*Toward the Meeting of the Waters* represents a watershed moment in civil rights history—bringing together voices of leading historians alongside recollections from central participants to provide the first comprehensive history of the civil rights movement as experienced by black and white South Carolinians. Edited by Winfred B. Moore Jr. and Orville Vernon Burton, this work originated with a highly publicized landmark conference on civil rights held at the Citadel in Charleston. The volume opens with an assessment of the transition of South Carolina leaders from defiance to moderate enforcement of federally mandated integration and

includes commentary by former governor and U.S. senator Ernest F. Hollings and former governor John C. West. Subsequent chapters recall defining moments of white-on-black violence and aggression to set the context for understanding the efforts of reformers such as Levi G. Byrd and Septima Poinsette Clark and for interpreting key episodes of white resistance. Emerging from these essays is arresting evidence that, although South Carolina did not experience as much violence as many other southern states, the civil rights movement here was more fiercely embattled than previously acknowledged. The section of retrospectives serves as an oral history of the era as it was experienced by a mixture of locally and nationally

recognized participants, including historians such as John Hope Franklin and Tony Badger as well as civil rights activists Joseph A. De Laine Jr., Beatrice Brown Rivers, Charles McDew, Constance Curry, Matthew J. Perry Jr., Harvey B. Gantt, and Cleveland Sellers Jr. The volume concludes with essays by historians Gavin Wright, Dan Carter, and Charles Joyner, who bring this story to the present day and examine the legacy of the civil rights movement in South Carolina from a modern perspective. *Toward the Meeting of the Waters* also includes thirty-seven photographs from the period, most of them by Cecil Williams and many published here for the first time.

Arrested as a Freedom Rider in June of 1961, Carol Ruth Silver, a twenty-two-year-old recent college graduate originally from Massachusetts, spent the next forty days in Mississippi jail cells, including the Maximum Security Unit at the infamous Parchman Prison Farm. She chronicled the events and her experiences on hidden scraps of paper which amazingly she was able to smuggle out. These raw written scraps she fashioned into a manuscript, which has waited, unread for more than fifty years. *Freedom Rider Diary* is that account. Freedom Riders were civil rights activists who rode interstate buses into the segregated southern United States in 1961 to test the US Supreme Court rulings outlawing segregation in interstate bus and terminal facilities.

Brutality and arrests inflicted on the Riders called national attention to the disregard for federal law and the local violence used to enforce segregation. Police arrested Riders for trespassing, unlawful assembly, and violating state and local Jim Crow laws, along with other alleged offenses, but they often allowed white mobs to attack the Riders without arrest or intervention. This book offers a heretofore unavailable detailed diary from a woman Freedom Rider along with an introduction by historian Raymond Arsenault, author of the definitive history of the Freedom Rides. In a personal essay detailing her life before and after the Freedom Rides, Silver explores what led her to join the movement and explains how, galvanized by her actions and those of her compatriots in 1961,

she spent her life and career fighting for civil rights. Framing essays and personal and historical photographs make the diary an ideal book for the general public, scholars, and students of the movement that changed America. Do White people bear moral responsibility for racial disparities? Are White Christians under a spiritual mandate to make racial equity a priority? Clifford Williams taught philosophy at Christian colleges for many years, including a course on race. He has journeyed alongside students as they gained insights about racism. In this book, he draws from deeply personal stories as he shows the need for White Christians to recognize the impact of racism and to cultivate key character traits which enable them to pursue racial equity. In succinct and thoughtful prose,

interwoven with first-person accounts of racialized experiences by people of color, Williams describes the importance of the Golden Rule, the power and effects of racial socialization, and the harm racism does to those who harbor it. He asks the haunting question, "Why do White people react so strongly to Black power?" He explains why widespread church integration in the United States may never exist. He unpacks the concept of White identity and links police brutality to faulty moral perception. This book gently explains what White Christians need to do to make racial equity a priority.

An authoritative and thought-provoking argument for offering free college in prisons—from the former dean of the Harvard Graduate School of Education. Anthony Cardenas was a stickup artist in the Bronx before spending seventeen years in prison. Today he is a senior manager at a recycling plant in Westchester, New York. He attributes his ability to turn his life around to the college degree he earned in prison. Many college-in-prison graduates achieve similar success and the positive ripple effects for their families and communities, and for the country as a whole, are dramatic. College-in-prison

programs have been shown to greatly reduce recidivism. They increase post-prison employment, allowing the formerly incarcerated to better support their families and to reintegrate successfully into their communities. College programs also decrease violence within prisons, improving conditions for both correction officers and the incarcerated. *Liberating Minds* eloquently makes the case for these benefits and also illustrates them through the stories of formerly incarcerated college students. As the country confronts its legacy of over-incarceration, college-in-prison provides a corrective on the path back to a more democratic and humane society. “Lagemann includes intensive research, but her most powerful supporting

evidence comes from the anecdotes of former prisoners who have become published poets, social workers, and nonprofit leaders.”—Publishers Weekly

"Niven explores how the Freedom Rides set a pattern for JFK's reaction to the civil rights movement, and how the president tried to make a half-hearted stand for civil rights while shoring up his support among segregationist white southern Democrats.

Preserving the legacy of one of the twentieth century's most influential advocates for peace and justice, *The Papers of Martin Luther King, Jr.*, is described by one historian as being the "equivalent to a conversation" with King.

To Save the Soul of America, the seventh volume of the anticipated fourteen-volume edition, provides an unprecedented glimpse into King's early relationship with President John F. Kennedy and his efforts to remain relevant in a protest movement growing increasingly massive and militant. Following Kennedy's inauguration in January 1961, King's high expectations for the new administration gave way to disappointment as the president hesitated to commit to comprehensive civil rights legislation. As the initial Freedom Ride catapulted King into the national spotlight in May, tensions with student activists affiliated with the Student Nonviolent Coordinating Committee (SNCC) were exacerbated after King refused to participate in

subsequent freedom rides. These tensions became more evident after King accepted an invitation in December 1961 to help the SNCC-supported Albany Movement in southwest Georgia. King's arrests in Albany prompted widespread national press coverage for the protests there, but he left with minimal tangible gains. During 1962 King worked diligently to improve the effectiveness of the Southern Christian Leadership Conference (SCLC) by hiring new staff and initiating grassroots outreach. King also increased his influence by undertaking an overcrowded schedule of appearances, teaching a course at Morehouse College, and participating in an additional round of protests in Albany during July 1962. As King confronted these difficult challenges, he learned

valuable lessons that would later impact his efforts to desegregate Birmingham, Alabama, in 1963.

Through a collection and analysis of carefully selected readings, *Rethinking Debatable Moments in the Civil Rights Movement: Learning for the Present* Moment highlights particular issues, tensions, and dynamics within the Civil Rights Movement. The text asks pointed questions regarding debatable moments of the Civil Rights Movement in order to encourage critical study, stimulate thinking about possible consequences then and now, seek answers or refine the questions, and seek direction for the present moment. The readings are

organized in chapters according to the debatable moments: 1) Should the NAACP have pursued the case of Claudette Colvin in combating bus segregation in Montgomery?; 2) Should Dr. Martin Luther King, Jr., have joined the Freedom Riders when invited to do so in 1961?; 3) Should children have been allowed to participate in the Birmingham Campaign protests in 1963?; 4) Should SNCC's John Lewis have agreed to amend his speech in the 1963 March on Washington?; and 5) Should Dr. Martin Luther King, Jr., have turned the marchers around at the Edmund Pettus Bridge in Selma after Bloody Sunday? General and chapter introductions and an epilogue explore the context, the key players, the issues, the nature of the crisis, and the

consequences and implications of each debatable moment. *Rethinking Debatable Moments in the Civil Rights Movement* is an excellent supplementary text for courses in anthropology, sociology, black studies, and related social science disciplines. David Julian Hodges is a professor of anthropology at Hunter College of the City University of New York. He received his Ph.D. from New York University and has done postdoctoral study at Harvard and Oxford Universities. Neil Douglas is a consultant, independent researcher, and principal of the Oxford Consulting Group in Houston, Texas. His work with universities, hospitals, global companies, and technology companies is focused on aligning culture, strategy, and behavior with purpose and reality. Terry Wykowski

Discover the true story of the woman Dr. Martin Luther King Jr. nicknamed "Red" because of her fiery spirit! Mary Hamilton grew up knowing right from wrong. In an Alabama court, a white prosecutor called her by her first name, but she refused to answer unless he called her “Miss Hamilton.” The judge charged her with contempt of court, but that wasn’t the end of it.  Prisons impose tremendous costs, yet  
 they're easily ignored. Criminals -- even  
 low-level nonviolent offenders -- enter  
 our dysfunctional criminal justice system  
 and disappear into a morass that's safely  
 hidden from public view. Our "tough on  
 crime" political rhetoric offers us no way  
 out, and prison reformers are too quickly  
 dismissed as soft on criminals.  
 Meanwhile, the taxpayer picks up the  
 extraordinary and unnecessary bill. In  
 Defense of Flogging presents a solution  
 both radical and simple: give criminals a  
 choice between incarceration and the  
 lash. Flogging is punishment: quick,

cheap, and honest. Noted criminologist  
 Peter Moskos, in irrefutable style, shows  
 the logic of the new system while  
 highlighting flaws in the status quo.  
 Flogging may be cruel, but In Defense of

 broken prison system, it is the lesser of  
 two evils.
