Encourage fourth-grade students to build their reading comprehension and word study skills using daily practice activities. Great for after school, intervention, or homework, teachers and parents can help students gain regular practice through these quick, diagnostic-based activities that are correlated to College and Career Readiness and other state

standards. Both fiction and nonfiction reading passages are provided as well as data-driven assessment tips and digital versions of the assessment analysis tools and activities. With these easy-to-use activities, fourth graders will boost their reading skills in a hurry!  
Journeys I Houghton Mifflin Spectrum(R)Grade

Specific for Grade 4 includes focused practice for reading, language arts, and math mastery. Skills include grammar and usage, parts of speech and sentence types, vocabulary acquisition and usage, multiplying and dividing, fractions and decimals, measurement conversions, classifying geometric figures, and preparing for algebra. Spectrum Grade Specific workbooks contain focused practice for language arts mastery. Each book also includes a

writer's guide. Step-by-step instructions help children with planning, drafting, revising, proofreading, and sharing writing. The math activities build the skills that children need for math achievement and success. Children in grades 1 to 6 will find lessons and exercises that help them progress through increasingly difficult subject matter. Aligned to current state standards, Spectrum is your child's path to language arts and math mastery.
