Marcus, a.k.a "w1n5t0n," is only seventeen years old, but he figures he already knows how the system works—and how to work the system. Smart, fast, and wise to the ways of the networked world, he has no trouble outwitting his high school's intrusive but clumsy surveillance systems. But his whole world changes when he and his friends find themselves caught in the aftermath of a major terrorist attack on San Francisco. In the wrong place at the wrong time, Marcus and his crew are apprehended by the Department of Homeland Security and whisked away to a secret prison where they're mercilessly interrogated for days. When the DHS finally releases them, Marcus discovers that his city has become a police state where every citizen is treated like a potential terrorist. He knows that no one will believe his story, which leaves him only one option: to take down the DHS himself. At first consumed by despair and self-pity, Brian slowly learns survival skills—how to make a shelter for himself, how to hunt and fish and forage for food, how to make a fire—and even finds the courage to start over from scratch when a tornado ravages his campsite. This book takes a fresh look at programs for advanced studies for high school students in the United States, with a particular focus on the Advanced Placement and the International Baccalaureate programs, and asks how advanced studies can be significantly improved in general. It also examines two of the core issues surrounding these programs: they can have a profound impact on other components of the education system and participation in the programs has become key to admission at selective institutions of higher education. By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs, this report provides teachers, parents, curriculum developers, administrators, college science and mathematics faculty, and the educational research community with a detailed assessment that can be used to guide change within advanced study programs.

From Cannibals to Christ-Followers--A True Story In 1962, Don and Carol Richardson risked their lives to share the gospel with the Sawi people of New Guinea. Peace Child tells their unforgettable story of living among these headhunters and cannibals, who valued treachery through fattening victims with friendship before the slaughter. God gave Don and Carol the key to the Sawi hearts via a redemptive analogy from their own mythology. The "peace child" became the secret to unlocking a value system that had existed through generations. This analogy became a stepping-stone by which the gospel came into the Sawi culture and started both a spiritual and a social revolution from within. With an epilogue updating how the gospel has impacted the Sawi people, this missionary classic will inspire a new generation of readers who need to hear this remarkable story and the lessons it teaches us about communicating Christ in a meaningful way to those around us.

It's a Tuesday morning in Brooklyn---a perfect September day. Wendy is heading to school, eager to make plans with her best friend, worried about how she looks, mad at her mother for not letting her visit her father in California, impatient with her little brother and with the almost too-loving concern of her jazz musician stepfather. She's out the door to catch the bus. An hour later comes the news: A plane has crashed into the World Trade Center---her mother's office building. Through the eyes of thirteen-year-old Wendy, we gain entrance to the world rarely shown by those who documented the events of that one terrible day: a family's slow and terrible realization that Wendy's mother has died, and their struggle to go on with their lives in the face of such a crushing loss. Absent for years, Wendy's real father shows up without warning. He takes her back with him to California, where she re-invents her life: Wendy now lives more or less on her own in a one-room apartment with a TV set and not much else. Wendy's new circle now includes her father's cactus-grower girlfriend, newly reconnected with the son she gave up for adoption twenty years before; a sad and tender bookstore owner who introduces her to the voice of Anne Frank and to his autistic son; and a homeless skateboarder, on a mission to find his long-lost brother. Over the winter and spring that follow, Wendy moves between the alternately painful and reassuring memories of her mother and the revelations that come with growing to know her real father for the first time. Pulled between her old life in Brooklyn and a new one 3,000 miles away, our heroine is faced with a world where the usual rules no longer apply but eventually discovers a strength and capacity for compassion and survival that she never knew she possessed. At the core of the story is Wendy's deep connection with her little brother, back in New York, who is grieving the loss of their mother without her. This is a story about the ties of siblings, about children who lose their parents, parents who lose their children, and the unexpected ways they sometimes find one another again. Set against the backdrop of global and personal tragedy, and written in a style alternately wry and heartbreaking, *The Usual Rules* is an unexpectedly hopeful story of healing and forgiveness that will offer readers, young and old alike, a picture of how, out of the rubble, a family rebuilds its life.

For fans of Hatchet and Island of the Blue Dolphins comes Theodore Taylor's classic bestseller and Lewis Carroll Shelf Award winner, *The Cay*. Phillip is excited when the Germans invade the small island of Curaçao. War has always been a game to him, and he's eager to glimpse it firsthand—until the freighter he and his mother are traveling to the United States on is torpedoed. When Phillip comes to, he is on a small raft in the middle of the sea. Besides Stew Cat, his only companion is an old West Indian, Timothy. Phillip remembers his mother's warning about black people: "They are different, and they live differently." But by the time the castaways arrive on a small island, Phillip's head injury has made him blind and dependent on Timothy. "Mr. Taylor has provided an exciting story...The idea that all humanity would benefit from this special form of color blindness permeates the whole book...The result is a story with a high ethical purpose but no sermon."—New York Times Book Review "A taut tightly compressed story of endurance and revelation...At once barbed and tender, tense and fragile—as Timothy would say, 'outrageous good.'"—Kirkus Reviews \* "Fully realized setting...artful, unobtrusive use of dialect...the representation of a hauntingly deep love, the poignancy of which is rarely achieved in children's literature."—School Library Journal, Starred "Starkly dramatic, believable and compelling."—Saturday Review "A tense and moving experience in reading."—Publishers Weekly "Eloquently underscores the intrinsic brotherhood of man."—Booklist "This is one of the best survival stories since Robinson Crusoe."—The Washington Star · A New York Times Best Book of the Year · A School Library Journal Best Book of the Year · A Horn Book Honor Book · An American Library Association Notable Book · A Publishers Weekly Children's Book to Remember · A Child Study Association's Pick of Children's Books of the Year · Jane Addams Book Award · Lewis Carroll Shelf Award · Commonwealth Club of California: Literature Award · Southern California Council on Literature for Children and Young People Award · Woodward School Annual Book Award · Friends of the Library Award, University of California at Irvine
