When Death has a story to tell, you listen. It is 1939. Nazi Germany. The country is holding its breath. Death has never been busier, and will become busier still. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist—books. With the help of her accordion-playing foster

father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of *I Am the Messenger*, has given us one of the most enduring stories of our time. “The kind of book that can be life-changing.”

so what she

is, what if Will,
Will with the

MISSES. And
so it goes, the
whole long
way down, as
the elevator
stops on each
floor, and at
each stop

someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

The Secret Story of the Protocols of the Elders of Zion

Everyman's Library Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a

new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as

terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued. *A Novel* Penguin Thirteen witty and wacky poems pose riddles that challenge readers to "Name That Book." With a glass slipper here and a spiderweb there, Lynn Munsinger's adorable illustrations lead young readers to the solutions. From Goodnight Moon to

Madeline, children and parents alike will delight in recognizing their most cherished stories. *Jane Eyre* Vintage Considered by many to be mentally retarded, a brilliant, impatient fifth-grader with cerebral palsy discovers a technological device that will allow her to speak for the first time. The Handmaid's Tale Random House Digital, Inc. Larry Darrell is a young

American in search of the absolute. The progress of this spiritual odyssey involves him with some of Maugham's most brilliant characters - his fiancée Isabel, whose choice between love and wealth have lifelong repercussions, and Elliot Templeton, her uncle, a classic expatriate American snob. The most ambitious of Maugham's novels, this is also one in which Maugham

himself plays a considerable part as he wanders in and out of the story, to observe his characters struggling with their fates.

Beloved

Simon and Schuster
This remarkable and monumental book at last provides a comprehensive answer to the age-old riddle of whether there are only a small number of 'basic stories' in the world. Using a wealth of examples,

from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today, it shows that there are seven archetypal themes which recur throughout every kind of storytelling. But this is only the prelude to an investigation into how and why we are 'programmed' to imagine stories in these ways, and how they relate to the

inmost patterns of human psychology. Drawing on a vast array of examples, from Proust to detective stories, from the Marquis de Sade to E.T., Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years, and why so many stories have 'lost the plot' by losing touch with their underlying archetypal purpose.

Booker analyses why evolution has given us the need to tell stories and illustrates how storytelling has provided a uniquely revealing mirror to mankind's psychological development over the past 5000 years. This seminal book opens up in an entirely new way our understanding of the real purpose storytelling plays in our lives, and will be a talking point for years to come.
