With its ancient history and symbolic black civilization and independence, Ethiopia, the land of Lucy, the mosaic of numerous and mesmerizing tribal cultures, the source of Blue Nile, the motherland of olympic gold-medalist, middle and long-distance runners, keeper of the Ark of the Covenant, is one of the most intriguing nations in the whole of Africa and it is my pleasure to tell you that your decision to visit this iconic nation will be the most life changing experiences you will have. And it is the duty of this book to provide you with crucial facts about the nation, useful tips on your journey, relevant and appropriate words and phrases necessary on the duration of your stay in Ethiopia. The book is primarily designed to those of you who want to visit Ethiopia and curious enough to learn basic Amharic language. To make it even a lot more easier and fun, the Amharic words and phrases are written in both Geez and English alphabets alongside a multitude of detailed explanations and tips on each of the words and phrases. If you have been planning to learn Amharic and Geez alphabets, this can be a great opportunity to extend on it. With its rather-deep tips, firsthand facts, practical words and phrases, this book could serve as your mini dictionary and second guide on the lifespan of your stay. This book is inspired by the assumption that a visit will not be complete if it is not supplemented by at least a basic knowledge of the language that the community you intend to visit speaks. This is actualized only when you intermingle with the local community, breath their air, speak their language, and live like one of them than being the usual tourist, which symbolizes being an outsider who jumps from site to site with

his camera on and forget to sit and talk with the local people. Tourists shouldn't be just eyes; you can visit Ethiopia, but you will only visit the land if you don't speak the language of the people. True is to visit the inner world of a community and the route to it is through their communal language. This book contains over 200 basic facts, useful tips, and crucial words and phrases that will help you develop your basic, tourist Amharic and it will equip you answer the following relevant questions. How do I ask for directions? How can I negotiate with a local shopper? How can I surprise a local beauty with my Amharic? How will I ask if really need a bathroom? How would I communicate if I felt hungry? How would I call for help in Amharic if I got stolen? How do I say "I am sick!" in Amharic? How do Ethiopians say in Amharic when they eat something tasty? And a lot more is included in the book.

Fundamental Amharic Exercise /  
 Teaching BookEthiopia, the land of vast  
 riches and cultures, is also home to  
 people who speak more than 80 different  
 languages. Amharic is the most widely &  
 commonly used language. Unlike much  
 of languages spoken in Africa, Amharic  
 has its own writing system called  
 "Feedel" making it one of the most  
 unique language in the world. My initial  
 motivation for preparing this book was  
 my daughter growing up outside of  
 Ethiopia. I wanted her to speak and write  
 Amharic to help her maintain a bond  
 with her ancestral land of Ethiopia, its  
 rich heritage and history. While doing an  
 extensive research and compiling  
 materials for this book, I found out that  
 this book will serve many like my  
 daughter. Children who are born outside  
 of Ethiopia and adoptees, growing up in  
 the diaspora; by helping them maintain  
 some degree of relationship with their  
 Ethiopian heritage. The book is also an  
 invaluable resource for non-Ethiopians  
 who possess some sort of ties to Ethiopia  
 & Ethiopians, academicians, historians,  
 researchers etc. It will help them better  
 understand the mysteries of Ethiopia,  
 Ethiopians, society and the culture;  
 whether it's through the vast array of  
 Amharic literature available or direct  
 communication with the people.The  
 teaching methodology used in the book  
 is simple and easy to understand. The  
 approach is based on the ancient way of  
 teaching the language starting from  
 "Feedel" or the Amharic characters;  
 familiarizing the student with sounds and  
 pronunciations, then grammar and  
 vocabulary along with writing and  
 penmanship. An Amharic language  
 student of can benefit greatly by starting  
 to learn Feedel at the same time he or  
 she starts to learn the language. Once  
 students master Feedel, they will

recognize all the sounds of the Amharic language. Learning grammar and vocabulary, even for speaking, will be easier and faster, with the help of written materials. This book is designed exactly to do that.
