A true Queen will always protect three things: Her King, Her throne, and Her kids. The lessons of life-KarmaIn the previous three installments, the calm before the storm taught this crew the importance of family values and sticking together. After the kid napping of GC, winning one of the biggest street wars in Miami, and going up against the Feds in a crooked drug sting; there's no other way to define this crew other than stamping them as solidified.Five years later, the anniversary of their freedom from street life... life couldn't have been any better but as they say, higher levels brought on new devils and when Santana and the crew gets a call from the past threatening the well-being of their families, all bets are off only forcing their hands to get dirty again. Now married men with children, keeping the suspicions from their trained to go wives becomes a battle within itself only making the dangers more complicated.Karma proclaimed to be the "good wife" leaving the past in the past but with Santana being her weakness... she finds herself in a compromising situation forcing her hands and her mind to relive a life that she proclaimed as dead, only discovering it was hard to let go of the past when the present was now giving it life again.The entire crew finds themselves reunited and ready for whatever. There's a saying in the book of Ecclesiastes that says: two are better than one, but a cord of three strands is not easily broken.Come take one last ride with the crew as three generations come together proving the strength of family ties. Will they finally be broken, or will they get through the year of "5"?
