English as a Global

Language The World of Kong A Natural History of Skull Island

The official art and making of book for Godzilla: King of the Monsters. Following the global success of Godzilla

and Kong: Skull Island comes the next chapter in Warner Bros. Pictures' and Legendary Pictures' cinematic Monsterverse, an epic action adventure that pits Godzilla against some of the most popular monsters in pop culture history. The new story follows the heroic efforts of the crypto-zoological agency Monarch as its members face off against a battery of god-sized monsters, including the mighty Godzilla, who collides with Mothra, Rodan, and his ultimate nemesis, the three-

headed King Ghidorah. When these ancient super-species--thought to be mere myths--rise again, they all vie for supremacy, leaving humanity's very existence hanging in the balance. The Art of Godzilla: King of the Monsters is an in-depth behind the scenes look at the epic movie. Packed with concept art, on-set photography, and insight from key members of the production--including director Michael Dougherty--this beautiful book tells the story of how Godzilla, Mothra, Rodan,

and King Ghidorah were brought to terrifying life. *King Kong: Meet Kong and Ann* Legendary Comics Peter Jackson, Academy-Award winning director of The Lord of the Rings Trilogy, brings his sweeping cinematic vision to the iconic story of the gigantic ape-monster captured in the wild and brought back to civilization where he meets his tragic fate. True to the spirit both of the original story and the classic 1933 RKO Pictures version, Peter Jackson's eagerly-awaited film will

expand on the chapters of the tale which take place on the mysterious, isolated Skull Island – a world that time forgot, lorded over by one of the most extraordinary creatures ever to walk the earth. From fascinating frame-by-frame storyboards to glorious full-colour paintings, this book is a lavish visual tribute to the fabulous movie art which created the world of Skull Island and its fauna and brought them to vivid, stupendous life on the cinema screen. **The Art, Creatures and**

One of Vanity Fair's Great Quarantine Reads: Step into Jenny Slate's wild imagination in this "magical" (Mindy Kaling), "delicious" (Amy Sedaris), and "poignant" (John Mulaney) New York Times bestseller about love, heartbreak, and being alive -- "this book is something new and wonderful" (George Saunders). You may "know" Jenny Slate from her Netflix special, Stage Fright, as the creator of

Marcel the Shell, or as the star of "Obvious Child." But you don't really know Jenny Slate until you get bonked on the head by her absolutely singular writing style. To see the world through Jenny's eyes is to see it as though for the first time, shimmering with strangeness and possibility. As she will remind you, we live on an ancient ball that rotates around a bigger ball made up of lights and gasses that are science gasses, not farts (don't be immature). Heartbreak,

confusion, and misogyny stalk this blue-green sphere, yes, but it is also a place of wild delight and unconstrained vitality, a place where we can start living as soon as we are born, and we can be born at any time. In her dazzling, impossible-to-categorize debut, Jenny channels the pain and beauty of life in writing so fresh, so new, and so burstingly alive, we catch her vision like a fever and bring it back out into the bright day with us, where everything has changed. *King Kong Pocket Star*

 Winner of the 2021 Andrew Carnegie Medal for Excellence in Nonfiction * Finalist for the 2020 Kirkus Prize for Nonfiction * Finalist for the PEN/E.O. Wilson Literary Science Writing Award A “delving, haunted, and poetic debut” (The New York Times Book Review) about the awe-inspiring lives of whales, revealing what they can teach us about ourselves, our planet, and

our relationship with other species. When writer Rebecca Giggs encountered a humpback whale stranded on her local beachfront in Australia, she began to wonder how the lives of whales reflect the condition of our oceans. *Fathoms: The World in the Whale* is “a work of bright and careful genius” (Robert Moor, New York Times bestselling author of *On Trails*), one that blends natural history, philosophy, and science to explore: How do whales experience ecological

change? How has whale culture been both understood and changed by human technology? What can observing whales teach us about the complexity, splendor, and fragility of life on earth? In *Fathoms*, we learn about whales so rare they have never been named, whale songs that sweep across hemispheres in annual waves of popularity, and whales that have modified the chemical composition of our planet's atmosphere. We travel to Japan to board the ships that hunt whales and

delve into the deepest seas to discover how plastic pollution pervades our earth's undersea environment. With the immediacy of Rachel Carson and the lush prose of Annie Dillard, Giggs gives us a "masterly" (*The New Yorker*) exploration of the natural world even as she addresses what it means to write about nature at a time of environmental crisis. With depth and clarity, she outlines the challenges we face as we attempt to understand the perspectives of other

living beings, and our own place on an evolving planet. Evocative and inspiring, *Fathoms* "immediately earns its place in the pantheon of classics of the new golden age of environmental writing" (*Literary Hub*).

Poetry. Women's Studies.
QUEEN KONG opens with an autobiographical poem chronicling childhood through graduation from college. This not only informs the reader but also infuses subtle meaning throughout the remainder of the book's poems, which are all lyric in nature. It is this subtlety that poignantly pervades the crown section of the book: a collection of hard-hitting feminist poems that Bradley wrote in dialogue with famous feminists

across history. QUEEN KONG takes the reader by storm, just like her male counterpart took New York, except QUEEN KONG is a powerful journey for women (and men) everywhere. "Amanda J. Bradley's latest book, QUEEN KONG, is a courageous and audacious book. Starting with the long poetic sequence rooted in narrative, it is specific, heartfelt, energetic, honest, and we are drawn into the world of this poet. Throughout the rest of the book, the poet confronts

all that is broken and lost in the world. She grieves over the damage we have caused to the environment, and gives us feminist manifestoes. This is a tour de force performance that leaps from lyrical narrative to the surreal and back. It's unforgettable."--Maria Mazziotti Gillan
