With a well-known nickname like the “Biggest Little City in the World,” you might think Reno has no secrets. But you shouldn’t bet on that. For example, What is Reno’s connection to Mount Rushmore? How can you participate in a real-life cattle drive, see a shrunken head, or sip a glass of Picon punch in the midst of poltergeists? Arm yourself instead with *Secret Reno: A Guide to the Weird, Wonderful, and Obscure*, and you’ll soon discover these and many more of the city’s secrets and lesser-known

adventures. How about a lazy day kayaking down the Truckee River? You might want to climb the world’s tallest artificial climbing wall, or take a stroll where the lynching of an innocent man occurred in 1892. But be warned—his angry ghost is said to haunt the location, occasionally harassing passersby. If you’ve donned your leathers and are all in for a bike ride, you might want to know that Reno has an annual motorcycle rally not to be missed. Local author Janice Oberding loves to find adventure off the beaten path and be your guide to unconventional, but worthwhile, exploration. All you’ll need is here in this book about the Biggest Little City’s secrets.

Eric 'Winkle' Brown, the former Chief Naval Test Pilot and Commanding Officer of the renowned Aerodynamics Flight at the Royal Aircraft Establishment, Farnborough, is listed in the Guinness Book of Records as having flown more types of aircraft than any other pilot in the world. The ground rules for this assessment were that only pilot-in-command flights should count, and that marks or variants of a basic type of aircraft were not included. This remarkable record is reflected in the fact that Captain Brown is both the most decorated Fleet Air Arm and British test pilot. The variety of aircraft he has flown is incredible, and though his test and naval flying writings are already internationally known, he now has opened up pages of his flying log books to reveal some of the more unusual types in his unique experience, and to relate their virtues or vices. From the infamous Mitsubishi Zero-Sen and U.S. Navy's piston-engine Grumman F8F-2 Bearcat to the post-war swept-wing de Havilland Swallow. From the North American Savage designed to take off

from an aircraft carrier with a nuclear bomb to the Supermarine Attacker, Eric 'Winkle' Brown has tested their qualities and takes the reader into the cockpits of those exciting aircraft to thrill to the joys and hazards of flying both weird and wonderful aircraft with one of the greatest of all pilots.

Over a period of twenty-five years I've augmented my meat-and-potatoes upbringing in the United States to try a wide variety of regional specialties, from steamed water beetles, fried grasshoppers and ants, to sparrow, bison and crocodile. I've eaten deep-fried bull's testicles in Mexico, live shrimp sushi in Hawaii, mice cooked over an open wood fire in Thailand, pig stomach soup in Singapore, minced water buffalo and yak butter tea in Nepal, stir-fried dog tongue, and "five penis wine" in China."--From the introduction by Jerry Hopkins Dive headfirst into food culture from around the world.
