Problems Incomplete

Dominance GENETICS PRACTICE 2:

BEYOND THE BASICS Solve these

genetics problems. Be sure to complete
the Punnett square to show how you
derived your solution. INCOMPLETE

DOMINANCE 1. In radishes, the gene that
controls color exhibits incomplete
dominance. Pure-breeding red radishes

crossed with pure-breeding white
radishes make purple radishes. What are
the GENETICS PRACTICE 2: BEYOND THE
BASICS INCOMPLETE

DOMINANCE Incomplete Dominance: Defi
nition, Examples, and Practice Problems
You may already know that in the study
of genetics, dominance refers to the
relationship between alleles, which are
two forms of a gene. In a dominant
relationship between alleles, one allele
“masks” the other and influences a
specific trait. Incomplete Dominance:
Definition, Examples, and Practice
... Genetics Practice Problems Incomplete

Dominance and Codominance 1. Set up genotypic keys for the phenotypes listed in each set. Remember that the "medium" trait must always be heterozygous. a) Birds can be blue, white, or white with blue-tipped feathers. _____ b) Flowers can be white, pink, or red.

Genetics Practice Problems Incomplete Dominance and ...Practice problems that illustrate the difference between codominance and incomplete dominance. Students are given traits to determine what type of inheritance is occurring and perform genetic crosses using punnett squares.

Genetics: Codominance & Incomplete Dominance

CODOMINANT/INCOMPLETE DOMINANCE PRACTICE WORKSHEET 1.

Explain the difference between incomplete and codominance. Co-

Dominance Problems 2. In a certain fish, blue scales (BB) and red scales (bb) are codominant. When a fish has the hybrid genotype, it has a patchwork of blue and red scales. (Use the letter B)

a. What is the genotype for blue fish
...CODOMINANT/INCOMPLETE DOMINANCE PRACTICE WORKSHEET

Incomplete dominance = one allele is not completely dominant over the other (blend) heterozygous condition somewhere in between (flowers...red, white, pink)

Codominance= condition in which both alleles for a gene are expressed when present (cattle...red, white, roan coat)
