 “A must-read for anyone interested in incorporating meditation into their lifestyle.”

 Heartfulness is an ideal, a spiritual way of living by and from the heart that is inclusive of all ideologies, beliefs, and religions. In this heart-centered book, a student in conversation with his teacher, Kamlesh D. Patel—affectionately known as Daaji, the fourth and current spiritual guide of the century-old Heartfulness tradition—presents a unique method of meditation

with the power to facilitate an immediate, tangible spiritual experience, irrespective of a person’s faith. Our modern, fast-paced world can be an overwhelming place. Every day, we’re bombarded with messages telling us that in order to be happy, fulfilled, and worthy, we must be better, do more, and accumulate as much material wealth as possible. Most of us move

through our busy lives with our minds full of these ideas, multitasking as we strive to navigate the responsibilities and expectations we must meet just to make it through the day. But what if there is another way? What if, rather than letting the busyness of life overtake our minds, we learn to be heartfelt instead? Based on Daaji's own combination of approaches and practices for the modern

seeker—which draws from the teachings of Sahaj Marg, meaning “Natural Path”—Heartfulness is a contemporary version of the ancient Indian practice of Raja Yoga, a tradition that enables the practitioner to realize the higher Self within. While many books describe refined states of being, The Heartfulness Way goes further, providing a pragmatic course to experience those states

for oneself, which, per the book's guiding principle, is “greater than knowledge.” Heartfulness meditation consists of four elements—relaxation, meditation, cleaning, and prayer—and illuminates the ancient, defining feature of yogic transmission (or pranahuti), the utilization of divine energy for spiritual growth and transformation. Using the method, detailed practices, tips,

and practical philosophy offered in this book, you'll reach new levels of attainment and learn to live a life more deeply connected to the values of the Heartfulness way—with acceptance, humility, compassion, empathy, and love.

"This pulsating collection picks up the beat and imagery of Patrick Rosal's thrilling debut, Uprock

Headspin Scramble and Dive. Here, though, the poet's electric narratives and portraits extend beyond the working class streets of urban New Jersey.

Modeling poems on the kundiman, a song of unrequited love sung by Filipinos for their country in times of oppression, he professes his conflicted feelings for America, while celebrating and lamenting his various heritages."-- Publisher's

Did you hate the Board exams too? Yes, that struggle was REAL! Two sixteen-year-old boys are all set to take on their board exams. Set in the lush greenery of the 1990's Assam, this walk down the nostalgic lane is replete with references to

the teenage years of any kid, tongue-in-cheek humor and laugh-out-loud moments. The narrative transports you to your own teenage years as you look back fondly reminisce on your own journey. The boys are different – average in science and maths, but with their own equations for life, spirited yet sensitive, with a thousand questions and sassy answers. Rendered through the

eyes of a young lad who couldn't be bothered by the rat race, Chasing the dreaded 33% is sure to leave you smiling and laughing your gut out with the writer's wry sense of humor! This book is a beautiful reminder that life is far more than just numbers that are ascribed to you after testing your memory against unfair standards. LIS Links The Assam Accord, which sought to end a six-year-long

agitation against illegal immigrants in Assam, was signed between members of the All Assam Students Union (AASU), and state and central governments just a few hours before Rajiv Gandhi was to deliver the Independence Day address in 1985. Immediately afterwards, the student leaders were catapulted from their hostel rooms into the corridors of power. Their party, the

Asom Gana Parishad (AGP), was voted to power the same year, with Prafulla Kumar Mahanta becoming the youngest ever chief minister of an Indian state. Key clauses of the Assam Accord remained unimplemented during Mahanta's often controversial tenures (1985-1990, 1996-2001), and through three terms of Congress rule, which ended with the BJP's victory in the state in 2016.

Central to the Accord was deportation of those who could not prove their roots in India prior to 24 March 1971. In 2015, the process of updating the National Register of Citizens (NRC) based on the 1971 cut-off of the Accord began. The first list was released in December 2017, and did not include 14 million names. Assam: The Discord looks at the making of the Assam Accord and its long shadow

on the state, through political gamesmanship between principle players, periods of ULFA and Bodo militancies, and right-wing propaganda that has split the state along communal lines.

Hindi cinema, ever since Independence, has revolved

almost entirely around issues of sex and money. This may seem odd given the conservative taste of the times. But that we do not 'see' sex does not hide just how much sex there is in the cinema. As for money, a nagging theme is the impact of money - or the lack of it - on sex. Sanjay Suri argues that Hindi cinema was an unlikely offspring of the Father of the Nation - the product of Gandhi's

celibacy and austerity. His heroic retreat from wealth and sexuality was written into the cinema and then elaborately filmed shot by shot. Suri draws on numerous examples - from Mother India to Do Bigha Zameen; Shree 420 to Pyaasa; Sahib, Bibi aur Ghulam to Guide; and Dilwale Dulhania Le Jayenge to Lage Raho Munnabhai - to show how cinema was made within

well-defined moral fences that were built with dos and don'ts about sex and money. A Gandhian Affair is a history of India through the preoccupation s of its cinema. *Struggling For Survival* Ahmedabad : Prakrit Text Society ; Delhi : available from Motilal Banarsidas Nonfiction. "Not many living artists would be sufficiently brave or inspired to attempt reflecting in art what Borges constructs in words. But the detailed, evocative etchings by Erik Desmazieres provide a perfect counterpoint to the visionary prose. Like Borges, Desmazieres has created his own universe, his own definition of the

meaning, topography and geography of the Library of Babel. Printed together, with the etchings reproduced in fine-line duotone, text and art unite to present an artist's book that belongs in the circle of Borges's sacrosanct Crimson Hexagon - "books smaller than natural books, books omnipotent, illustrated, and magical."-- BOOK JACKET.Title Summary field provided by Blackwell

North America, Inc. All Rights Reserved *Chasing 33%* Harper Collins "Tea has been one of the most popular commodities in the world. Over centuries, profits from its growth and sales funded wars and fueled colonization, and its cultivation brought about massive changes--in land use, labor systems, market practices, and social hierarchies-- the effects of which are with

us even today. A Thirst for Empire takes a vast and in-depth historical look at how men and women-- through the tea industry in Europe, Asia, North America, and Africa-- transformed global tastes and habits and in the process created our modern consumer society. As Erika Rappaport shows, between the seventeenth and twentieth centuries the boundaries of the tea

industry and the British Empire overlapped but were never identical, and she highlights the economic, political, and cultural forces that enabled the British Empire to dominate--but never entirely control--the worldwide production, trade, and consumption of tea. Rappaport delves into how Europeans adopted, appropriated, and altered Chinese tea culture to build a

widespread demand for tea in Britain and other global markets and a plantation-based economy in South Asia and Africa. Tea was among the earliest colonial industries in which merchants, planters, promoters, and retailers used imperial resources to pay for global advertising and political lobbying. The commercial model that tea inspired still exists and is vital for

understanding how politics and publicity influence the international economy ..."--Jacket.

Poems Seoul Selection USA Incorporated Combining the art of dramatic storytelling with biography, Church history, and Catholic teaching and belief, this collection of stories features saints from different eras, continents, and walks of life. Each brief story highlights a particular

aspect of or challenge in the saints life and connects it to a Gospel verse. Themes include: conversion, discipleship, bearing witness, ministering to Christ, love, suffering, union with God, living the Word, and faith. Showing how real people lived the Gospel, their stories reveal the richness of the Christian life and offer inspirational models of the faith. Along with their biographical portraits, each included saint features a prayer, a fact box, notes, lesser-known facts, and a quote from their writings. A Readers Guide contains personal reflection and group discussion questions and directs readers to relevant parts of the Bible and the Catechism of the Catholic Church. *The Tai and the Tai Kingdoms* JP Medical Ltd A Tea Reader contains a selection of stories that cover the spectrum of life. This anthology shares the ways that tea has changed lives through personal, intimate stories. Read of deep family moments, conquered heartbreak, and peace found in the face of loss. A Tea Reader includes stories from all types of tea people: people brought up in the tea tradition, those newly discovering it, classic writings from long-ago tea

lovers and those making tea a career. Together these tales create a new image of a tea drinker. They show that tea is not simply something you drink, but it also provides quiet moments for making important decisions, a catalyst for conversation, and the energy we sometimes need to operate in our lives. The stories found in A Tea Reader cover the spectrum of life, such as the

development of new friendships, beginning new careers, taking dream journeys, and essentially sharing the deep moments of life with friends and families. Whether you are a tea lover or not, here you will discover stories that speak to you and inspire you. Sit down, grab a cup, and read on. *Saints Alive! the Gospel Witnessed* NBT India This textbook aims to develop a

scientific knowledge base on spatial information technology to communicate the United Nations' Sustainable Development Goals (SDGs) among students, researchers, professionals and laymen. The book improves understanding of the spatial database and explains how to extract information from this for planning purposes. To enhance the knowledge of geoscientists and

environmentalists, the book describes the basic fundamental concepts to advance techniques for spatial data management and analysis and discusses the methodology. The Geographic Information System (GIS), remote sensing and Global Positioning System (GPS) are presented in an integrated manner for the planning of resources and infrastructure. The

management of these systems is discussed in a very lucid way to develop the reader's skills. The proper procedure for map making and spatial analysis are included along with case studies to the reader. Where the first part of the book discusses the conceptual background, the second part deals with case studies using these applications in different disciplines. The presented case studies include land

use, agriculture, flood, watershed characterizati on and infrastructure assessment for the Sustainable Development Goals.
