My Mentor, Napoleon Hill Sound Wisdom

Napoleon Hill's *The Language of Thought* is your guide to understanding, generating, and directing more powerful thoughts so that you can live and work with more intention, joy, and success. The single most powerful tool available to human beings is not money, physical strength, influence, or a network; it is the mind. Our thoughts determine our outcomes in life, as well as our ability to enjoy the journey. In order to harness our thoughts to create material success, we do not require any personal advantage such as wealth, connections, or education. We simply need to utilize the mental resources already within our possession by cultivating a thorough understanding of the workings of the mind and the manner in which thoughts may be transformed into their physical counterparts. In order to create positive change in our lives, we must learn to speak the language of thought, which has its own unique formula. This book contains Napoleon Hill's best lessons on the components that make up the language of thought, as well as easy-to-follow, modernized instructions on how to leverage these elements to generate more powerful thoughts. In particular, you will discover how to:

- Magnetize your thought impulses with desire
- Refine your thoughts with definiteness of purpose
- Control and direct your emotions to productive ends
- Support your goals with a compelling network of motives
- Create positive thought habits through concentration and repetition
- Protect your mind from negative external influences

The more you practice the principles outlined in this book, the more fluency you will gain in the language of thought. As your facility for this language develops, you will experience greater control over your thoughts and emotions, which will enable you to enjoy more success in the pursuit of your definite major purpose. There are no limitations to the mind conditioned for achievement. Are you ready to write your success story with more powerful language? "You will attract to you...the very things, or the very station in life, that you create in your thoughts." --Napoleon Hill

An Official Publication of The Napoleon Hill Foundation "Today is the first day of the rest of your life. Are you satisfied with where you are and the direction you are going? If not, take control of your life and change whatever needs to be changed. You and only you have the power to do this. You can change your world." -Napoleon Hill

Judith Williamson, Director of the Napoleon Hill World Learning Center has compiled a book that you can read, enjoy, and apply to help you accomplish what you desire in life. She has used her extensive knowledge of Napoleon Hill's writings with her experience as a professor on the principles of success to relate to the work of Hill to create a profound message for the reader. Read, study, and apply the messages on the principles that most appeal to you. But not neglect any of the principles because all are necessary if you desire to reach your maximum potential. Once you have completed the book, go back and read it again and take the suggestions and repeat them until they become a part of your being. The end result of your reading, study, and application will help you reach your desires. But, most importantly, the ultimate result will be not

what you received in the process but the person you become while on your journey to success.

Note from Author, Jim Stovall: In many ways, *Top of the Hill* is a sort of

homecoming for me. After losing my sight during my college years, I determined to be an entrepreneur, and my elderly mentor taught me using Napoleon Hill's Think and Grow Rich. He passed away while I was still in my 20s, but he made my success possible. Years later after I had become a success in business and a multimillionaire, I wrote a book about my journey. Don Green who runs the Napoleon Hill Foundation contacted me and let me know that my mentor, Lee Braxton that I had written about, had been a longtime friend of Napoleon Hill's, and Mr. Braxton actually gave the eulogy at Napoleon Hill's funeral. So through the connection of my mentor, I feel somehow also connected to Napoleon Hill.

As I listened to him, I heard something other than the words he spoke. I felt the substance—the wisdom—and the spirit of a man and his philosophy. Don't let fear hold you back from the personal and professional success you were meant to enjoy. It's time to master your fears and increase your resilience so that you can regain control of your life and achieve your vision of success. Fear is one of the greatest obstacles to your success, happiness, and fulfillment, and it is one of the most difficult to combat. It roots itself deep in the subconscious and darkens your dominating thoughts, coloring your perceptions and, in turn, your actions. But fear does not have to write your story. It is simply an emotion—one that can be mastered and channeled to work for, rather than against, you. This guidebook contains Napoleon Hill's best advice for throwing off the chains of fear, finding opportunity within temporary defeat, and living life with intention. You'll learn how to: Develop the self-confidence, faith, and willpower you need to overcome even the most challenging obstacle; Reduce your vulnerability to the negative influences of others; Conquer the seven basic fears by forming new mental habits; Filter the noise around you and de-escalate the panic of Fearenza and Worryitis; Harness the power of Cosmic Habitforce to accelerate your success; and, Implement the mastermind principle to identify new opportunities for Collaboration and innovation. "The only thing we have to fear is fear itself!" This famous line from Franklin D. Roosevelt's inaugural address is etched into the public consciousness, but few people know that its inspiration derived from one of his advisors, Napoleon Hill. Commissioned by the great steel magnate Andrew Carnegie to build a philosophy of individual achievement, Hill spent 25 years conducting research on more than 500 distinguished individuals to uncover a magic law of the

human mind that guaranteed personal and professional success. The achievement principles he discovered enabled a generation to break the bonds of fear responsible for exacerbating the ills of the Great Depression and world war and raise themselves to new levels of success—and they continue to do so today. If there was ever a time in this country when men and women need to recognize the power of their own minds, when they need to overcome frustration and fear, that time is now. There is too much fear spread around, too many people talking about depressions. ...Let's get our minds, each and every one of us as individuals, fixed upon a definite goal so big and so outstanding that we'll have no time to think about these things we don't want.—Napoleon Hill
