This guitar book is aimed primarily at beginner guitarists so: its content has been adapted to the needs of beginners. It is practical and easy to use, easy to navigate with the help of built-in links
Convenient: it can be opened from any device, the chords and lyrics of the songs can be projected onto the screen
Why is it unique among guitar books? Here are 12 convincing arguments: 1. Short, comprehensible theoretical guide with illustrations at the

beginning 2. Tabs and chords of the 200 best-known international hits played most often at guitar parties and gatherings in one place (Vols. 1+2) 3. The songs are transposed to the easiest chords to play, making it easy to practice 4. If you use a cap, we show you where to put it for the original tone 5. The chords of the original key are also indicated 6. Chords are in the right place, right where you need to switch (no sliding) 7. You will find a pictorial illustration of each chord

in each song right next to the tab 8. The songs are grouped into 5 levels of difficulty, the level of difficulty is indicated for each song 9. We start with easy-to-play songs and gradually move towards more difficult songs 10. At the beginning of the book, you can find all the presented guitar tabs in a table, which you can open immediately by clicking on the title of the song (you don't have to scroll there, your index finger won't get tired) 11. By clicking on the orange

arrow next to the songs, you can jump back to the above-mentioned table 12. Thanks to the digital format, you can practically project the guitar tabs onto the screen, so everyone has access to the lyrics and chords of the song in a group This guitar book is more than just a collection of chords and techniques. It's a roadmap for your growth as a guitarist. Whether your ambition is to strum your favorite songs around a campfire, perform on stage, or compose your

own music, this guide will equip you with the tools, knowledge, and inspiration you need.
