My Treasured Classic
Story Collection features 6
classic stories including
Peter Pan, The Wind in the
Willows, Black Beauty,
Treasure Island, Alice in
Wonderland and The
Wizard of Oz. These
stories are accompanied

by beautiful illustrations
that will make this
collection a new story
time favourite for
everyone! There are lots
of great reasons to read
the classics of literature.
As well as knowing that
you're reading a great

book, proven by the test of time, you're also expanding your vocabulary, improving your intellect, and learning about history and what life used to be like for people just like us. Reading a classic means you're listening directly to a voice from the past, speaking straight to you and other readers today. Enjoy these classic tales and become part of a great tradition of reading and sharing stories that have entertained and captivated readers for generations!

In the Great Tradition
 Polity
 Historiography / Eldon G. Ernest -- Revivalism and millenarianism in America / Jerald C. Brauer -- The great tradition and "the coercion of voluntarism" / Edwin S. Gaustad -- Religious freedom and popular sovereignty / William G. McLoughlin -- "A nation born again" / Leonard I. Sweet -- The dilemmas of historical consciousness / Grant Wacker, Jr.
The Grandeur of God Nrdc
 Sources of Japanese Tradition is a best-selling

classic, unrivaled for its wide selection of source readings on history, society, politics, education, philosophy, and religion in the Land of the Rising Sun. In this long-awaited second edition, the editors have revised or retranslated most of the texts in the original 1958 edition, and added a great many selections not included or translated before. They have also restructured volume 1 to span the period from the early Japanese chronicles to the end of the sixteenth

century. New additions include: * readings on early and medieval Shinto and on the tea ceremony, * readings on state Buddhism and Chinese political thought influential in Japan, and * sections on women's education, medieval innovations in the uses of history, and laws and precepts of the medieval warrior houses. Together, the selections shed light on the development of Japanese civilization in its own terms, without reference to Western parallels, and will

continue to assist generations of students and lay readers in understanding Japanese culture. Simon and Schuster What if we viewed reading as not just a personal hobby or a pleasurable indulgence but a spiritual practice that deepens our faith? In *Reading for the Love of God*, award-winning author Jessica Hooten Wilson does just that--and then shows readers how to reap the spiritual benefits of reading. She argues that the simple act of reading

can help us learn to pray well, love our neighbor, be contemplative, practice humility, and disentangle ourselves from contemporary idols. Accessible and engaging, this guide outlines several ways Christian thinkers--including Augustine, Julian of Norwich, Frederick Douglass, and Dorothy L. Sayers--approached the act of reading. It also includes useful special features such as suggested reading lists, guided practices to approaching texts, and tips for meditating on

specific texts or Bible passages. By learning to read for the love of God, readers will discover not only a renewed love of reading but also a new, vital spiritual practice to deepen their walk with God.

William Shakespeare,
Hamlet Baker Books

"The world is charged with the grandeur of God."
Gerard Manley Hopkins
Wisdom from the greatest spiritual writers of the two-thousand-year Catholic tradition "The Grandeur of God" collects classic readings that give

readers a sense of the depth, beauty, and richness of Catholic spiritual writing. These selections resonate with the truth expressed famously by the great Jesuit poet Gerard Manley Hopkins, "The world is charged with the grandeur of God." They resonate with the sacramental, Catholic vision that sees God in all things. While not comprehensive or exhaustive, the book does offer readers a starting point on their journey into the vast storehouse of

Catholic writing. "The Grandeur of God" is organized chronologically, beginning with St. Paul and ending with writings from Pope John Paul II, Joseph Cardinal Bernardin, and Henri Nouwen. Also included are selections from Thomas Aquinas, Dorothy Day, Hildegard of Bingen, Ignatius Loyola, John of the Cross, Julian of Norwich, Thomas Merton, Oscar Romero, Pierre Teilhard de Chardin, Mother Teresa, and Therese of Lisieux.

The Terminal Classic in the Maya Lowlands

Loyola Press
The Terminal Classic in the Maya Lowlands revisits one of the great problems in Mayan archaeology - the apparent collapse of Classic Maya civilization from roughly A.D. 830 to 950. During this period the Maya abandoned their power centers in the southern lowlands and rather abruptly ceased the distinctive cultural practices that marked their apogee in the Classic period. Archaeological fieldwork during the past three decades, however,

has uncovered enormous regional variability in the ways the Maya experienced the shift from Classic to Postclassic society, revealing a period of cultural change more complex than acknowledged by traditional models. Featuring an impressive roster of scholars, The Terminal Classic presents the most recent data and interpretations pertaining to this perplexing period of cultural transformation in the Maya lowlands. Although the research reveals clear interregional

patterns, the contributors resist a single overarching explanation. Rather, this volume's diverse and nuanced interpretations provide a new, more properly grounded beginning for continued debate on the nature of lowland Terminal Classic Maya civilization.
Art in America Doncaster [England] : Brynmill Press ; Kingston, Ont. : Quarry Press
Following in the great tradition of storytelling, Marian Harris provides a richly enhanced retelling of two favorite classics.

Told with affection and integrity, accompanied by the illustrations of award-winning artist Jim Harris, each page captures both the drama and beauty deserving of these classics. And what could be more appropriate than reading a favorite classic before bedtime and having the warm glow of the story's wonderful characters stay with your child throughout the night? Children's Classic Night Lights are UL approved and provide a soft warm glow, just bright enough to be

comforting but not distracting. There is no need to switch on or off as they come with a 1/4-watt bulb that burns year-round for pennies.

The Failure of Theory
Andrews McMeel
Publishing

A resounding best seller in the first edition, a series of classic articles written by key sociologists that

will compliment any introductory sociology textbook. This reader serves as a foundation where students can read original works that teach the fundamentals ideas of Sociology. Priced right as a stand-alone and free when bundled with our introductory texts, this brief reader is a convenient and painless way to bring the "great thinkers" to your students.

Classic Readings of International Relations
Simon and Schuster

The story of Noah's flood

is one of the best-loved and most often retold biblical tales, the inspiration for numerous children's books and toys, novels, and even films. Whether as allusion, archetype, or literal presence--the American landscape is peppered with "recreations" of the ark--the story of Noah's animals and the ark resonates throughout American culture and the world. While most think of Noah's ark as a dramatic myth, others are consumed by the quest for geological and

archeological proof that the flood really occurred. Persistent rumors of a large vessel on the mountain of Ararat in Turkey, for instance, have led many pilgrims and explorers over the centuries to visit that fabled peak. Recent finds suggest that there may have been a catastrophic flood on the shores of the Black Sea some 7,600 years ago. Is this then the reality behind the ancient tale of Noah? More to the point, why does it matter? What does the story of the Flood mean to

us and why does it so stir the collective imagination? When the Great Abyss Opened examines the history of our attempts to understand the Flood, from medieval Jewish and Christian speculation about the physical details of the ark to contemporary efforts to link it to scientific findings. Unraveling the mythical dimensions of the parallel Mesopotamian flood stories and their deeper social and psychological significance, J. David Pleins also

considers the story's positive uses in theology and moral instruction. Noah's tale, however, has also been invoked as a means of justifying exclusion, racism, and anti-homosexual views. Pro-slavery advocates, for example, used the story of Noah's Curse on Ham's son Canaan to rationalize the enslavement of Africans. Throughout this expansive and lively book, Pleins sheds new light on our continuing attempts to understand this ancient primal myth. Noah's Flood, he contends, offers

a unique case study that illuminates the timeless and timely question of how fact and faith relate. CEA Critic Valley Forge, Pa. : Judson Press Peter Burke provides a global view of cultural history, including material from continental Europe, India, South America and elsewhere, as well as the English-speaking world. What is Cultural History? Ignatius Press Is pursuit of the American dream becoming a nightmare? Once There Were Greenfields presents the story of one of

America's most challenging social problems, sprawl development. Community downtowns are being replaced with strip malls. Farmland is giving way to parking lots. Meanwhile, inner cities are losing jobs and the tax base necessary to support public schools. This book meticulously documents the consequences of sprawling growth patterns and proposes guiding principles for a new kind of "smart" growth that combines economic progress with

environmental protection and social goals. Book jacket.

The Hispanic American Historical Review

Liverpool University Press

This book is about the theory and practice of reading and teaching literature. It examines critical theory for any insights that might be used to improve the practices of reading and teaching, and it reports the discoveries of a research project devised to investigate what secondary school students read, why they

read or do not read, and how they go about reading. The book is addressed primarily to English teachers. It aims to assist teachers to clarify their own role in teaching novels by providing a model of how pupil response develops, ideas about ways to connect teaching with pupil response, and suggestions about the kind of language appropriate for exploring and communicating response.

Canadian Review of Studies in Nationalism

Wadsworth Publishing Company

In discussions of worship, the term 'participation' covers a lot of ground. It refers not only to concrete acts in gathered liturgy, but also to some of the loftiest claims of Christian theology. In this book, Alan Rathe probes the ways in which North American evangelicals have in recent years regarded the landscape of participation. Rathe presents a broad review of evangelical worship literature through a lens borrowed from medieval

theology. This brings into surprising focus not only evangelical understandings but also evangelical identities and the historical traditions they reflect, and offers fresh perspectives on such current theological concerns as God's trinity, missio Dei, and the practical theology of participation. Offering a fresh contribution to a young but important discipline, the liturgically-informed study of evangelical worship practice, this book reconnects the

evangelical tradition to the 'Great Tradition' and in the process re-appropriates classic concepts that are full of promise for contemporary ecumenical dialogue. [Classic Readings in Sociology](#) Routledge The "Search" course--formally titled "The Search for Values in the Light of Western History and Religion" has been taught for over 50 years at Rhodes College (formerly Southwestern at Memphis). It is a two-year, 12-hour interdisciplinary course on the ideas,

beliefs, and historical developments that have shaped Western civilization over the past 5,000 years. The course grew out of developments in the humanities in the 1940s and has continued to address feminism, postmodernism, educational technology, and other new developments. Faculty members trace its evolution and explains how it has dealt with thorny issues such as the debate over the canon, teaching of values, and issues of gender and

cultural inclusiveness.
