George H. Devol was the greatest riverboat gambler in the history of the Mississippi. Born in Ohio in 1829, he ran away from home and worked as a cabin boy at age ten. At fourteen he could stack a deck of cards. Over the years, he bilked soldiers, paymasters, cotton buyers, thieves, and businessmen alike. He fought more fights than anyone, and was never beaten. This is his story. Nobody was ever bored by it.

Among the first written accounts of the concentration camps—a major literary and historical discovery. While in a Russian-administered holding camp in Katowice, Poland, in 1945, Primo Levi was asked to provide a report on living conditions in Auschwitz. Published the following year, it was subsequently forgotten and remained unknown to a wider public. Dating from the weeks and months immediately after the war, Auschwitz Report details the authors' harrowing deportation to Auschwitz, and how those who disembarked from the train were selected for work or extermination. As well as being a searing narrative of everyday life in the camp, and the organization and working of the gas chambers, it constitutes Levi's first lucid attempts to come to terms with the raw horror of events that would drive him to create some of the greatest works of twentieth-century literature and testimony. Auschwitz Report is a major literary and historical discovery.

The Supernatural Worldview is a book of Christian apologetics from an apocalyptic perspective. Many supernatural and paranormal phenomena are examined with biblical discernment and some of the usual evangelical answers are found wanting. Even so, cautiousness is encouraged and an ominous trumpet sounded in light of prophetic predictions.
