HUERTA PERKINS

The Encyclopedia of Birds Lorenz Books

This comprehensive encyclopedia of the world's birds presents a fantastic visual guide to the major avian species and families, from America's tiniest insect-catchers to the giant, flightless species still living on the African plains. A 420-page directory features fully illustrated entries for hundreds of birds, as well as detailing many other related species. The activities of birds are explored in a natural history section, detailing anatomy, flight, feeding, pairing and nesting. There are also tips on birdwatching for those who want to get a closer look at these fascinating

creatures. This is an authoritative and sumptuous guide to the diversity of bird life across the globe.

The Complete Illustrated Encyclopedia of Birds of the World
Smithmark Publishers

'The Encyclopedia of Birds' covers the behaviour, diet, distribution, and evolution of every known living bird in the world, and it is illustrated throughout with colour photographs and original artwork.

Encyclopedia of Birds Prentice Hall

The Complete Encyclopedia of Birds provides insight into the immense riches of the bird world. Although the 670 species included in this book represent only a fraction of living species, this selection gives a comprehensive overview of bird systematics and distribution. The individual chapters highlight the

characteristics of each order and give examples of representative species living on different continents and oceanic regions. The geographical distribution is summarized under the heading for each species, just after the scientific and common name, which allows you to easily identify a given bird's habitat. In the text accompanying the photographs, you will find detailed information about the bird's way of life, nesting habits, migratory behavior, winter distribution, and any other unique characteristics of the species. Book jacket.

Photographic Encyclopedia of Birds Bookmart

Presents entries on bird species and families from around the world, with information on the physical characteristics, migration pattern, behavior, distribution, habitat, nest, eggs, and diet.
