 in five volumes, including his lesser-known but nonetheless critically acclaimed works, such as the Field Chapel for Brother Klaus near Mechernich, Germany, and the Steilneset Memorial to the Victims of the Witch Trials in Vardø, Norway. Architektur, die in einer sinnlichen Verbindung zum Leben stehen soll, erfordert ein Denken, das über Form und Konstruktion weit hinausgeht. In dem Buch bringt Peter Zumthor zum Ausdruck, was ihn zu seinen Gebäuden motiviert. Die 3. Auflage wurde um zwei neue Essays ergänzt: „Architektur und Landschaft“ beschäftigt sich mit dem Geheimnis der gelungenen topografischen Einbindung von Architektur. In „Die Leiserhäuser“ thematisiert Peter Zumthor die Herausforderung, zeitgenössische Architektur in einen traditionellen baulichen Kontext zu integrieren.

Memorial for the Victims of the Witch Trials in Vardø, Norway. Peter Zumthor presents around forty of his projects, both realized and unrealized, through Zumthor's own writing, and with photographs, sketches, drawings, and plans. A complete catalog of his works starting in 1979 rounds out the book. Richly illustrated and beautifully designed, this book serves as both an introduction to Zumthor's work and philosophy for the layperson and a required addition to any architect's library.

#### 1990-1997

A major survey of contemporary Swiss architecture showcasing the nation's advanced engineering, superlative craftsmanship, and stunning natural scenery. With its Alpine peaks, crystalline lakes, and efficient cities, Switzerland has quietly become a center for sophisticated late modern architecture. Architect Peter Zumthor, a former cabinetmaker, and the firm Herzog & de Meuron produced a series of buildings at home and abroad that has paved the way for a younger generation of architects who fuse the country's traditional materials with high-tech new tools and innovative

construction methods. This book goes beyond the standard project-based survey, documenting the most important buildings of the last decade through architectural photographs that highlight the detail, volumetric play, and material experimentation of the buildings and portray them in the unique environments in which they have been designed and built. Because of their isolated locations, many of these buildings have rarely been seen before, despite having been designed by some of architecture's leading lights. The first section presents a photographic portfolio of projects. The second section describes each of the featured buildings in concise texts and architectural illustrations.

#### **Peter Zumthor 1985-2013**

Peter Zumthor is possibly the most innovative European architect working today. His projects inspire enthusiasm with their exactitude, their poetry, and their radically independent aesthetics and vocabulary of form.
