For decades, modern seekers have experimented and studied with many diverse teachers and religions, but Stuart Wilde says in that toward the end of a long spiritual journey we all seek the same thing: redemption. None of us is perfect, and yet through embracing that imperfection and reconciling it, we become a complete being—encompassing both the light and the dark. As Stuart says: "Many mystics, holy people, and even the Hopi Indians have predicted a new age of enlightenment, and they are not wrong in my view. It has arrived, and with it has come a whole host of fascinating phenomena never seen before. We are stepping into a magical new era . . . the age of forgiveness." It is when the ivory tower of the ego's ideas falls that we can then embrace a new humility, allowing us to become ever more genuine, compassionate, and real. In this fascinating book, Stuart makes the point that the process of redemption and forgiveness comes from incorporating the Three Graces in one's heart: tenderness, generosity, and respect.

In high school and technical college, the subject how to achieve your dreams was never an elective that was available. Maths, English, geography, and the like, were really the only options. Our parents told us to try hard, get good grades, and do our best so that we could get a good job. However, the secrets of success remained hidden and these were things that we had to seek and find out for ourselves. *Seven Secrets* is a powerful and to-the-point summary of everything you ever wanted to know that was never taught in school. How do you achieve a dream? How do you believe in yourself and become successful in life? How do you make your dreams a reality and get what you want? These are the questions that are directly answered in *Seven Secrets*. You are already smart enough; you deserve happiness and success. *Seven Secrets* will show you how to achieve your dreams.

Please note: This is a companion version & not the original book. Sample Book Insights: #1 The first step in the 33 Steps is called I Am God. You must accept the idea that the God Force is within you. When you perceive God as a force outside of you, you can't use its energy properly. Once you internalize the force, and it is not just a vague intellectual concept of the God within, then you can feel the God Force inside of you. #2 Your first power is to believe in God. This may seem egotistical, but you are not embracing the idea of God to talk about it or show off your Godlike qualities. Rather, you are silently internalizing the idea that the God Force is within you as a spiritual feeling. #3 To become free and activate the Infinite Self, you must abandon the dogma of the ego and adopt a more fluid and open approach. Otherwise, you are perpetually stuck in the agony of the ego. #4 You are the God Force within. You have the power to control your life. You must accept the infinity within you and begin to rely on the power of your intellect and perceptions of the ego's world.

In this book, Stuart Wilde gives you the keys to levels of metaphysical comprehension and sophistication not normally understood. Stuart says that we are in the Kali Yuga, the Age of Destruction, when the self-correcting intelligence of the planet (Gaia) will take back Earth on behalf of the animals, nature, and the little children. He says there are battles currently raging in the spiritual worlds between the forces of light and the ghouls (dark entities) in order to free us all. He describes a power he calls the Solar Logos, which he says comes to Earth to deliver a rebirth he calls the Renewal. As such, he calls this time the "End of Days"—not because the world will end, but because it is the end of the world as we know it.

One day, in the very distant future you will embark on a journey of such transition, that you have absolutely no idea what to really expect. You will undergo a complete transformation; you will have to leave this place, shed this body, bid farewell to life as you know it, and go somewhere you are not familiar with. Has that thought ever frightened you? You will have to leave behind everything that you love and everyone you adore, possibly forever! There wont be any occupation to keep you busy out there, because you dont need to earn a living to feed, clothe and shelter the body which you have left behind. You will no longer have the eyes to appreciate a beautiful sunset, the nose to smell the fragrance of a flower or the tongue to taste all the foods you once enjoyed. Have these thought ever entered your mind? Are you prepared for what is inevitable, or do you not believe in an afterlife so it is something that does not require any preparation?

"It's hard to align with money if you think that it is evil and nasty. But once you come to an understanding that money is neutral, it's easy to see that having money does not necessarily deprive somebody else. There's no reason why you can't be very rich and still be an extremely spiritual and wonderfully generous person—aligned to the God Force—with a huge heart, and compassion for everyone you meet." — Stuart Wilde

Atlantic Publishing Company

Stuart makes the point that creating miracles in our lives is no more complicated than understanding the metaphysics of the Universal Law, which states that within human beings there lies an immense power . . . and this power is impartial and unemotional. And because that law is indestructible and therefore infinite, we know that the power used by miracle-makers in the past is still available today. Yet, in our modern society, we are brought up to believe only in those things we can logically understand. We are not taught that the Universal Law has limitless potential or that this power is at our disposal and can be used to work miracles in our lives.
